The next Democratic State Convention will be held at Harrisburg on the 4th of March, the usual day.

The month of January, 1790, was a remarkkable mild one, the medium temperature being 44 young women occupying the scats in rows, some shade at mid-day, and boys were seen swimming the ranks with perfect coolness, examining their in the Delaware and Schuylkill rivers.

A Big Day's Work,-Mr. John Brown, of Reading, made in one day (Friday of last week) one hundred and twenty horse-shoes. We doubt | brance of the power and tenderness of poetry. whether any man, in the same line, has ever done as much in a day. Mr. Brown is one in a thousand at the hammer and anvil.

Man. Hon, James B. Clay, the son of Henry Clay, made his debut in the U. S. House of Representatives a week ago, in a speech on the Walk-He sustains the administration. His appearance and speech were an decided success, and it seemed as though the "great commoner" himself was again in the hall.

Www. Gov. Packer's Cabinet is composed as follows :- Secretary of State, Wm. M. Hiester, of Berks; Deputy Secretary, Henry L. Dieffenbach, of Clinton; Attorney General, Hon. John C. Kuox, of Philadelphia. Mr. Knox resigned his position on the Supreme Bench, and Win. A. Portor, Esq., of Philad'n, has been appointed to the vacancy.

During the May anniversaries in New York city, the following dialogue was over heard between two newsboys: "I say, Jimmy, what's the meaning of so many preachers being here all generally pleased with their excursion. together?" "Why," answered Jim, "they always meet here once a year to exchange sermons with each other."

AN EVIDENCE OF INSANITY .- During the trial of Smith for the murder of Carter, in Philadelphia, the following evidence was given under eath :- "Re-examined by Mr. Brown .- When he (the prisoner,) broached politics he cursed and swore; he was speaking in regard to Kansas; damning the way they had done things, and cursing the Administration; this was an element that helped me to form my opinion of insanity."

The Black Republicans had now better look out. They can see from the above how their insane "shricks" are viewed by sensible people.

THE KANSAS ELECTIONS .- The official result of the late elections in Kansas is at length announced. At the poll on the 21st of December, there were for the constitution, with slavery, 6063 for the constitution, without slavery, 576. At the election for State officers, on the 4th, the result stood, For Governor-Smith, free State, 6238; Marthall, Dem., 6530; Delegate to Congress-Parrott, free soil, 6623; Carr, Dem., 6568. The Legislature elected consists of-Senate, 13 free soilers and 6 Degiocrats; House, 29 free soilers and 14 Democrats.

The majority against the Lecompton Constitution, at the election held on the 4th, is 10,226, the alleged frauds in Oxford, Shawnee, and Kickapoo being counted.

The It is said that the bill before the Legislature, repealing the act of the last session consolidating the Reading and Lebanon Valley Railroad Companies, is warmly urged to its passage by the Pennsylvania Rail-Road Company. This Company has already a powerful influence, and is making yearly tremendous strides towards the attainment of a power second to no other monopoly in the country. We do not believe, however, that it can influence the Legislature sufficiently to repeal the consolidating act of our two Railroads, against the almost unanimous wishes of the stockholders of the two companies. We trust the matter will be speedily acted upor and decided, so that the next great question can present itself for disposal, viz :- the \$50,000 subscription of this borough. The Reading folks are already congratulating, themselves on the assurances of certainty of being relieved of their subscription; and in view of which the Counsels have passed resolution protesting against the passage of the repeal act now before the Legislature. A public meeting was also held in Reading last week, at which

resolution were passed of the same tenor. The citizens of this borough are most wofully in the dark in regard to the probable fate of their subscription. If the subject is properly cared for, very few persons are advised of the fact. It It might have some weight. We suggest the matter. Let those interested the most act.

THOMAS ALLIBONE, late President of the I FIANON ADVETTISET. Pennsylvania Bank, returned from Europe last week. His arrival created considerable surprise, it being very unexpected. The opinion has gained ground, that others are equally, if not more so, to blame for the mismanagement of the Bank, than Mr. Allibone. They took advantage of his absence to screen themselves by placing all the mismanagement upon him. Some curious developements may be expected.

The stock of the bank went up five dollars per share the first day of the news of his arrival. The commissioners appointed by the Governor to investigate the affairs of the institution, have made two partial reports. From them it does not seem that the Bank is in as hopeless a condition as has been represented. The assets appa-

A 'SLAVE PEN' IN THE WEST .- The Jamestown (Wis.) Independent thus describes the manner in which a party of poor sewing girls, sent out from of this borough. Quite a number of persons have Carter, in Philadelphia, was acquitted on the New York by the "Children's Aid Society," were already professed to have experienced a forgivedisposed of in that village:

"A charge of ten dollars (to pay their traveling expenses, we suppose) was made for each person, the money to be paid by the employer, and to be deducted from the future carnings of the young woman. The free church was thrown open, the degrees. The mercury often ran up to 70 in the of them crying. Customers then walked along condition one by one, and, as they found one suitable, they planked the cash and carried off their prize."

The Boston Journal of the 15th relates he following sad case: The funeral of Mi's Emily Gardner, late teacher in one of the primary schools in Roxbury, who died on Monday, took place yesterday afternoon. The circumstances attending the death of this young lady were of a the school committee a short time since, at the request of several members, who wished to promote her from the office of teacher in the prima-A Mission.—The Rev. RIGHT.—We observed at Harrisburg, that the preachers have offered their services gratis, and officiate in turn by opening the sessions of the Legislature with prayer. We enquired if they likewise gave attendance at the Poor House, to preach to and comfort the poor .-

The answer, we are sorry to say, was not satisfactory. "Unto the poor the Gospel shall be preached," saith the Lord. We have about a dozen ministers in and around this borough. About 2 miles to the East is the Poor House of Lebanou County. We will not repeat the question we asked at Harrisburg, and trust no one of our ministry will feel conscience upbraided him for a sin of omission when reading this paragraph.

This was pretty good killing, considering that it was very early in the season. If we had kept it until now, and fed well, there is no telling what the weight would have beenprobably heavier than Mr. STINE'S. The principal difference, however, would have been in this, -that his was comprised in one hog, and ours

in-two. THE INAUGURATION of Gov. Packer took place on Tuesday of last week. The crowd t Harrisburg, notwithstanding the hard times, is said to have been equal to that on any former occasion, and was no doubt owing in part to the opening of the Lebanon Valley Railroad, which induced hundreds in this valley to embrace the opportunity of taking a railroad ride and seeing the inauguration of a Governor, when both feats could be executed in one patriot job. Every one who saw the Governor is highly pleased with him. He is of fine appearance, agreeable manners, and, should stand or fall with the Reading subscrip- as one of those said who voted against him, "he tion; to serve us otherwise would be unjust in looks like a Governor." We give his inaugural the highest degree. If an expression of public opinion is requisite let us call a borough meeting.

TEACHERS .- It is an undeniable though deplorable fact, that many of our Sabbath Schools have not a requisite number of male teachers.— Where are all our moral young men on the "day that shall be kept holy?" Either the truancy of scholars or an insufficiency of teachers are the lamentable occurrences in our Sabbath Schools .-Any of our friends feeling desirous of procuring a position of "honor and profit," can be accommodated by reporting themselves to us.

"SPOOK HOUSE."-This is the very insignificant, though perhaps appropria :e name given to a cave situated about three miles from this borough, said (by persons who pretend to know all about it) to be infested by innumerable hosts of different characters of horrible-looking ghosts, who are in the habit of assembling en masse, every midnight, to hold a consultation, for devising plans and schemes how they can to the best advantage "frighten people!" The spot is dreaded by all benighted beings, and the "fearful ghosts" are said to be a terror to the neighborhood! We have been informed that they consist of old and young, red, white, blue, black and gray, and that on several occasions whole teams, passing by, have been swallowed by them. What appears most singular about this affair, however, is that no person has yet missed a team. We understand that a storming party of defiant, brave and daring young men, has been organized to pay a visit to the cave and rout the choots. The land of the cave and rout the choots. The chook and corrupt humors, that desease of every name is driven from the body.

THE WEATHER.—Ere another issue of the Advertiser, the month of January will have expired. If this is to be a sample of winter months we would advise the weather prophets to get up an almanac to suit the times. January, in our climate, is the coldest month of the year, on an averago. The store of heat acquired in summer is now completely dissipated, and the sun has not tation is nearly at a stand still. Our ancestors thought it necessary that it should be a severe month for the sake of the rest of the year. This mode of judging, however, is not confirmed by modern experience; for a mild winter is often followed by a warm summer. A few flowers, as the crocus, mezercon, and polyanthus are now beginning to blossom. January was added to the list of months B. C. 672, by the Roman king, Numa Pompilius. The name is unquestionable derived from Janua, the god of the year of the Roman mythology, to whom the first day was sacred.

Wood's Hair Restorative.—This wonderful Wood's Hair Restrative.—This wonderful preparation is having an extensive sale in all paris of the Union. It is one of the few patent medicines which are now sold over the country that are really what their inventors claim for them. Wherever it has had a fair trial the result has been precisely as Wood predicts. It has never failed to turn the white hair back to the natural color, where the directions have been strictly followed, and in unmerous cases, it has restored the hair upon heads that had been bald for years. It is not pretended that it will make the hair grow in every case, but where it fails there is no remedy. The restoration of the hair has been effected in so many instances where the case seemed utterly hopeless, that it is certainly worth while for all to try the experiment of using a bottle or two of Wood's Restorative.—Moline Workman.

118 most powerful Heater and greatest Eugleaver in I the world. For warming with pure air Private or Public Rooms. Halls, Studies, Churches, Patente, Stores, &c. Sanford's \$1,000 Challenge Patent. Portable Heater is unequalled. It is claimed that it will bring into action at least 30 per cent. more heat than any other of the same size, using at the same time 30 per cent. less fuel. The objection usually ascribed to all other heaters of furnishing an impure, dry air, so injurious to health and furniture, is avoided in this, supplying ascit dees a pure malleable air.

This beater has been in use for five years, and all who have them testify in the most flattering, terms to their superiority over all others, both as fuel-savers and heaters. HENRY BIGNETHIUM, Jr., SOLE AGENT FOR HERKS AND LEBANON COUNTIES.

Don's cry out, "Humbug! Lottery!" It's no such thing. The Penells are sold at their cash value, and all the profit ever the first cost are thrown into the gifts, which actually cost the purchaser nothing. The prizes are distributed on a simple plan of drawing, which would take too much room to explain, but which has nover failed to give complete satisfaction. We have drawn and sent to purchasers 183 gold watches of various prices, 74 purses of gold dollars, 25\$ gold lockets, \$50 gold chains, and a corresponding number of other prizes, within two months.

THERE ARE NO BLANKS;

intervery purchaser draws a prize worth \$2 certain, and it stands thousands of chances to be a higher figure. We want a good agent in every neighborhood throughout the country, to solicit jaurelasers, and any agent, to be successful; must have a Penell and prize to exhibit. We pay agents \$1 cash for each purchaser lie obtains, and the first person in any neighborhood who applies for a penell and gift, will receive the agency for the locality. Should an agent obtain a valuable prize to exhibit with his Penell, he would have little difficulty in obtaining scores of purchasers, and making it a paying business.

We ask nobody to send their monoy till they know what prize they draw. Any person wishing to try their luck, can first end us their name and address and we will make their drawing and inform them by return mail what prize they drew, when they can send on and take the Poncil and prize, or not, whichever they choose. We give this privilege only once to a purchaser. After the first drawing, every purchaser will be required to send in advance, through the authorized agent. We will send with each drawing the number taken out, with full description of the plan of drawing. Address
