The cares, the troubles, the hard times, and all, of the past year were disposed of in this borough, on Thursday evening last, with such a hearty good-will that was really refreshing. It seemed to be the general determination that it should go out in hilarity and good feeling. The same feeling, and in the same strain, the New was on next Sunday morning in the German and inaugurated. May we enjoy during this year all evening in the English language. the good things and the blessings of the old year, without so many of its trials, misfortunes, and crimes; and may we all profit to our benefit and advantage from the lessons taught us.

We understand that Gov. Pollock has appointed Honry T. Hoffman and Henry Ramler, Notaries Public for this county. These appointments, in addition to Mr. Cyrus Shirk, appointed during the summer, fills the number allowed to the county. One Notary Public is more than ! sufficient to transact all the business here, and the appointment of three, shows how the opposition manage their matters. They were afraid Gov. Packer might appoint a Democrat, to prevent which, they filled up the compliment allowed by law. Gov. Bigler, before leaving the Executive office, did not act in this manner, nor can an instance be pointed to where the Democracy showed the same illiberal and-we may sny greedy-spirit. If the Democracy wished to take what they can get, they would only be following 2 months, and 23 days. the examples shown them. But they would not be guilty of that, which our opposition friends know. We doubt if there is a Democrat in the county who would have thought of seeking the office until the expiration of the first Commission granted by Gov. Pollock, no matter how strong

The Borough Subscription to the Lebanon Valley Rail Road.—We are sorry to perceive in last Monday's Reading Gazette, that neither the municipal subscription of \$200,000, by the city of Reading, nor that of \$50,000 by the borough of Lebanon, to the Lebanon Valley Railroad will be assumed by the meeting to be held at Reading on the 11th inst., for the purpose of consolidating the Reading and Lebanon Valley Railroads. This is adsolutely wrong and contrary to the expectations held out for someltime by persons who seemed to speak by authority. The interest on \$50,000 (if the account in the Gazette be true, and we have no reason to think othertheir minds to be permanently saddled with by taxation. This added to our present onerous Borough tax of Lebanon will render it higher than in any other place in the United States.

Our Borough Council should send a representative to the meeting next Monday at Reading, when the consolidation of the two railroads is to he effected, and strenuously urge the assumption of the \$50,000, which justice and propriety to the citizens of Lebanon require at their hands.

FADED FLOWERS.—It causes sad reflections to take up a faded boquet once smiling with beauty, and gaze upon its withered leaves and faded colors. But how many faded flowers do we see on the great boquet of humanity; men and ladies, too, whose beauty has fleel with almost the lightning s speed, and whose forms are sinking with premature decay. What a pity it is that all such do not know that ere disease has taken hold upon the vital parts, a simple preparation would restore them to health, to joy, and to beauty. Such a preparation, for instance, as Hostetter's Stomach Bitters, which drives away despondency, strengthens the weaker parts, and restores the whole system. It is recommended by physicians, and commended by all who have used it. Sold by all Druggists, Grocers, and dealers generally.

Restore the health of the mother and you obviate the necessity of Paregoric, Godfrey's Cordial and other injurious narcotics for crying children. Important Discovery. CONSUMPTION

Diseases of the Lungs and Throat

Lebanon, Jan. 6, 1858.

CURABLE BY INHALATION!!! which conveys the
Remedjes to the cavities in the lungs through the ui,
passages, and coming in direct contact with the disease,
neutralizes the tubercular matter, allays the cough,
causes a free and easy expectoration, heals the lungs,
purifies the blood, imparts renewed vitality to the nerpurines the blood, imparts renewed withinty to the ner-vous system, giving that tone and energy so indispensa-ble for the restoration of health. To be able to state confidently that Consumption is curable by Inhalation, is to me a source of unalloyed pleasure. It is as much under the control of medical treatments as any other formulable disease about out of course handled one is to me a source of unalloyed pleasure. It is as much under the control of medical treatment as any other formidable disease; ninety out of every hundred eases can be cured in the first stages, and fifty per cent. In the second; but in the third stage it is impossible to save more than five per cent. for the lungs are so cut up by the disease as to defy medical skill. Even, however, in the last stages, inhalation affords extraordinary relief to the suffering attending this fearful scourge, which annually destroys ninety-five thousand persons in the United States alone; and a correct calculation shows that of the present population of the earth, eighty millions are destined to fill the Consumptive's grave.

Truly, the quiver of death has no arrow so fatal as Consumption. In all ages it has been the great enemy of life, for it spares neither age nor sex, but sweeps off affice the brare, the beautiful, the graceful, and the gifted. By the help of that Supreme Being, from whom cometh every good and perfect gift, I am enabled to offer to the afflicted a permanent and speedy cure in Consumption. The first cause of tubercles is from lunpure Blood, and the immediate effect, produced by their deposition in the lungs, is to prevent the free admission of the intentions to expect greature good from medicines entering the cavities of the lungs, than from hode administered through the stomach; the patient will always find the lungs free and the breathing easy, after inhaling remedies. True, inhalation is a local remedy, nevertheless, it acts constitutionally, and with more power and certainty than remedies administered by the stomach. To prove the powerful and direct influence of this mode of administration, chloroform inhaled will destroy sensibility in a few minutes, paralyzing the entire nervous system, so that a limb may be amputated without the slightest pain; inhaling the ordinary burning gas will destroy life in a few hours.

For yarming with pure air Private or Public Rooms, Halls, Studies, Churches, Pactories, Stores, &c.. Sanford's \$1,000 Challengo Patent Portable Heater is unequalled. It is claimed that it will bring into action at least 30 per cent, more heat than any other of the same size, using at the same time 30 per cent, less fuel. The objection usually ascribed to all other heaters of furnishing an impure, dry air, so injurious to heatth and furniture, is avoided in this, supplying as it does a pure mall cable air. farmiture is avoided in this, supplying as it does a pure malleable air.

This heater has been in use for five years, and all who have them testify in the most flattering terms to their superiority over all others, both as fuel-savers and heaters.

If AIR: INVIGORATOR AND TONIC.

A gentleman of Boston writes to his friend in New Bedford thus:

To your inquiries, I would reply; that when I first commenced using Prof. Wood's Hair Restorative, my hair was almost white, and had been so for the last ton years and it was very thin on the top of my head, and very loose, and pulled out freely; but I found that before I had used all the second bottle, (which was eight weeks) my hair was entirely changed to its original color, light brown, and is now free from dandruff and quite moist. I have had my hair cut five or six times since the change, and have never seen anything like white hair starting from the roots; and it is now as thick as it ever was, and does not come out at all. It has proved in my case all that I could, wish to sak.

DEAR SIR: Having made a trial of your Hair Restorative, it gives me pleasure to say that its effect has been excellent in removing inflammation, dandruff, and a constant itching tendency with which I have been troubled from childhood; and has also restored my hair, which was becoming gray, to its original color. I have used no other article with anything like the pleasure and profit.
