From Rev. Mr. Enterline, Pastor German Church, Cor. From Rev. Mr. Enterline, Pastor German Church, Cor. Conway and Sharp streets:
For the benefit of the difficted, I feel it a duty to state what a blessing a modicine, known by the name of "Bull's Recto Mistura," has been te me. I have been silicted with the Flies for eight years, during which time I tried my own remedies, as a practitioner, and many others, but without success. Having heard of Mr. Bull's Pile Remedy, I tried it; and though I used but one half-bottle, I can say that I am perfectly cured. I also used it in a violent case of Tetter, which extended over the whole body, and in less than two weeks it disappeared, and the skin became clean and smooth. I strictly adhered to the directions.

Who can say that these excesses are not frequently followed by those direful diseases—IN-SANITY AND CONSUMPTION? The records of the Insane Asylums, and the melancholy deaths by Consumption, bear ample witness to the truth of these assertions. In Lunstic Asylums the most melancholy exhibition appears. The Countenance is actually sodden and quite destitute—neither Mirth or Grief ever visits it: should a sound of the voice occur, it is rarely articulate.

TWENTY-TWO YEARS?

TAKE PARTICULAR NOTICE.

There is an evil habit sometimes indulged in by boys, in solitude, often growing up with them to manhood; and which, if not reformed in the time, not only beguts zerious obstacles to matrimonial happiness, but gives rise to a series of protracted, insidious, and devastating

serious obstacles to matrimonial happiness, but gives rise to a series of protracted, insidious, and devastating affections.

**Rew of those who give way to this pernicious practice are aware of the consequences, until they find the nervous system shattered, feel strange and unaccountable sensations, and yague fears in the mind. [See pages, 27, 28, 29, of Dr. K.'s book on "Self-Preservation."]

The unfortunate thus affected becomes feeble, is unable to labor with accustomed vigor, or to apply his mind to study; his step is tardy and weak; he is dull, irresolute, and engages even in his sports with less energy than usual.

If he emancipate himself before the practice has done its worst, and enter matrimony, his marriage is unfruitful, and his sonse tells him that this is caused by his early follies. These are considerations which should awaken the attention of all who are similarly situated.

REMEMBER,

He who places himself under Dr. KINKELIN'S treatment, may religiously confide in his honor as a, gentle man, and rely upon the assurance, that the secrets of Dr. K.'s patients will never be-disclosed.

Young man—let no false modesty deter you from making your case known to one, who, from education and respectability, can certainly befriend you.

TO THE LADIES. "FORGIVE AND FORGET!"

When streams of tobacco juice, filthy as dirt, Are forced 'tween the teeth to the floor. And the puckered-up lips turned into a squirt To snatter the stove-plate or door; Then do not grow angry, nor fidget about, Till you've worked yourself into a pet; But make yourself easy; don't get in a pout,

Or if he, to whom you have trusted your heart ... With cowhides all mud which is tender. Should track o'er the Brussels' with stamp and with sta Then do not, I pray you, grow wrathy and blow Like a porpoise in water of jet. But go to him gently a love kiss bestow, You will learn to "forgive and forget.".

Or if old tabby out, full of its freaks, Should spill all the cream and then lick it; Don't fly in a passion and puff out your cheeks, Stamp your toos as you're trying to kick it ! Twill do you no good don't the old adage say: "For spilt milk there's no use to fret?" Restrain your impatience, drive Satan away, You will learn to "forgive and forget" o, too, if the "dear little chickey" should scratch

The ripe seed from the newly-dug ground, And porkers, with cunning snouts, force up the late To root the green garden around; Stop! rest for a mon nt-keep perfectly calm-Don't chase yourself into a sweat; nember the glories of fried eggs and ham-

f the friends whom you love prove false and unkind, When no favors gou have to bostow;
Why, don't take it hard; drive them from your mind; "Thank your stars," as you say, "let 'em gol" But think,, as with pity when you see them depart And grim sorrow your eyelids may wet, That devils hold anger pent up in the heart. But angels "forgive and forget."

No man that tries to do his duty to his fellows, and endeavors to live to bear the fruits of true religion in his daily conduct, can for a moment suppose that he will pass along through life without being slandered more or less. Such a man will of necessity have some enemies; and these enemies will try in every way to injure him, and, among others, they will not be slow in stirring up the polluted waters of defamation and slander. A man who has no enemies is merely a milkand-water nothing. We would not give three figs for such a man.

He who is anything, who makes his mark in the world, who does good, will have enemies; and, if he have them, he will be sure to be slandered.

KISSING.

We noticed not long since, that a man had been fined in Chicago, twenty-five dollars, for kissing "Sucker" damsel five times against her consent, "Now we den't think that the above is a very xhorbitant rate, if the western girls are any thing like those about our part of the world. The newsaper which records the fact of the fine, should however, have told us how long the kisses were. Byron says the length is the only way to deternine the value of a kiss. For example: "A long-long kiss-a kiss of youth and love

Suggestive.—A New Orleans paper presents very suggestive paragraph in the fellowing which ne entitles "The March to the Grave of 1857." ed to destroy its existence by force and usurparion; between those who sustain and those
who have done all it their power to overthrow the Territorial Government established by Congress. This Government they would
long since have subve ted had it not been protected from their assaults by the troops of the
United States. Such has been the condition of
affairs since my inauguration. Ever since that
period a large portion of the people of Kansas
have been in a state of rebel ion against the Govexament; with a military leader at their bend, of

comment, with a military leader at their head, of the most turbulent and dangerous character.

They have never acknowledge, but have constantly denounced and defied, the Government to which they owe allegiance, and have been all the time in a state of resistance against its authority. They have all the time been endevoring to subverlit and established a revolutionary Government, under the so-called Topeka Constitution, in its atead. Even at this very moment the Topeka Legislature is in session. Whoever has rend the correspondence of Gov. Walker with the State Department, recently communicated to the Senate will be convinced that this picture in not over-

ander the st-called Topeka Constitution, in its stead. Even at this very moment the Topeka Legislature is in session. Whoever has rend the correspondence of Gov. Walker with the State Department, recently communicated to the Senate will be convinced that this picture in not overdrawn. He always protests against the withdrawal of any portion of the military force of the United States from the Territory, deseming its presence absolutely, necessary for the preservation of the regular Government, and the execution of the laws. In his very first despatch to the Scoretary of State dated June 2, 1857, he says.

"The most alarming movement, however, proceeds from the assembling of the saycalled Topeka Legislature, with the view to the enactment of an entire code of laws. Of course, it will be my endenvor to prevent such a result as would lead to an inevitable, disastrous collision, and, in fact renew civil war in Kansas." This was with difficulty prevented by the efforts of Governor Walker, but soon Gen. Harney was required to furnish him a regiment of dragoons to proceed to the city of Lawrence; and this, for reason that he had received authentic intelligence, verified by his own actual observation; that dangerous rebellion had occurred, "involving open defiance of the laws, and the established of an insurgent Government in the city."

In the Governor's despatch of July 15th, he informs the Secretary of State. "that the movoment in the city," to organize an insurrestion throughout the Territory, and especially in all towns, cities, and counties where the Republican party have a maintiry. Lawrence is the hot-bed careful the convention of Delegates chosen by the regular down that "under our practice the whole through the instrumentality of Congress and clothed by it, in the comprehensive language of the cognition of Congress, and the authority of Congress and clothed by it, in the comprehensive language of the convention. The Convention, were fully sustained by the convention, when it exists the winder of Congress, and over, who proved faithless, and abandoned her for thin, you must take care of it. Here is an infallown actual observation, that dangerous rebellion had occurred, "involving open defiance of the laws, and the established of an insurgent Govern-

ing in that city, to organize an insurrection throughout the Territory, and especially in all towns, cities, and counties where the Republican party have a majority. Lawrence is the hot-bed of all the Abolition movements in this Territory. It is the town established by the Abolition societies of the East, and .. hilst there are respectable poople there, it is filled by a considerable number of mercenaries who are paid by the Abolition societies to perpetuate and diffuse agitation throughout Kansas, and prevent the peaceful settlement of this question. Having failed in inducing their

will extend throughout the Territory."

And again: "In order to send this communication immediately by mail I must close, assuring you that a spirit of rebellion pervades the great mass of the Republicans of this Territory, instigated, as I entertain no dout they are, by Eastern societies, having in view results most disastrous to the Government and the Union, and that the continual presence of Gan. Hurney is indiagnerated to the Government and the Union, and that the continued presence of Gen. Harney is indispensible, as originally stipulated by me, with a large body of dragoons and several batteries."

On the 20th of July, 1857, General Lane under the authority of, the Topeka Convention, undertook, as Gen. Walker says, "To organize the whole so-called free States party into volunteers, and take the names of all who refuse enrolment. The professed object, was to protect the polls at The professed object was to protect the polls at

the election in Augustof the new insurgent Topeka state Logislature." "The object of taking the names of all who refuse the curolment is to terri-This is proved by the recent atrocities committed on such men by the Topekaites. The speedy location of large bodies of regular troops here with two batteries is necessary. The Lawronce insurgents await the development of this new revolutionary military organization."

In Governor Walker's despatch of July 27th, he

"Gen. Lane and his staff everywhere deny the "Gen. Lane and his staff everywhere deny the authority of the Territorial laws, and counsel a total disregard; of these enactments." Without making further, quotations of similar character from other despatches of Gov. Walker, it appears by a reference to acting-Governor Stanton's communication to Secretary Cass, under date of the 9th of December last, that "the important stop of calling the Legislature together was taken after Gov. Walker had become satisfied that the election or dered by the Convention on the 21st inst. could not be conducted without collision or blood-shed." dered by the Convention on the 21st inst. could not be conducted without collision or blood-shed." So income was the disloyal feeling among the enemies of the Government established by Congress, that an election which affords them an opportunity, if in the majority, of making Kansas a free State, according to their own professed desire could not be conducted without collision and bloodshead. The truth is, that until the present moment the enemies of the existing Government still adhere to their Topeka revolutionary Constitution and Government. The very first paragraph of the message of Governor Robertson, duted the 7th of December, to the Topeka Legislature now assembled in Lawrence, contains an open defiance of the Constitution and laws of the efiance of the Constitution and laws of the

United States.

The Governor says: "The Convention which framed the Constitution at Topeka originated with the people of Kansas Territory. They have a-dopted and ratified the same twice by a direct vote dopted and ratified the same twice by a ulruct vote and also indirectly through two elections of State officers and members of the State Legislature.—Yet it has pleased the Administration to regard the whole proceeding as revolutionary." This the whole proceeding as revolutionary." This Topeka Government, adheared to with such trea sonable portinacity, is a Government in direct op-position to the existing Government, as prescribed and recognised by Congress. It is an usurpation of the same characters as it would be for a portion of the people of any State to undertake to established a separate Government within its limits,

egates to the Kansas Constitutional Convention, and also afterwards on the question of alavery, submitted by it to the people. It is because they have ever refused to sanotion or recognise any other Constitution than that, framed at Topska. Had the whole Lecomption Constitution been submitted to the people the adherents of this organization would doubtless have voted against it because, if successful, they would thus have form over an obstacle out of the way, of their own done this, not upon consideration of the merits of the whole or part of the Lecompton Constitution for the whole or part of the Lecompton Constitution, but simply because they have ever resisted the authority of the Government authorized by Congress, from which it emanisted.

Such being the infortunate oddition of the affairs of the Territory, what was the right as well as duty of law-abiding people?

fairs of the Territory, what was the right as well mit any portion of the Constitution to the people as duty of law-abiding people?

Were they allently and patiently to aubmit to the Topeka neuropation, or adopt some necessary in opposition to many precedents in our history,

PREST BUCHANAN'S SPECIAL MESSAGE.

I have received from Gen, Calhoun, the president of the late Constitution of Kanans, a copy, duly, cyrified by himself, of the constitution framed by that body, with the expression of a hope that I would submit the same to the consideration of Congress with the view of securing, the admisjon of Kunsas into the Union as an independent. State. I compliance with the request, I herewith transmit to Congress, for its action, the Constitution, to Compliance with the ire difference of General Calhoun, dated Lecompton, 14th alk by which they were accompanied.

I having received but a single copy of the Constitution and ordinance, I send this, to the Sentate.

A great defusion, ascens to pervade the public mind in relation to the condition of the parties of in Kasaris. This arises from the difficulty of in ducing the American people, to realize the fact that any portion of them, should be in a state of the same by to order supply to the existence of the Government, that the state of the desire of the Repolitor of the special of the true state of the case. The difficulty of in the question of difference of the Government, that between two political parties, but asknowledging the lardel existence of the Government, but between two political parties, but asknowledging the lardel existence of the Government, but between two political parties, but asknowledging the lardel existence of the Government that any poople of the Service of the people to the first of the case. The difference of the Government and those who have endeaving the lardel existence of the government does not be the sum of the people of the ferritory, with the sightest pretext of lawful authority, in family taken, and they decided in favor of a convention. It is true, that at this election the ensemble of the propose of subverting the Territorial Government, on the 2 propose Jung, 1897, to frame a state constitution. Anis law is as fair in its provisions as any that ever passed a logislative body, for a similar purpose. The right of suffrage at this election is clearly and justly defined. "Every bona fide inhabitant of Kansas," on the third Monday of June, the day of the election, who was a citizen of the United States above the age of 21, and resided therein of the election, who was a clitzen of the United States above the age of 21, and resided therein for three months previous to that dute; was estitled to vote. In order to avoid all interference from neighboring St tes or Territories with the freedom and fairness of the election, a provision was made for the registrary of qualified voters and pursuant there if, nine thousand and flifty two voters were registered. Governor Walker did his whole duty in unyone all the eneligible differences.

prevails, those who abstain from the exercise of the right of suffrage authorise those who do vote to act for them in that contingency, and absentees are as much bound, by the law and Constitution, where there is no fraud or violence, by the act of the majority of those who do vete, as if all had participated in the election; Otherwise, as voting must be voluntary, self-government would be impracticable, and monarchy or despotism would remain as the only alternative."

It may also be observed that at this period. It may also be observed that at this period, any hope, if such had existed, that the Topeka Constitution would ever be recognised by Congress, must have been abandoned. Congress had adjourned on the 3rd of Merch previous, having recognised the legal existence of the Territoral Legislature in a variety of forms, which I need not enumerate. Indeed, the delegate elected to the House of Representatives, under a Territorial law, had been admitted to his seat, and had just completed his term of service the day previous to my inauguration. This was a propitious moment for settling all the difficulties in Kansas. This was the time for abandoning the revolutionary Topeka organization, and for the enemies of the existing Government to conform to the laws It may also be observe the existing Government to conform to the laws and units with is friends in framing a State Constitution. But this they refused to do, and the consequences of their refusal to, submit to lawful authority, and vote at the election of dejection. ogates, may yet prove to be of the most deplora-ble character. Would that the respect for the laws of the land, which so eminently distinguishat the men of the past generation, could be revived. It is a disregard and violation of the law which have for years kept the Territory of Kansas in a state of almost open rebellion against the Government; it is the same spirit which has produced actual robellion in Utah. Our only safety consists in obseitions and conformity to the law. Should a general spirit against its enforcement. Should a general spirit against its enforcement prevail, this will prove fatal to us as a nation. We acknowledge no master but the law; and should we out loose from it restraints, and every one do what seemeth good in their own oyes, our

ase is indeed hopeless.

The enemies of the Territorial Government are determined still to resist the authority of Con-gress. They refused to vote for delegates to the Convention, not because, from circumstances which I need not detail, there was an omission to register comparatively few voters who ware inhabitants of certain counties in Hanses, in the carly spring of 1857, but because they had preletermined, at all hazards, to adhere to their revolutionary organization, and defeat the estab-lishment of any other Constitution than that which they had framed at Topeka; the election therefore, was suffered to pass in default. But of this result the qualified electors who refused to

vote can never justly compain.

From this review, it is manifest that the Lecompton convention, according to every princi-ple of constitutional law, was legally constituted and invested with the power to frame a Constita-

The sacred principle of popular sovereignty has seen invoked in favor of the enemies of law and been invoked in favor of the enemies of law and order in Kansas. But in what manner is popular sovereignty to be exercised in this country, if not through the instrumentality of established law? In certain small Reputlies of ancient times people did assemble in primary meetings, passed laws, and directed public affairs. In our country this is manifestly impossible. Popular sovereignty can be exercised here only through the ballothox, and if people will refuse to exercise it in this manner, as they have done in Kansas at the class. manner, as they have done in Kansas at the elec-tion of delegates, it is not for them to complain that their rights have been violated.

The Kansas Convention, thus lawfully constithe Rausas Convention, thus lawfully consti-tuted, proceeded to frame a Constitution, and, having completed the work, finally adjourned on the 7th of November last. They did not think proper to submit the whole of the Constitution to lished a separate Government within its limits, for the purpose of redressing any griev nee, real or imaginary, of which they might complain, against the logitimate State Government. Such a principle, if carried into ex ccution, would destroy, all lawful authority and produce universal anarchy.

From this statement of facts, the reason becomes palpable why the enemies of the Government authorised by Congress have refused to vote, for each of the people of the state of the condition of the people of the state of the condition of the people of the state of the condition of the people of the state of the condition of the people of the condition of the popular vote, but did s. bmit the question which had convulsed the Union and shaken its very centre. From this statement of facts, the reason becomes palpable why the enemies of the Government authorized by Congress have refused to yote for delegates to the Kansas Constitutional Convention, and also afterwards on the question of slavery, submitted by it to the people. It is because they have ever refused to sanction or recognise any other Constitution than that, framed at Topska other Constitution than that, framed at Topska submitted to the people the adherents of this or submitted to the people the adherents of this or in fact, the general provisions of the recent State.
