The afflicted are cautioned against the use of Patent Medicines, for there are so many ingenious snares in the columns of the public prints to eatch and rob the unwary sufferers, that millions have their constitutions ruined by the vile compounds of quack doctors, or the equally poisonons nostrums wended as "Patent Medicines." I have carofully analyzed many of the so-called Patent Medicines, and find that nearly all of them contain Corresive Sublimate, which is one of the strongest preparations of mercury and a deadly poison, which, instead of curing the disease, disables the system for life.

Three-fourths of the patent nestrums now in use age put up by unprincipled and ignorant persons who do not understand even the alphabet of the Marenta Medicines, and are equally as destitute of any knowledge of the human system, having one object only in view, and that to make money regardless of consequences.

We respectfully call the attention of persons about to build, to our invaluable method of roofing, now much used throughout the principal cities of the United States and their vicinities. This mode of roofing having all the combined requisites of chapness, Durability, and Security against Fire and Water, and dispensing with high gable walls; the roofs require an inclination of not more than three-quarters (2) of an inch to the foot, and in many cases saving the entire cost of rafters—the ceiling joist being used.

many cases saving the entire cost of rafters—the ceiling joist being used.

The gutters are made of the same material, without any extra charges; consequently, our roofs are put up at almost half the cost of either Tin, Slate, or Shingles. The material being of an imperishable nature, it surpasses all others in Durability;—besides, in case of any casualty, it is the most easily repaired of any other roof now in use. Yet, the best proof we can offer as to its being both fire and water proof, are our many references, to any one of whom we are at liberty to refer. N. B .- But let it be distinctly understood,

(since we manufacture our own composition, and do the work in person;) that we warrant all our work proof against both Fire and Water; if they prove contrary, we will most willingly abide the

results. The materials being mostly non-conductors of heat, no roof is so cool in summer, or so warm in winter. Those wishing to use our roof should give the rafters, a pitch of about one inch to the foot

TAKE PARTICULAR NOTICE.

There is an evil habit sometimes indulged in by boys, in solitude, often growing, up with them to manhood; and which, if not reformed in due time, not only begets serious obstacles to matrimonial happiness, but gives rise to a series of protracted, insidious, and devastating affections.

affections.

Few of those who give way to this pernicious practice are aware of the consequences, until they find the nervous system shattered, feel strange and unaccountable sensations, and vague fears in the mind. [See pages, 27, 28, 29, of Dr. R.'s hook on "Self-Preservation."]

The unfortunate thus affected becomes feeble, is unable to labor with accustomed vigor, or to apply his mind to study; his step isflardy and weak? he is dull, irresolute, and engages even in his sports with less energy than usual. To those especially that are suffering from the Piles, we offer a sure remedy.

From Rev. Mr. Enterline, Pastor German Church, Cov. Conway and Sharp streets:

For the benefit of the afflicted, I feel it a duty to state what a blessing a medicine, known by the name of "Bull's Recto Mistura," has been to me. I have been afflicted with the Piles for eightlyears, during which time I tried my own remedies, as a practitioner, and, many others, but without success. Having heard of Mr. Bull's Pile Remedy, I tried it; and though I used but one half-bot-le, I can say that I am perfectly oured. I also used it in a violent case of Tetter, which extended over the whole body, and in less than two weeks it disappeared, and the skin became clean and smooth. I strictly adhered to the directions.
