rise to a series of protracted, insidious, and devastating affections.

Few of those who give way to this pernicious practice are nware of the consequences, until they find the nervous system shattered, feel strange and unaccountable is sensatious, and vague fears in the mind. [See pages, 27, 28, 29, of Dr. K.'s book on "Self-Preservation."]

The unfortunate thus affected becomes feeble, its unable to labor with accustomed vigor, or to apply his mind to study; his step is tardy and weak; he is dull, irresolute, and engages even in his seports with less energy than usual.

If he emancipate himself before the practice has done its worst, and enter matrimony, his marriage is unfraitful, and his sense tells him that this is caused by his early follies. These are considerations which should awaken the attention of all who are similarly situated.
