"WHEN DEMOCRATIC PRINCIPLES CRASE TO LEAD, WE CRASE TO FOLLOW."

M. BRESLIN, Editor and Proprietor.

LEBANON, PA., JAN. 20, 1858.

President Buchanan has sent us a copy of his Annual Message to Congress, under his own frank, for which we feel grateful:

Statement of Country and City Banks Compared.

Some of our city contemporaries, says the Harrisburg Telegraph, persist in exhibiting the returns of country Banks, injuriously and unjustly. Thus in one of them (which is, we are sure, indisposed played, the other day, as follows.

Deposits, &c. \$15,918,647 00 3,770,701 00 DEFICIT

\$12,147,916 00 Some of the city Banks owe country Banks more any way the latter, which, in such a case, would have to protect themselves in a state of resumption at the expense of their city correspondents? The customary parade of coin against circula-

tion is all a fallacy, so far as regards the country Banks. Circulation is widely scattered, while the deposits of the city are concentrated, and liable at any panie to precipitate a severe run. It is fresh in the memories of all that the suspen-

Cein cannot be held by country Banks in the same proportion as in the city; for the very obvious reason that their exchanges are made chiefly in Philadelphia. Holding coin to meet the exsaily receipt and disbursement of specie, expensive and annoying to all parties. Bank balances in Philadelphia, against which to draw, save all this, and constitute as much strength and availability as specie on hand.

The proper way to exhibit the statistics in question is to show the cash means against the liabilities. In such an exhibit there is really but little disparity between the Banks all round. Thus the aggregate liabilities of all the Philadelphia Banks are \$16,929,580; cash means, \$5,962,319—or as one dollar to two dollars and eighty-three cents.

Esking such country Banks as are at our hand at the moment, the cash means of Easton Bink are as one dollar to two dollars and thirty-one cents; Harrisburg Bank, one dollar to two dollars and forty-six cents; Lancaster County Bank, one dollar to two dollars and fifty conts; Lebanon Bank, one dollar to two dollars and forty-one cents. Other examples might be given, but these are sufficient.

### The License Law.

The present system of granting licences to tavern keepers, is objectionable in many respectsand the strongest argument used against it is, that those who pay a large sum annually for the privilege of selling liquor, do not receive that protection to which they are entitled. A man who sceps an unlicensed house, may sell twice the amount of liquor disposed of by a law abiding citizen, who takes out a license at a heavy costand this tends to weaken the operations of the law by making tavern keepers totally indifferent as to whether they obtain a license or not. Many regard it as cheaper to sell without license, and run the risk of being fined-and we doubt not in many cases it happens so to be. All legislation upon the subject of liquor selling is attended with difficulties, and the present law is by no means an exception

For these reasons we are pleased to find that a bill is now before the Legislature repealing the present License Law, and substituting another allowing any person of good moral character to have a license for tavern, restaurant or beer house upon paying the amount which may he assessed upon the house. A law of this kind, with severe penaltics guarding the good management and con-.duct of the house, and also against those who vielate its provision by a sale of liquor without license, would not, increase the number of houses of the kind, or the numbers of persons who now frequent them. It would put all on an equality and the licensed would take care that the revenue should not be defrauded by the unlicensed, who would come in competition with their business. In this way, all engaged in the traffic would be under the law, and subject to its pen-

The State Treasurer estimates that under the present law in the city of Philadelphia and some of the other cities and counties of the commonwealth there are three unlicensed tavern and eating houses to one which is licensed. How unjust this is, not only to those who have purchased the privilege, but to the entire tax-paying and moral

The new law in its present shape only relates to Philadelphia and Allegheny, but we learn from members of the legislature that it is the intention to embrace in it all such counties as desire it.

Surmising that we know the sentiments of the people of Lebanon county in relation to the present license law we have no fears in expressing it. And it is this. They are against it, and will half though some of the steps were four and even five with satisfaction the enactment of any law that though some of the steps were four and even five with satisfaction the enactment of any law that the high, with occasional narrow lodges to alight est least claim to be constitutional.

The latest news from Utah are that the Mormons are preparing to emigrate, preferring that to fighting.

Lancaster, with all its iniquities, is still pos-

sessed of a large and respectable class of church-

going people. In this respect it may be mentioned, as far as attendance on divine worship is conerned, it has at least the outward semblance of true religion. It is my intention in this article to give a description of the Lutheran churches and their pastors in this city, and may in my future communications make some romarks about

the many other sects and their learned shephords, with which this place abounds. Trinity Lutheran church (Rev. G. F. Krotel, pastor,) is the first to attract the notice of the observer; its outward appearance is very noticeable, especially its lofty, and symmetrical steeple, which towers up to the neight of 190 feet. I have often heard it remarked, though built a great many years ago, that this steeple for excellent proportions cannot be excellto do injustice) the figures of a number were dis- ed in the United States. A chime of eight bells are placed in it, and on the rim of each are moulded in raised letters, the names of the munificent doners, Messrs. Helfenstein, Longenecker, Bachman & Company! These bells, when sounding 585,549 57

Rev. \$858,371 00 Mr. Stock, late of Pottsville, is now the pastor of this congregation, and from the large turnout during service last Sabbath m rning and evening, it is evident he has already made his mark in our midst. Rev. Mr. Crumbaugh, the retiring pastor, on account of ill-health, and now our efficient County Superintendent, is a powerful pulpit orator, pleasing the ear and satisfying the heart—the

point of his oratory; and in my humble opinion, during his ministry, he surpassed any divine within the bounds of this city. Rev. Mr. Steck is following fast in his footsteps. Next week the Court of Quarter Sessions commences in this city, and every body is anxious to witness the trial of the niggers. The exceedingly large list of criminal cases to be disposed of next week, will very likely postpone this important murder trial, and thereby give the poor culprits a still longer time to ponder over their folly in taking the lives of two innocent women in order to posess themselves of a few glittering pieces of gold. It is high time our prison is emptied of the miserable wrecks of humanity gathered therein, more than one-half (36) being colored persons! I notice by the papers that Mr. Cyrus W. Carmany, formerly of your place, received the appointment of Clerk to the Mayor and entered upon the duties of his office on Monday last.

The weather is remarkably fine for this season of the year, being mild, pleasant and spring-like. In great many instances farmers are ploughing, looking as though spring had already come. This time last year it was most bifter cold, with a heavy snow covering the earth, and those not acquainted with the climate could not be induced to believe this to have been the case. The ice merchants have great fears of not being able to gain a supply for consumption next summer. Nevertheless we may yet have a severe winter.

SPORT AMONG THE PYRA.

MIDS. While we sat (on the summit of the Great Pyramid of Egypt) to rest our wearied limbs, the lively Bedouins, anxious to make the most of our visit, planned all sorts of exploits to be done for so much money, when they found us decided in refusing more backsheish. We had, in a soft, or rather a tired moment, when half way up, given them two shillings to each party. For two shillings one man offered to run up the Great Pyramid in five minutes, which I doubt not he would have done. We settled, however, that for three shillings one should, within ten minutes, descend from the top of the Great Pyramid, where we were all assembled, and reach the summit of the adjacent Pyramid. The instant the bargain was made, the man disappeared over the corner next the second Pyramid; and I reached the dizzy edge

All we saw were evidently satisfied with their purchases; were loud in the praises of the excellent quality of their stock, and all were of the unanimous opinion that FUNCK & BRO. sell the best qualities, at lower prices, than any of their competitors. Nature's Own Remedy.

A Positive Cure for Liver Complaint and Billious\_Disorders, Dyseposia, Rheumatism, Scrotula, Cutaneous Diseases, Fever and Ague, Costitveness, Piles, Dysentery and Diarrhea, Worms, Suppression of the Menses, Nervous Debility, &c., and a sure Proventative to all PULMONIC AFFECTIONS.

Whe Defire the Ancient Japanese Lipe Pills on a more extensive scale, after we have tested them in the worst forms of disease, and after having been urged to do so by emitnent physicians, who have tried them to their satisfaction. Performing cures where every other remedy had failed, we feel it our solemn duty to spread the glad intelligence to every family of the globe. They purge the system theoroughly of all corrupt humors, penetrate and purify the vital fluids, and the corrupt secretions are replaced with rich, healthy blood. Parts that were even decaying with the disease are restored to a healthy, vigorous action, and disease eradicated as if by magic, leaving the system in a robust condition, and less predisposed to contract disease again of whateyer kind. Possessing such penetrating and healing virtues, their success must be inevitable. We know it. We can read it in the now glowing features of the once ple and prostrate ed patient; we can read it in the friendly grasp of the father's hand, and in the mother's warm tears of joy, as they behold their darling child smatched from the clutches of death by their powerful agency; we can read it in the young man's gayety, and in the old man's vigor, and "God bless you;" we can read it in the husband's and wife's gratitute, and in the children's prattile; we can read it away out upon the bosom of the occan, in the sprightly tread and invigorated system of the poor marinor. There is an evil habit sometimes indulged in by boys, in solitude, often growing up with them to manhood; and which, if not reformed in due time, not only begets serious obstacles to matrimonial happiness, but gives rise to a series of protracted, insidious, and devastating

rise to a series of protracted, insidious, and devastating affections.

Pew of those who give way to this pernicious practice are aware of the consequences, until they find the nervous system shattered, feel strange and unaccountable sensations, and vague fears in the mind. [See pages, 27, 28, 20, of Dr. K.'s book on "Self-Preservation."]

The unfortunate thus affected becomes feeble, is unable to labor with accustomed vigor, or to apply his mind to study; his step is tardy and weak; he is dull, irresolute, and engaged even in his sports with less energy than usual.

If he emancipate himself before the practice has done its worst, and enter matrimony, his marriage is unfruitful, and his sense tells him that this is caused by his early follies. Those are considerations which should awaken the attention of all who are similarly situated.

FOR PRODUCING HAIR ON BALD HEADS GREY HAIR TO ITS NATURAL COLOR. GREY HAIR TO ITS NATURAL COLOR.

THIS astonishing and unequalled preparation has never the refailed to produce a growth on Bald Heads, when used according to the direction, and turn half back to its original color, after having become gray and reinstate it in all its original health. Instr. estiness and beauty.—Removes at once all scurf, dandruff and unpleasant itching, scrofula, eruptions and feverish heat from the scalp. It also prevents the hair from becoming unhealthy and falling off, and hence acts as a perfect.

HAIR INVIGORATOR AND TONIC.

A gentleman of Boston writes to his friend in New Bed ford thus.—
To your inquiries, I would reply, that when I first commenced using Prof. Wood's Hair Kestorative, my hair was almost white, and had been so for the last ten years and it was very thin on the top of my head, and very loose, and pulled out freely; but I found that before I had used all the second bottle, (which was eight weeks) my hair was entirely changed to its original color, light brown, and is now free from dandruff and quite moist. I have had my hair cut five or six times since the change, and have never seen anything like white hair starting from the roots; and it is now as thick as it ever was, and does not come out at all. It has proved in my case all that I could wish to ask.

SOMETHING WORTH KNOWING.—By using Prof. Wood's Hair Restorative, gray hair can be permanently restored to its original color. The subjoined certificate from Johnson & Stone, Gardiner, Maine, is but one of the many instances that are daily conging to our knowledge, of its wonderful effects. It is no longer problematical, but a self-evident truth, as hundreds in our community can testify.

Self-evident truit, as municus in our community can testify.

Gardiner, Maine, June 22, 1855.

Drar Sir:—Thave used, two bottles of Prof. Wood's Hair Restorative, and can truly: say it is the greatest discovery of the ago for restoring, and changing the hair. Before using it I was a man of seventy. My hair has now attained its original color. You can recommend it to the world without the least fear, as my case was one of the worst kind.

Yours, respectfully,

Pref. O. J. Wood.

DANIEL N. MURPHY. BROOKPIELD, Mass. January 12, 1855.

Bear Sir.—Having made a trial of your Hair Restorative, it gives me pleasure to say that its effect has been excellent in removing inflammation, dandruff, and a constant itching tendency with which I have been troubled from childhood; and has also restored my hair, which was becoming gray, to its original color. I have used no other article with anything like the pleasure and profit.

Yours, truly,

Prof. Wood. [Paster of the Orthodox Church, Brookfield.]
