AN ACCOUNT THREE MILES LONG .- The last quarterly returns or account of the business of the New York city post office, which was received at the Washington Department a day or two after the close of the quarter, if stretched out page by page continuously, would make a string of paper quite three miles long !

HISTORY OF OUR ABUSED CREDIT .--- We present the history of our abused credit during the past week :

Monday, I started my bank operations; Tuesday, owned millions, by all calculations; Wednesday, my brown stone palace began ; Thursday, drove out a spanking bay span ; Friday, I gave a magnificent ball; Saturday smashed-with just nothing at all.

GIRCULAR: TO THE SIGK. The first hospital sur-ing igeons and modificial publicists of Europe samit the unparalleled anti-inflammatory and healing properties of this Ontment; governments sanction its use in their unparalleled, anti-inflammatory, and meaning properties of this Onintment; governments sanction its use in their naval and military services; and the masses in this coun-try and throughout the world repose the utmost confi-dence in its curative properties. It pretrates the sour-ces of inflammation and corruption which underlie the external evidences of disease, and neutsaize the fiery el-ements which feed and exasperate the malady.

Rheumatism, Scrofula, Erysipelas. These are among the most terrible and agonizing dis-eases of the muscles, the flocky fibre and the skin; yet in their worst forms, and when seemingly incurable, they invariably disappear under a persovering application of this soothing, healing autidote to pain and inflammation. Salt Rheum, Fever Sores, Stiff Joints. In all cases of Sall Rheum, where medical waters, lo-tions, and every recipe of the pharmacopea have proved useless, the Ohtment will accomplish a thorough cure. Percer Sores heal quickly under its influence, and its re-laxing effect upon contracted sinewsis truly wonderfal.

JOHN SCHNIDT IN FUNDS .-- John Schmidt is a German Banker in Louisville. He suffered a run, was, compelled to suspend, but did not close his, "doors. He simply stuck up a notice in high Dutch that he was going to have some money pretty soon. Two days after he took down the notice and put up another stating that he had \$15,000 on hand. There was another run, and the \$15,000 was soon gone. John put up the old notice again, and next day was again in funds when, in accordance with his old plan, he changed the notice. At last accounts there was no run on John Schmidt, and his depositors had all come back to him. That was straightforward Dutch

pluck and honesty .- Buffalo Com. Advertiscr.

The Times .- We have the most cheering indins that our commercial cities are rapidly recovering from the recent financial crisis; and that the forebodings of a complete stagnation of business, and a consequent want of employment for the laboring classes, are greatly exaggerated .---Confidence is again becoming established-money is easier of procurement, and the prices of securities for investment are improving. It is confidently asserted, by those capable of judging correctly, that, (although business will hereaftor be contracted; more regard being had to the useful and substantial, than to the fashiopable and speculative,) we have past over the worst of the panic, and that a season of prosperity is before the enterprising and industrious. It may, be some weeks yet before we in the country feel the full effect of the improved order of things, but it must come, just as surely as did the "Hard Times."

The It is intimated that President Buchanan will discuss, in his forthcoming mossage, the acquisition, by purchase, of the Island of Cuba .---Our government once offered \$150,000,000 for the Island, but Spain then thought proper to decline the offer. The disposition may now be different. We know that Mr. Buchanan has a high appreciation of the beautiful Island-is anxious that it should be one of the stars in the galaxy of States where it properly belongs; and also believes that it would pay the purchase money, in the saving of duties to this country, in ten years. We trust he may give his views in the pressage. Hurrah for the State of Cuba I: the queen of the Antillas!

The confusion in monetary affairs, through which, wo may now say, we have passed, proved beytind controversy, the close connection that ar. is between our commercial cities and the comthe middletown Dana some days sind got it.
