THE LEBANON ADVERTISER.---A FAMILY NEWSPAPER.

Lebanon Advertiser.

TERMS, &c. - - - - $1 50 A YEAR.

LEBANON, PA., DEC. 16, 1857.

HOME AFFAIRS.

☞ The farm of Michael Brubaker, dec'd., in Heidleberg township, containing 86 acres, was lately sold at public sale, to Mr. John Funk, of North Lebanon township, for $95 per acre.

☞ We learn that the Union Fire Company has purchased from Mr. Wm. Shirk, for $1,650, the vacant lot in Market street, between Church and Hill streets, for the purpose of erecting an Engine House thereon.

☞ One of the firm of Reisenstein & Bro's is now in the city purchasing a new stock of Ready-made Clothing, Jewelry for the Holidays, &c.—Good bargains can always be obtained at their store.

Close of Navigation.—Yesterday (Tuesday,) was the day officially fixed upon for finally closing navigation on the Union Canal for the year, and drawing off the water for improvements and repairs.

Don't Forget the Old Place.—Mr. Esur has laid in a large assortment of Candies and Toys for the coming Holidays. Kriss Kinkle notions more abound at his place than at any other in the county. Don't forget to call.

Cooking Ranges.—Mr. Henry Bubb has lately put up a number of Cooking Ranges in this borough, which need only be seen to be appreciated. For family convenience there is scarcely anything that surpasses them. We saw the one put up for Major Moyer, and were so highly pleased with it that if it were not for "poverty's sake," we would find it impossible to get along without one of the same kind.

Lectures.—Rev. Mr. Wedekind will deliver a lecture in the Court House, before the Franklin Institute, to-morrow evening. Subject—"Phases of the Times." No charge for admittance.

On Monday evening, the 28th inst., Col. John W. Forney will Lecture in this borough on "The Success of Adversity."

We need not urge upon our citizens an attendance to these Lectures. Both gentlemen are well known as eloquent speakers, whom all knowledge-seekers will rush to hear.

☞ Our respected townsman, E. M. Richards, Esq., will leave in a few weeks for Mexico. He has been of a corps of Engineers to survey a railroad route from Vera Cruz to the city of Mexico; and thence by or to the Pacific Ocean. He goes by way of New Orleans and will be absent about six months. We trust he may have a pleasant time of it, and return to his family and friends in good health.

☞—E. M. Richards, Esq., of this borough has made some experiments relative to the cost of coal and other lighting materials, with the following results. He regulated the flow of gas till it gave the same intensity of light as the article with which it was compared. The following is the result:—

Material.	Cost per hour, in *mills*.	Remarks.
Gas,	4¾	Cost of wicks neglected; nevertheless slightly in favor of gas in economy.
Burning Fluid, per gallon,	5	
Sperm candles,	12	The candles were better protect'd from drafts of air than they would have been in ordinary use.
Adamantine "	12	
Gas,	3	Candles well-protected from air.
Tallow candles	3¼	
Gas,	8½	Cost of wicks neglected.
Lard Lamp,	11	

☞ We presume there are very few places in this Union, and probably none in foreign countries, so poorly protected at night, as Lebanon.—Our police force has dwindled down to a single individual, or rather two, who are on duty week about. The impossibility of one man keeping a watch over the peace and property of upwards of 4000 persons is evident to every man of sense.—A couple of drunken rowdies can defy him, and the incendiary and thief can shape their movements in accordance to the impossibility of one man being at a dozen different places at the same time. Notwithstanding this, we are sorry to find assaults upon our police encouraged, having for their object the dispensing entirely with them.—The *intent* cannot be the best—for that is a trifle to persons possessing property valued by the assessors at more than half-a-million of dollars; it cannot be because the police we have are unworthy—in that case their unworthiness would be exposed, and not untruths—which can be proven as such—brought to bear against them. What then can be the object? Is politics at the bottom of it? or is it produced by *respectables*, as noticed by our correspondent, who wish night to cover up their movements entirely?

BY OUR LOCAL REPORTER.

LECTURE.—If you appreciate an interesting and instructive Lecture, go to the Court House in time, on to-morrow (Thursday) evening, and procure comfortable seats.

RISE EARLY.—We would advise those of our lady readers who make a practice of rising late, (say 9 or 10 o'clock, a. m.) that there is nothing like morning air for rosy cheeks. It beats *paint* all hollow.

TELEGRAPH.—The telegraph wire was put up along the Lebanon Valley Railroad last week. The citizens of "old fogy Lebanon" are now able to ride on the cars, receive news by telegraph and read it by gas-light!

BENEVOLENCE.—My attention was arrested a few weeks ago, by an article in the *Advertiser*, appealing to the Ladies of our borough to organize a Benevolent Association for the relief of the destitute. As no one has yet taken the laudable undertaking in hand, I shall, in consequence of the President's Message, defer my remarks thereon until next week.

A PRAISE-WORTHY MOVE.—We are rejoiced to learn that a number of our heretofore "fast young men" are beginning to see the "errors of their ways," and organising themselves into a Temperance Association. We are informed that at the last meeting "Rambler" stepped forward and made his first *debut* at oratory. He appealed to all in behalf of temperance and virtue, and his address is spoken of as most eloquent! The orator for the next occasion is not yet announced.

SPORTING.—One day last week we raised a rather jovial crew of good fellows to go on a regular rabbit hunt. After shouldering arms, we made good time, and were determined to fully ascertain the amount of pleasure that can be realized in a well conducted hunt. It is scarcely necessary to state that we were successful. As soon as we arrived at our place of destination, with a number of the best dogs in the county, several full-grown rabbits flew past us, and quick as thought we gave them the contents of our gun, which doubled them up like rags. The sport now waxed warm as a number of bunnies broke cover, and were hunted down by the well-trained dogs. Bang! bang! went our guns until every one in the party was satisfied, after which we agreed to count our game, and found that we had 24 rabbits, six pheasants, and had we come across a bear it would also have shared the same fate. This, we congratulated ourselves, was good shooting. We also saw several partridges, but those who fire upon this bird are not entitled to the appellation of sportsmen. As we delight participating in these healthful sports, our next shall be a coon hunt, and we expect a grand achievement upon the occasion.

For the Advertiser.

The Conclusion.

EDITOR OF ADVERTISER:—The question of the comparative value of Gas and other material of light, has been tested by Mr. E. M. Richards, who decides that *Gas* is the *cheapest*, clearest and cleanest of all others in use. So far as we are concerned this is also decisive with us. Is it so with him who talked of "forstalling bad feeling," and who *saw*—mark the word—"signs of dissatisfaction among some in regard to *the price ?*"—Or, he—the ninny—who didn't want to be "saved?" Bless their kindly hearts, we settled it for them, anyhow; and without a *fee* at that! And poor Othello, too, is now wanting an "occupation!"

A word to Mr. Richards, and we shall have done. We tender you our thanks in giving to the public the result of your experiments, coupled with the assurance that if they have accomplished what they were intended they should do—convince the people of Lebanon, that Gas *was* the cheapest material for light, they also have dampened considerably, we should think, the spirits of those who were disposed to croak.

NO CROAKER.

* In New York and other large cities "bad feelings are forstalled," by a demagogue; when recounting the real or imaginary evils impending over a people. Consequence, riot, arson and bloodshed! *Vide* the latest authority on "*anxious patriotism.*"

For the Advertiser.

Mr. EDITOR.—There are persons in Lebanon so blindly opposed to the police that they spit forth their venom at every opportunity, regardless alike, of truth and common sense.

By their assaults upon the police they have succeeded in having that force reduced to a single individual, who is expected to be at all places at all times. There were no fires when we had a sufficiently strong police force; for then, the presence of a policeman at different points at the same time, answered to protect the property of the citizens. It is only since that force has been reduced that it has proved safe for any person to fire a building, without danger of being seen and arrested by an officer.

A writer in the Courier of last week asks "where were the police" at the time of the fire. There were no police, there being but one officer at present on duty, and he was *not asleep* but a short time before the alarm was given of the fire, he had a man under arrest for drunkeness and met three other individuals who came staggering along. They should have been taken for the same offence, but where were the means to do it? Surely it is not expected that one officer should be able to arrest four persons at once.

The truth is if instead of discharging the police there should be an addition made thereto, we would have less rowdyism on our streets; and, if those persons who lay claim to respectability, and who are in the habit of being out at all hours of the night, were to quit a *business* that seems to be fit only for the night time there would not be such a great outcry against our Police officers, and an efficient force could be kept up. But as long as our *respectables* are seen in the streets in small hours of the morning, so long we will have a respectable opposition, to having policemen in our borough, who in performing their duties must see and know the NIGHT HAWKS.

JUSTICE.

Lebanon County Teachers' Institute.

The Lebanon County Teachers' Institute met in the Beneficial Hall, Lebanon, Dec. 4, 1857.

The Institute was called to order at half past 10 o'clock, A. M., by the President, J. H. Kluge.

On motion by Mr. F. Phillips, J. T. Nitrauer was elected Secretary.

The President then introduced Prof. J. P. Wickersham, who made very appropriate remarks in regard to the necessity of Teachers' Institutes, and the different manner by which they are conducted, and was followed by Hon. Thomas H. Burrows.

On motion by Mr. H. Hauck, the Institute adjourned to meet at half past one o'clock, P. M.

Half past one o'clock, P. M.—The Institute was called to order by the President, J. H. Kluge.

Prof. J. P. Wickersham, after some remarks, lectured on the Alphabet, in which he examined the teachers present, how they were taught, how they teach the Alphabet, and endeavored to show and simplify the best method of teaching it.

Prof. R. T. Cornwell, after some remarks, lectured on the imitations of blindness, in which he examined the Teachers present, and endeavored to simplify the best method of teaching it.

On motion by Prof. J. P. Wickersham, the Institute adjourned five minutes.

Four o'clock. The Association was called to order by the President, J. H. Kluge.

Prof. R. T. Cornwell, lectured on the necessity of Physical Geography, and the method by which it should be taught.

Prof. J. P. Wickersham, lectured on the necessity of Grammar, the best method of teaching it, and in conclusion complimented all for their attendance, &c.

On motion of Mr. F. Phillips, the Institute cordially tender the thanks of its members to Prof. Wickersham, Prof. Cornwell, and Hon. T. H. Burrows, for their presence, and for their kind and able instructions. Prof. R. T. Cornwell, and Hon. T. H. Burrows, complimented all for their kind attention, &c.

On motion of Prof. J. P. Wickersham, it was resolved that the Executive Committee shall prepare business for the afternoon.

On motion of Mr. F. Phillips, the Institute adjourned to meet at 2 o'clock, P. M.

Two o'clock, P. M.—The Institute was called to order by the President—J. H. Kluge—who made some remarks in regard to the preceding instructions.

The Executive Committee reported as follows:

1st. How shall teachers induce scholars to be regular and punctual in their attendance at school?

2d. What is the best method of teaching arithmetic to pupils after they are just commencing the study?

The first question was then taken up and discussed by the following gentlemen: Messrs. Jno. L. Mustard, F. Phillips, S. T. McAdams, H. Houck, J. S. Grumbine and A. R. Kremer.

On motion of Mr. H. Houck, the second question was taken up.

On motion of Mr. F. Phillips, it was resolved that no member shall speak more than once, on the same subject.

The second question was then discussed by Messrs. J. L. Mustard, F. Phillips and J. S. Grumbine.

On motion of Mr. Henry Houck, the discussion was closed.

On motion of Mr. F. Phillips, it was resolved that a synopsis of the proceedings be published in all the English papers of Lebanon, and the *School Journal*.

On motion of Mr. H. Hauck, a vote of thanks was given for the use of the Beneficial Hall.

On motion of Mr. F. Phillips, the institute adjourned *sine die*.

On the evening of the 4th inst., a large audience of citizens was ably addressed in the Court House, by Prof Wickersham and Hon. T. H. Burrows, on the subjects appertaining to education.

The following is a list of the Teachers' present at the meetings of the Institute:

MALES.

Jno. S. Rupp	David Smith
John K. Heagy	A. R. Kremer
Christian Bucher	Aaron Killinger
Levi M. Leisig	A. J. Arnold
John Q. Royer	Solomon Weiss
Jno. L. Mustard	John Hoffman
Henry Houck	W. W. Troxel
S. T. McAdam	Wm. Grumbine
John Eddearmel	J. H. Bassler
Samuel Reisner	J. K. Sprecher
J. S. Grumbine	Jos. S. Miller
Monroe Becker	Mr. West
Wm. G. Ward	Israel Groh
John W. Harbeson.	John Benson
Samuel Harbeson	Jos. Beeson
F. Phillips	David Miller
Daniel Balsbaugh	Isaac Sanderson
J. T. Nitrauer	Richard Melly

FEMALES.

E. C. Mish	R. E. Kremer
S. W. Hall	A. M. Shirk
E. Houck	Catharine Horst
Catharine Zweitsig	P. S. Wheat
A. L. Moore	H. P. Hall
M. E. Stephens	Barbara Horst

J. T. NITRAUER, Secretary.

Fire.—On Monday night of last week the Cider House, belonging to Mr. Jacob Arentz, about 4 miles north of this borough was entirely destroyed by fire. There was a Cider Mill and various other articles in the building, which make the loss several hundred dollars. A strange part of the affair is, that no one saw the fire, or knows that it had occurred, until morning. It is supposed to have originated by accident, as fire had been used the day before in the neighborhood for washing, and not being thoroughly extinguished, the wind, during the night no doubt carried sparks to the Cider House. It is fortunate that no further carrying of sparks took place.

Lebanon Valley Railroad.

A difficulty of long standing between the Company and certain Contractors on the western portion of the work, was summarily settled in the forepart of the week. It seems that the contractors, whose section included the Swatara Bridge, west of Hummelstown, have delayed their work from time to time, and quite recently suspended operations altogether, because certain demands made against the Company were not complied with. They also refused to permit the company or any other party, to come upon the ground, with a view to the resumption of operations. Last Monday, in pursuance of order from the Chief Engineer, a large force (report says 150 men) left Reading for theatre of war. Arriving at the bridge they found it fortified with a formidable battery of swivels and muskets, but unfortunately for those who expected to distinguish themselves on the occasion, the 'garrisson' had decamped! The Company immediately possessed themselves of the armament, and took possession of the work. The Contract of the belligerent parties has been declared forfeited, and the section will be completed by the Company with the least possible delay.

The road west of Hummelstown is nearly or quite ready for the rails, and that the track will be laid so that the trains can commence running through to Harrisburg by the middle of next month—in time to afford all persons so inclined, to visit the inauguration of our new Governor, which takes place on the 19th proximo.

Special Notices.

☞ This is to certify that I have made but one application of the MAGIC OIL on my fingers, which have been drawn from contraction of the cords, brought on by rheumatism. It was of seventeen months standing, and I am now entirely cured. I cheerfully recommend it to all afflicted likewise.

J. M. PINKBOUK,
Harrisburg, 72 Locust street.

HELMBOLD'S GENUINE PREPARATION.
HELMBOLD'S Genuine PREPARATION.
HELMBOLD'S Genuine PREPARATION.
HELMBOLD'S Genuine PREPARATION
Is prepared according to Pharmacy and Chemistry, with the greatest accuracy and Chemical knowledge devoted to their combination. ☞ See advertisement headed HELMBOLD'S GENUINE PREPARATION.

Holloway's Ointment and Pills.—A protection against Counterfeits exists in the Water Mark, "Holloway, New York and London," which appears in semi-transparent letters in every leaf of the book of directions. If this is not seen when the paper is held to the light, the same is spurious. Unlike the mineral preparations that drive the virus of eruptions and sores into the vital organs, this marvelous Ointment discharges the poison before it heals the flesh. The Pills invariably cure Dyspepsia and all billious disorders, purifying and vitalizing the blood, &c.

Wood's Restorative.—Of all the restoratives for the hair that have been invented, Wood's pre-eminently claims the first place. It will certainly restore the natural color of the hair, if the directions are followed for a sufficient length of time. It also has produced astonishing effects in bringing out a growth of hair, where the head had been previously bald. Wood does not pretend that it will do this in all cases; and we think his candor is a good recommendation of the virtues which his restorative really possesses. If the roots of the hair are destroyed, no human power can make them grow again; but when there is any vitality left in the root, the restorative will soon renew the hair in all its pristine vigor. It has done this repeatedly where all other remedies have failed. It is therefore worth a trial in all cases to make the experiment. For clearing the hair of dandruff, and thickening and strengthening the hair it has no rival.—West. Pat.

FADED FLOWERS.—It causes sad reflections to take up a faded bouquet once smiling with beauty, and gaze upon its withered leaves and faded colors. But how many faded flowers do we see on the great bouquet of humanity; men and ladies, too, whose beauty has fled with almost the lightning's speed, and whose forms are sinking with premature decay. What a pity it is that all people do not know that ere disease has taken hold upon the vital parts, a simple preparation would restore them to health, to joy, and to beauty. Such a preparation, for instance, as Hostetter's Stomach Bitters, which drives away despondency, gives cheerfulness and restores the whole system. It is recommended by physicians, and commended by all who have used it. Sold by all Druggists, Grocers, and dealers generally.

FRANCIS RIEGART, Agent, North-west corner of Market and Water streets, Lebanon. [Nov. 25, '57-1m

To Fathers and Mothers.—You know how important it is for your children that you should keep good health.—How frequently do you see feeble parents dressed in mourning on account of the death of their beloved children. Whose pity it is, when, by proper care and remedies all these trials and troubles can be avoided. When health can be restored to the parent and life and happiness to the child. Restore the health of the mother and you obviate the necessity of Godfrey's, Godfrey's Cordial and other injurious narcotics for crying children. We entreat you, as we desire to improve the condition of our race, to procure Dr. Morse's Almanac and read how diseases are cured in accordance with NATURE's laws with innocent Roots and Plants.

PREGNANCY.

During this critical period Morse's Indian Root Pills will be required, because they cleanse the body from those morbid humors, and thoroughly drive away all pains, and give ease and comfort to the mother. From one to three Pills, taken two or three times a week during pregnancy, will cause the mother a safe and easy delivery, and will be sure to give a stout and healthy constitution to the child. Dr. Morse's Indian Root Pills are sold by all dealers in Medicines. Dec. 16, 1857.-1m.

The Lebanon Market.

[Carefully Corrected Weekly.]

LEBANON, WEDNESDAY, DEC. 16, 1857.

Extra Family Flour,	$ 6 50	Potatoes, ₱ bu.,	50

The Philadelphia Market.

PHILADELPHIA, DECEMBER 14, 1857.

The Flour market is rather firmer, and there has been more inquiry for shipment, with sales of 1500@2000 barrels standard brands at $5 per barrel, and a small lot of extra at $5,25. There is a steady inquiry for the supply of the home trade within the range of our former quotations. Rye Flour is offered at $4,25, and Corn Meal at $3 per barrel, but there is no demand for either.

Grain—There is some inquiry for prime Wheat, but the most of the offerings are of inferior quality which is not wanted. Sales of 2000 bushels fair and prime Sourhern and Pennsylvania red at $1 12a1 15 per bushel, and 700 bushels fair and good white at $1 18a1 25. There is a steady demand for Rye for distilling, at 75 cents for Delaware, and 78 cents for Pennsylvania. Corn is unchanged—sales 1200 bushels new yellow 54a56 cents, and a small lot of old in store at 70 cents. A sale of 400 bushels white and some mixed on private terms. Oats are steady at 33a34 cents per bushel.

Religious Notices.

English Service next Sabbath forenoon in the Moravian Church.

EPISCOPAL SERVICES.—Next Sabbath, in Beneficial Hall, at 3 o'clock, p. m. Also, on the Friday following, (Christmas day,) at the same time and place. Public invited to attend.

English preaching next Sabbath morning and evening in Zion's Lutheran Church.

Religious services in Salem's Lutheran Church on Sunday evening in the English language.

German preaching next Sunday morning and evening in the Emanuel's Church of the Evangelical Association.

Preaching next Sabbath morning in the German, in the evening in the English language, in the Reformed Church.

English preaching next Sabbath morning and evening, in the Methodist Church.

MARRIED,

On the 10th inst by the Rev. F. W. Kramer, Mr. George Zerbe, of S. Lebanon, to Catharine Philipy, of Heidleburg tp., this county.

On the 10th inst., by Rev. Aug. C. Wedekind, Mr. Christopher McGarvey, of Campbelltown, to Miss Anna M. Hall, of S. Lebanon.

On the same day by the same, Mr. Henry Kline, to Miss Ellen Keller, both of South Hanover tp., Dauphin county.

DIED,

On the 4th inst., in North Annville, Catharine, wife of John L. Meyer, aged 54 y'rs and 25 days.

On the 28th ult., in South Lebanon, Mr. Cyrus Dohner, aged 31 years, 9 months and 20 days.

On the 3d inst., in this borough, Emma Jane, infant daughter of Henry (dec'd,) and Lydia Loudon, aged 2 years, 8 months and 8 days.

NEW ADVERTISEMENTS.

Notice.

Dr. Morse's Indian Root Pills

DR. MORSE, the inventor of MORSE'S INDIAN ROOT PILLS is the son of the greater part of the Medical Faculty, having visited Europe, Asia, and Africa, as well as North America—has spent three years among the Indians of our Western country—it was in this way that the Indian Root Pills were first discovered. Dr. Morse was the first man to establish the fact that all diseases arise from *Impurity of the Blood*—that our strength, health and life depended upon the vital fluid.

When the various passages become clogged, and do not act in perfect harmony with the different functions of the body, the blood loses its action, becomes thick, corrupted and diseased; thus causing all pains, sickness and distress of every name; our strength is exhausted, our health we are deprived of, and if nature is not assisted in throwing off the stagnant humors, the blood will become choked and cease to act, and thus our light of life will forever be blown out. How important then that we should keep the various passages of the body free and open. And how pleasant to us that we have it in our power to put a medicine in your reach, namely, Morse's Indian Root Pills, manufactured from plants and roots which grow around the mountainous cliffs in Nature's garden, for the health and recovery of diseased man. One of the roots from which these Pills are made is a Sudorific, which opens the pores of the skin, and assists nature in throwing out the finer parts of the corruption within. The second is a plant which is an Expectorant, that opens and unclogs the passage to the lungs, and thus, in a soothing manner, performs its duty by throwing off phlegm, and other humors from the lungs by copious spitting. The third is a Diuretic, which gives ease and double strength to the kidneys; thus encouraged, they draw large amounts of impurity from the blood, which is then thrown out beautifully by the urinary or water passage, and which could not have been discharged in any other way. The fourth is a Cathartic, and accompanies the other properties of the Pills while engaged in purifying the blood; the coarser particles of impurity which cannot pass by the other outlets, are thus taken up and conveyed off in great quantities by the bowels.

From the above, it is shown that Dr. Morse's Indian Root Pills not only enter the stomach, but become united with the blood, for they find way to every part, and completely root out and cleanse the system from all impurities, and the life of the body, which is the blood, becomes perfectly healthy; consequently all sickness and pain is driven from the system, for they cannot remain when the body becomes so pure and clear.

The reason why people are so distressed when sick, and why so many die, is because they do not get a medicine which will pass to the afflicted parts, and which will open the natural passages for the *disease* to be cast out; hence, a large quantity of food and other matter is lodged, and the stomach and intestines are literally overflowing with the corrupting mass; thus undergoing disagreeable fermentation, constantly mixing with the blood, which throws the corrupted matter through every vein and artery, until life is taken from the body by disease. Dr. Morse's PILLS have added to themselves victory upon victory, by restoring millions of the sick to blooming health and happiness. Yes, thousands who have been racked or tormented with sickness, pain and anguish, and whose feeble frames have been scorched by the burning elements of raging fever, and who have been brought as it were, within a step of the silent grave, now stand ready to testify that they would have been numbered with the dead, had it not been for this great and wonderful medicine, Morse's Indian Root Pills. After one or two doses have been taken, the patient is astonished, and in witnessing their charming effects. Not only do they give immediate ease and strength, and take away all sickness, pain and anguish, but they at once go to work at the foundation of the disease, which is the blood. Therefore, it will be shown, especially by those who use these Pills, that they will so cleanse and purify, that disease—that deadly enemy—will take its flight, and the flush of youth and beauty will again return, and the prospect of a long and happy life will cherish and brighten your days.

CAUTION.—Beware of a counterfeit signed *A. B. Moore.* All genuine have the name of A. J. WHITE & CO. on each box. Also the signature of A. J. White & Co. All others are spurious. A. J. WHITE & CO., Sole Proprietors,
50 Leonard Street, New York.

☞ Dr. Morse's Indian Root Pills are sold by all dealers in Medicines. Agents wanted in every town, villages and hamlet in the land. Parties desiring the agency will address as above for terms. Price 25 cents per box, five boxes will be sent on receipt of $1, postage paid.
Dec. 16, 1857.-1y.

PROFESSOR WOOD'S
HAIR
RESTORATIVE.

FOR PRODUCING HAIR ON BALD HEADS, AND RESTORING GREY HAIR TO ITS NATURAL COLOR.

THIS astonishing and unequalled preparation has never failed to produce a growth on Bald Heads, when used according to the direction, and turn half back to its original color, after having become gray and reinstate it in all its original health, lustre, softness and beauty.—Removes at once all scurf, dandruff and unpleasant itching, scrofula, eruptions and feverish heat on the scalp. It also prevents the hair from becoming unhealthy and falling off, and hence acts as a perfect HAIR INVIGORATOR AND TONIC.

A gentleman of Boston writes to his friend in New Bedford thus:—

To your inquiries, I would reply, that when I first commenced using Prof. Wood's Hair Restorative, my hair was almost white, and had been so for the last ten years and it was very thin on the top of my head, and very loose, and pulled out freely; but I found that before I had used all the second bottle, (which was eight weeks) my hair was entirely changed to its original color, light brown, and is now free from dandruff and quite moist. I have had my hair cut five or six times since the change, and have never seen anything like white hair starting from the roots; and it is now as thick as it ever was, and does not come out at all. It has proved in my case all that I could wish to ask.

July 1, 1855. Yours, etc., ——.

[From the Boston Herald.]

SOMETHING WORTH KNOWING.—By using Prof. Wood's Hair Restorative, gray hair can be permanently restored to its original color. The subjoined certificate from Johnson & Stone, Gardiner, Maine, is but one of the many instances that are daily coming to our knowledge, of its wonderful effects. It is no longer problematical, but a self-evident truth, as hundreds in our community can testify.

GARDINER, Maine, June 22, 1855.

DEAR SIR:—I have used two bottles of Prof. Wood's Hair Restorative, and can truly say it is the greatest discovery of the age for restoring and changing the hair. Before using it I was a man of seventy. My hair has now attained its original color. You can recommend it to the world without the least fear, as my case was one of the worst kind. Yours, respectfully,
Prof. O. J. WOOD. DANIEL N. MURPHY.

BROOKFIELD, Mass., January 12, 1855.

DEAR SIR:—Having made a trial of your Hair Restorative, it gives me pleasure to say that its effect has been excellent in removing inflammation, dandruff, and a constant itching tendency with which I have been troubled from childhood; and has also restored my hair, which was becoming gray, to its original color. I have used no other article with anything like the pleasure and profit.

Yours, truly, J. K. BLAGG,
Prof. WOOD. [Pastor of the Orthodox Church, Brookfield.

[From the Missouri Democrat.]

WOOD'S HAIR DYE.—This admirable article is rapidly improving the hair. No article of a similar kind, now before the public, enjoys a better reputation as a restorative and invigorating hair tonic. Its peculiar chemical qualities have a beneficial effect upon the growth and character of the hair, giving a silky and glossy texture to that which was formerly of a coarse and dry nature. It has, also, we understand, a tendency to preserve the youthful color and appearance of the hair, and destroying or counteracting the effects of age. With such recommendations in its favor, we hardly perceive how any lady or gentleman should be without so valuable an adjunct to their toilet.

For sale, in Lebanon, at GUTHRIE & LEMBERGER'S Drug store. Also, by all respectable Druggists. [dec. 11-3m.
