ABECTOTE.—An instance of absonce of mind
 couried a day or two since, where an explorer of
 shamical science burnt his nose by a fluid lamp
 with which he came in contact. We meth him a
 day or two afterwards, with a large plaster on his
 seas and asked him about his hurt. "It looks
 bad, don't it?" said he. We assured him it didn't
 look snything slee, and asked him if it hurt him
 much whea it was roasting. "Ne'er a bit," roplied
 he; "in fact I didn't feel it at slil, I was so abson bed in carporiments; and, though I kept smelling
 something like burnt meat, I thought it was a din more cooking somewhere, and kept right on till my
 gludent told me my nose was on fire, and, putting
 my hand upon it, I found it was even so. I
 thrust te into a bucket of water and extinguished
 it; but it has left the mark you see."

ARECOUTH OF RANDOLPH.—There is no end to
 the sayings of John Randolph, of Roanoke. He
 was on one occasion in a tavern, lying on a sofa
 the partor, waiting for the stage to come to the
 door. A dandified chap stepped into the room
 with a whip in his hand, just come from a drive,
 and attaching before the mirror arranged his hair
 and collar, quite unconscious of the presence of
 the gentleman on the sofa. After attitudinizing a
 while, he turned to go out, when Mr. Randolph
 saked him:
 "Has the stage come?"

"Stage, sir ! stage!" said the fop, "I've nothling to do with it, sir."
"Oh! I beg your pardon," said Randelph quietly, "I thought you were the driver!"

A HARD Hir .- The Fremont (Ohio) Journal tells a good story of a nominee for representative in that county, who was addressing some twentyfive or thirty persons in the usual inflated style of politicians, and making the most outrageous charges against his opponents, when he paused suddenly and exclaimed: "Now, gentlemen what do you think?" Instantly a man rose in the assembly, and with one eye partly closed, modestly, with Scotch brogue, said: "I think, sir, I do indeed, sir, I think, that if you and I would stump the county together, we could tell more lies nor say other two men in the county, sir, and I'd not esy a word myself, all the time, sir!"

PROPOSED AMENDMENT .- It is proposed in Illinois to amend the law of marriage, so as to re quire that the prospective husband and wife. or any given day, enter in the office of any officer legally empowered to do such a duty, a written declaration of intention to become man und wife. From that day, for one year, let them associate as lovers, or break the engagement if they choose; then, at the end of the year, if they again express their determination to become husband and wife. let the contract be sealed.

"Times are improving, and men are get sing on their legs again," said a gentleman to his friend. "How so?" "Why, those who used to ride down in their carriages, now walk."

The Yankee has been styled "a well de-Veloped interrogation point."

The afflicted are cautioned against the use of Patent Bedlicines, for there are so many ingenious snares in the columns of the public prints to catch and rob the unwary sufferers, that millions have their constitutions ruined sutterers, that millions have their constitutions rained by the vile compounds of quack doctors, or the equally poisonous nostrums vended as "Patent Medicines." I have carefully analyzed many of the so-called Patent Medicines, and find that nearly all of them contain Corrosive Sublimate, which is one of the strongest preparations of mercury and a deadly poison, which, instead of curing the disease, disables the system for life.

Three-fourths of the patent nostrums now in use are put up by unprincipled and ignorant persons who do not understand even the alphabet of the Materia Medica, and are equally as destitute of any knowledge of the human system, having one object only in view, and that to make money regardless of consequences.

These symptoms if allowed to go on—which this medicine invariably removes—soon follows Loss of Fower, Fatuity, and EPILEPTIC FITS—in one of which the patient may expire. Who can say that these excesses are not frequently followed by those direful diseases—IN-SANITY AND CONSUMPTION? The records of the Insane Asylums, and the melancholy deaths by Consump-tion, bear ample witness to the truth of these assertions. In Lunatic Asylums the most melanucholy exhibition ap-pears. The Countenance is actually sodden and quite destitute—neither Mirth or Grief ever visits it; should

a sound of the voice occur, it is rarely articulate.

"With woeful measures wan despair
Low sullen sounds his grief beguiled."

We respectfully call the attention of persons a We respectfully call the attention of persons about to build, to our invaluable method of roofing, now much used throughout the principal cities of the United States and their vicinities. This mode of roofing having all the combined requisites of cheapness, Durability, and Security against Fire and Water, and dispensing with high gable walls; the roofs require an inclination of not more than three-quarters (2) of an inch to the foot, and in three-quarters (2) of an inch to the foot, and in many cases saving the entire cost of rafters—the ceiling joist being used.

The gutters are made of the same material, without any extra charges; consequently, our roofs are put up at almost half the cost of either

Tin, Slate, or Shingles. The material being of an imperishable nature, it surpasses all others in Durability;—besides, in case of any casualty, it is the most easily repaired of any other roof now in use. Yet, the best proof we can offer as to its being both fire and water proof, are our many re-ferences, to any one of whom we are at liberty N. B .- But let it be distinctly understood

(since we manufacture our own composition, and do the work in person,) that we warrant all our work proof against both Fire and Water; if they prove contrary, we will most willingly abide the results. The materials being mostly non-conductors o heat, no roof is so cool in summer, or so warm in winter. Those wishing to use our roof should give the rafters a pitch of about one inch to the foot.

Experience has rendered Dr. K. a most successful practitioner in the cure of all diseases of a private nature, manhood's debility, as an impediment to marrisage nervous and sexual infirmities, diseases of the skiu, and those arising from abuse of mercury.

TAKE PARTICULAR NOTICE.

There is an evil habit sometimes indulged in by boys, in solitude, often growing up with them to manhood; and which, if not reformed in due time, not only begets serious obstacles to matrimonial happiness, but gives rise to a series of protracted, insidious, and devastating affections.

Few of those who give way to this permicious practice

The Medicine of the Million

HOLLOWAY'S PILLS.

HOLLOWAY'S PILLS.

THE EXCITING CAUER OF SIGKNESS.—The blood is the life-sustaining agent. It furnishes the components of flesh, bone, muscle, nerve and integument. The Stomach is its manufactory, the veins its distributors, and the intestines the channel through which the waste matter rejected in its productions is expelled.—Upon the stomach, the circulation and the bowels, these Pills act simultaneously, relieving indigestion, purifying the fluids, and regulating the excretions.

The National Disease.

Bilious Affections. The quantity and quality of the bile are of vital importance to health. Upon the liver, the gland which secretes this fluid; these pillsoperate specifically, in all liby rectifying its irregularities and effectually curing Jaundice, Bilious Remittants, and all the varieties of disease generated by an unnatural condition of the organ. Liver Complaints.

Unless the bowels perform their functions properly, the whole body suffers. Tens of thousands die annually of Dyscatery, Diarrhoss, Chronic Constipation, and other diseases of those waste pipes in the system. The effect of the pills upon all intestinal disorders, whether casual or epidemic, is a placenomenor in indicitle. By following the printed directions, the most alarming cases of bowel complaint are promptly controlled.

A Word to Females.

The local debility and irregularities which are the especial annoyances of the weaker sex, and which, when neglected, always shorten life, are relieved for the time being, and prevented for the time to come, by a course of this mild but thorough alternative.
