LEBANON VALLEY RATLEGAD. - Several conflictstatements have appeared in the papers withthe last few weeks, relative to the work upon unfinished section of the Lebanon Valley Railad between Hummelstown and Harrisburg.-Ve have now the authority of the General Superintendent for saying that arrangements have been made by the Company for continuing the work upon this section without further interruption, hat it is in a state of great forwardness, both at the Swatara and at the Beaver Creek, and that it will be completed so as to enable the passenger trains to run through to Harrisburg by the first of January next. The track is now laid to within a mile of Hummelstown, and passengers will be conveyed to that station in the course of a month or two from this date .- Reading Gazette.

The Concert of the Perseverance Sax Horn Band on Thursday evening last, was a triumph. It was well attended, notwithstanding the rainy weather. The members of the band proved themselves already quite efficient in discoursing harmonious sounds, (thanks to their excellent instructor and leader, Messrs. Robotham and Stanley.) From all appearances the "Perse Band" is now an established institution of Lebanon, and we trust it will be so managed, in peace and good will, as to remain such. Our citizens feel proud of it, and no doubt will, at all times, give it substantial support, if deserved; as an earnest of which the members need only refer to last Thursday evening.

BALLOON ASCENSION-To-morrow Mr. Steiner will make a Balloon Ascension, from the vacant lot near the Gas Works, at the West End of this borough. The ascension is to take place at 3 o'clock, P. M.

Balloons are an ancient invention, but the advantage of filling them with Gas was not made evident until about 1783, when two ingenious mechanics of France, caused a balloon to be put together, gas tight, and on the 27th of April, 1783, sent it up to their great satisfaction. A comical mishap attended its descent, which occurred near the little village of Gonnesse, ten miles northeast from Paris. The inhabitants hereabout had never heard of a balloon, and when they first caught sight of the descending machine, imagined it to be an evil spirit. The priest of the parish was called out to exorcise the devil; and, the Mayor, followed by a seant train of the most daring spirits of the town, approached the unwieldy mass, which lay upon the ground rolling and tumbling about, as the gas within was agitated.

To the command to depart the monster paid no seed, and, finally, the lookers-on conceived that t must be the moon which had fallen from the cavens. The heaving and tumbling continuing, ne of the bravest of the farmers, committing his soul to Honven, advanced, pitchfork in hand, and gave the monster a violent stab, which caused the as to rush out with a sharp noise, and the balon to collapse. Herenpon the crowd took courto, and assuled it with sticks, stones, swords, d guns, till the innocent linen was rent into sand pieces. Balloon ascents soon grew comon ; and experience enabled aeronauts to matelly modify and improve the shape of their balms, and render less perilous their aerial voyages. There will be a tremendous turnout of our ntry people to morrow (Thursday,) to see Mr. teiner go up. The ascension will be made about o'clock, so as to enable people from the castern tion of the county to return home by the 34

A man subscribing for the Advertiser, and immediately after having his likeness taken, makes a much better picture than he would without first having performed a sensible act.

Mr. David S. Raber has removed his Drug Store to his new building, opposite the Eagle Buildings. With Gas Light, new bottles and ables, an obliging disposition, and all other business-like requisites, the improvement adds greaty to the fine looks of the locality, and is a subject general admiration.

The Real Estate of Rosanna Shroff, dec'd., South Lebanon, containing 10 acres and 103 perches, with buildings, was sold lately by Major

Embich, to Joseph Dohner, for \$2,455. It is said that one of the "Lebanon Fur ces" will shortly again be started. We trust

that this is not more rumor. The stockholders of the Lebanon Bank,

We learn that John B. Heister, Esq., of this Borough, has been appointed an Agent of the Sinking Springs Fire Insurance Company for Lebanon County.

725 On Monday of last week Mr. Deininger took his seat in the Board of County Commissioners of this county. Mr. Baum retired. The Board now consists of Messrs. Shultz, Bachman and Deininger.

The Church of the Evangelical Association in Myerstown, recently improved, will be dedicated over on Saturday and Sunday, the 14th and 15th inst.

Some of our firemen friends took offence at a remark in last weeks Advertiser viz:—that the people should disregard any false alarm of fire that might be raised during the Concert. We are sure the remark was not intended as a reflection, and would not be construed as such if properly considered. We honor our fire companies equally, and wish to be understood as occupying a non-tral, or rather independent position in regard to both. We have never printed anything to warrant a contrary supposition. We shall praise their merits and condemn their faults, as occasion may which, we feel confident, none will find fault .--We have never occupied any other.

The "Mule team" which was to haul all he Democrats out of Bradford county, is offered for sale—there being no use for its services, the Democrats having determined to remain. It should be bought by the Republicans of this couny; it might be made serviceable to haul the prisoners from our jail to the city.

Messrs. Deliuff, of this place, and Danoury, of Middletown, have started a daily line of stages between Hummelstown and Middletown.

Marbeson's Sale of Town Lots will take place on Saturday evening. See Adv. These ots are located in one of the most pleasant parts of town, and will make profitable investments.

A fellow came rushing into our office or Friday, and exclaimed-"Why was the Perse Band, last evening, like a solvent bank?" Beng unable to see the connexion, we submitted .-Because their notes were par!" We had the ellow kicked down stairs.

"ALTEN WEIDER SOMMER."-Saturday and Sunlay were pleasant days overhead, and the last of the kind we shall probably have this year. Our people could, no doubt generally, with a little additional care and trouble, cultivate equally fine vegetables with Mr. Richards'. But no, cultivation is of no account with most gardeners. They put the seed in the ground, and then trust to Providence. Our thanks to Mr. R. for his remembrance.

MR. JOHN DALEY, of this borough, is about opening a new Daguerrean and Photograph Gallery, in Mr. Stine's New Building, adjoining Reinhard's Hotel. Mr. D. has received excellent instruction in the art, and is a young gentleman deserving of the public encouragement.

If the Post Office Department will discontinue the Mail entirely between Reading and Harrisburg, via this place, private enterprize will som supply the deficiency. There is scarcely a more miserable arrangement of mails in all the wilds of the west, than this of ours at present .-It is an exclusive night service and no man knoweth when it cometh or when it goeth. If the Department can't afford to give the mail to the R. R. Company, let them oblige the present contractors to move at proper hours and some facility. As at present, a man with good legs, would shame the expedition of the mails between Reading and Harrisburg.

Col. J. W. Fonney, will deliver a Lecture for the Reading Rifles, on the 28th inst. Couldn't the Col. be induced to come to Lebanon by one or the other of our Societies or Companies? We are certain our old Court House wouldn't hold all the people anxious to hear him.

GAS CONSUMED .- During the month of October, including a few days of September, between 90,000 and 100,000 feet of gas was consumed in this place.

Rev. E. De Schweinitz formerly paster of he Moravian Church in this borough, but now of Philadelphia, has just returned from a visit to
Europe. We extract the following anecdote from
the Reminiscences of his journey, published in
the Manusian (The Hangarian apposite to me the Moravian. "The Hungarian opposite to me seemed to be alternately pleased and displeased with some of the newspaper articles which he was reading, to judge by the varying expression of his face. Presently he handed me the paper, and pointed to a paragraph. I read it, and found it to be an account of a very fat man living somewhere in the United States. As I returned the paper, he said to me in German :"-"A most remarkable account, provided it is true, for the Americans are well-known to be liars!" "That is quite a compliment for me," I answered. "Why so?" "Because I am an American." "What-from North America?" "Yes." "Oh, my dear sir, I referred to the editors of newspapers!" Now unfortunate ly I was an editor too. All this occurred as we drew near to Gloggnitz.

RAISINS, CRANBERRIES, CURRENTS and CITRONS—a fresh lot just received, and now for sale at Graeff's Confectionery Store. Mr. Graeff is now in the city buying a new stock of Goods in his line. They will be opened

and for sale here in a few days. The Pennsylvania Rail-roadCompany has creased its rates of fare fully 20 per cent. We doubt the wisdom of such an increase at this time. HEAD QUARTERS.—Great complaint is made by ome of our young men that there is no amusement of any kind in Lebanon, to spend the evenings and drive dull care away. Pitiful objects, indeed! There is the Franklin Literary Institute, the Teachers' Association, Corn Huskings, (if invited,) newspapers and books, and, best of all, Religious Meetings every evening of the week.

Hoors !- A gentleman (if the ladies allow me to term him such?) who had a very strong desire require, regardless whether the "Perse" or the to be funny, sat down upon a lady's hooped-pet-"Union" are the subject. This is a position with skirt, the other evening. With a desperation oqual to any emergency, he whistled in his usual good humor, "I'm sitting on the style, my Sue." "HAND TIMES" is something the "Local Re-

orter" has but little faith in . But the following, related the other day by a gentlemon from the west, if true, is almost convincing;-"Yes, sir, the fence has been taken away from around our town and about half the inhabitants have escaped to Iowa. The rest are too poor to get away. I am however, gratified to see my old native place, Lebanon, still in so flourishing a condition."

For the Advertiser. Mr. EDITOR:-I am a stranger in your town and unacquainted with your ways of doing business, but nevertheless, by your permission, shall throw out a few suggestions for your firemen to profit by-if they think proper.

Your firemen are efficient; but with the will, nergy, and bravery, they possess, might readily be doubly so, by the application of their good qualities in a systematic manner. I observed their whole modus operandi at a recent fire in your neighboring village. Their first effort was race in getting their engines to the fire; in that they exhibited an amount of strength truly astonishing but it was all more strenth, the same as though so much brute force had been applied. If efficiency consisted only in getting to the fire first, your firemen would be the most efficient I ever saw. It consists in more than that, but When en the ground, where everything should be conducted in an orderly and systematic manner, confusion and noise reigned supreme; and it Den. Our friend, gone to the Blue Mountains, seemed to me that the firemen were the very ones bear huntin', owing to the rainy weather of last creating the "noise and confusion." There was week, has not yet returned. We expect to hear neither order nor system, and every one was a commander,-and he of the strongest lungs flattered himself with carrying the palm of efficiency. At one place of minor importance a dozen were shouting and bustling-making much haste but no speed; and at another place work of importanen was neglected because no one was there to attend to it. On the whole, with due desference. I thought it took longer from the arrival of the engines on the ground to the getting of water on the fire, than I ever knew it before to take. Why do they not distribute the work in proper order, and appoint squads to attend to certain things? Let every one have his particular duty to attend to, and nothing else; and let it be done quietly and peaceably. The officers should give the words of command,—the privates should make their tin-ware establishment to the basement of as little noise as possible, so that they can hear and obey. With you the privates commanded and the officers looked on in amazement at the neanor, subjecting the perpetrator to imprisontheir work on scientific and system and when yours learn that, with the energy they on: I throw out these bints in kindness, and trust.

Holloway's Ointment and Pills—Look out for Counterfeits.—These can always be detected by the absence of the Water mark, which appears in every leaf of the genuine book of directions. Unless the words "Hollowey, New York and London," are visible in semi-transparent letters in each page, the medicine they envelope is spurious. To deplete the system by bleeding and violent purging, is to deprive life's machinery of its motive power. These great remedies distinct the blood and the secretions, and cure external and internal complaints by destroying their seeds in the vital fluids.

PHILADELPHI A, November 9, 1857. Breadstuffs are quiet to-day. There is some litle demand for export, but shipping flour, standard brands, are generally held above the views of buyers, most holders refusing \$5.25, which is the highest limit of most of the orders now in market. A sale of 600 bbls, good Western extra is reported at \$6, and 175 bbls. fancy family do, at \$7 per bbl. The local trade demand is to a fair extent, within the range of \$5.37½a\$5.75 for common and choice brands, including baker's flour at the latter rate; \$5.75a\$6.25 for extra, and \$6.50a\$7.50 per lbl for fancy family and premium flour, as to brand and quality. Corn meal unchanged but dull, and generally held above the views of buyers, who only offer \$3u\$3.121 per bbl. for country meal. Ryc flour is selling in a retail way at \$4.50 per bbl.— Wheats come in slowly and find ready sale at firmer quotations; 7,000 bu. have been taken at 120a 128c. for common to good and prime red, and 130 . al35e. for white. Corn is wanted at 75c., at which rate about 1500 bu, have been sold, including white at the same price, all affoat. Some new Corn has been sold to the distiller at 56c. Oats are rather quiet and held at 33c. for Delaware, and 34 a35c for Pennsylvania, without much doing in the way of sales. Rye is unchanged, and held at 73a 75c, the latter for Pennsylvania.

GENERAL MITETING of the Stockholder of this.

Bank, will be held at the Banking House, on Tucs, November 3, 1857, (the day of uniqual meeting,) at 10
book, a. m., for the purpose of taking into consideration.

Great Crowds-Low Prices ONE morning, last week, as a friend and myself, were leisurely walking out Market street, and on arriving near the corner of Quillford street. Our attention was attracted to a large crowd of Ludies—and, nearly all of whom were provided with large market baskets, and others with satchels hanging to their arms, and were evidently intent upon the same object. Upon hapity, we found that in the Mansion House, on the corner of Guilford and Market streets, is located the extensive bry Goods, Circery, and Queensware Store of our holies and alfable friends, FUNCK & BRU, who have just opened a large stock of Fall Goods, and that the great crowd of Ladies were their regular customers, who may be seen daily at their counters, purchasing their goods. All we saw were evidently satisfied with their purchases; were loud in the praises of the excellent quality of their stock, and all were of the unanimous opinion that FUNCK & BRO. soll the best qualities, at lower prices, than any of their competitions. So our advice would be to you, one and all, both great and small, to give Funck & BRO. a call, and they will surely try to please you.
