Humorous Corner.

BEAUTIFUL EXTRACT-Helping a hands young lady out of a mud-puddle.

It is said that some of the mothers of the east are so kind hearted that they give their children chloroform previous to whipping them.

When you see a young man and woman walking the street, leaning against each other like a pair of badly yoked oxen it is a pretty good sign that they are bent on consolidation.

Good IDBA .- There is a rule in a debating soclety that we have heard of, which is, 'that any gentleman wishing to speak more than half an hour, shall have a room to himself."

A Boston paper, giving a puff to a new minister, says :- 'His prayer at the close of his sermon was the most eleguent that was ever addressed to a Boston audience!"

FIRE AND RAIM .- A man in Pautucket recently applied for insurance on a building in a village where there was no fire engine. In answer \$12,000 Worth Store Goods to the enquiry :- "What are the facilities for extinguishing fires?" he wrote, "It rains some-

Young man, a private word. When you go courting, find out as soon as possible whether your affections are being planted more in a bundle of dry goods and things generally than a pulsating heart, hemmed in by warm ribs and all that. Many a fellow has laid himself out for a full made woman, and only found a very extensive assortment of cotton, whalebone and similar delusive institutions. Just look over the goods before going to the parson.

Doesticks went to a fashionable church in a city to buy a pew, but had too light a purse .-

"I very soon discovered that no 'deadheads were allowed on this line, and that if a man couldn't pay he was put off the train. After some preliminary chat about the foreign news, the state of the markets, the hope of a revival of religion, the rise in 'Erie,' the progress of the work of grace and the price of pork, the lowly ones gathered around, and the sale began. Those pews nearest the pulpet, or perhaps I could say, those seats next the locomotive, were sold first, they brought seventy, eighty, and even, one hundred dollars premium; the price was to be paid merely for a choice of seats, in addition of the regular rent. I instantly saw that I hadn't money enough to take a first-class cabin passage, but that there might be a place for me somewhere. Jones bought a ticket and Smith, and Tompkins; but there was not a single seat that came down to my pile, and I felt I must give up the journey, or find a cheaper

Mr. Joseph E. Hover:—A trial of your Liquid Hair Dye will convince the most skeptical, that it is a safe, elegant and efficacious preparation. Unlike many others, it has in several instances proved serviceable in the cure of some cutaneous eruptions on the head, and I have no hestiation in commending it to those requiring syelf an application. SECRET DISEASES,

not a single seat that came down to my pile, and I felt I must give up the journey, or find a chenper conveyance, for I certanly couldu't afford to go to heaven at such exorbitant rates."

HONORABLE CONDITIONS.—Many years ago, in what is now a flourishing city in this State, lived a stalwart blacksmith, fond of his pipe and of his joke. He was also fond of his blooming daughter, whose many graces and charms had ensured the affections of a susceptible young printer. The couple, after a season of mutual billing and cooing, "engaged" themselves, and nothing but the consont of the young lady's "parient" prevented their union. To obtain this, an interview was arranged, and Typo prepared a little speech to astonish and convince the old gontleman, who sat enjoying his pipe in perfect content.

Typo dilated upon the fact of their long friendship, their mutual attachment, their hopes for the future, and like topics, and taking the daughter "I now, sir, ask your permission to 'ransplant this lovely flower from its parent bed"—but his "pheelinks" overcame him, he forgot the remainder of his rhetorica! flourish, blushed, stammered, and the victim mutual, the forgot the remainder of his rhetorica! flourish, blushed, stammered, and for the standard properties are an early consumption.

into a rapid Consumption.

But should the disease and the treatment not cause death speedily and the victim marries, the disease is entailed upon the children, who are born with feeble constitutions, and the current of life corrupted by a virus which betrays itself in Serofula. Tetter, Ulcers. Eruptions and other affections of the Skin, Eyes, Throat and Lungs, entailing upon them a brief existence of suffering and consigning them to an early grave.

SELF ABUSE is another formidable enemy to health, for nothing else in the dread catalogue of human diseases causes so destructive a drain upon the system; drawing its thousands of victims through a few years of suffering down to an untimely grave. It destroys the Nervous System, rapidly wastes away the energies of life, causes mental derangement, provents the proper development of the system, disqualifies for marrivge, society, business, and all earthly happiness, and leaves the safferer wrecked in body or mind, predisposed to Consumption and a train of evils more to be dreaded than death itself. With the fullest confidence I assure the unfortunate victims of Self Abuse that a permanent and speedy cure can be effected, and with the abandomment of ruinous practices my patients can be restored to robust, vigorous health.

The afflicted are cautioned against the use of Patent Medicines, for there are so many ingenious sources in the columns of the public prints to catch and rob the unwary sufferers, that millions have their constitutions ruined by the vile compounds of quack doctors, or the equally poisonous nostrums vended as "Patent Medicines." I have carefully analyzed many of the so-called Patent Medicines and find that nearly all of them contain Corrovive Sublimate, which is one of the strongest proparations of mercury and a deadly poison, which, instead of cuing the disease, disables the system for life.

Three-fourths of the patent nostrums now in use are put up by unprincipled and ignorant persons who do not understand even the alphabet of the MATERIA MEDICA, and are equally as destitute of any knowledge of the human system, having one object only in view, and that to make money regardless of consequences.

Irregularities and all diseases of males and females treated on principles established by twenty years of practice, and sanctioned by thousands of the most remarkable cures. Medicines with full directions sent to any part of the United States or Canadas, by patients communicating their symptoms by letter. Business correspondence strictly confidential. Address

JAMES F. MAXWELL,

NAME ACTURER OF

Improved Eire and Water Proof

COMPOSITION, ROOFING,

HARRISBURG, PA.,

RESPECTFULLY inform the citizens of Harinsburg, Reading, Lancaster, Lebanon, and
their vicinities, that we are prepared to put on
roofs on most liberal terms, and at the shoztest

roofs on most liberal terms, and at the shortest notice.

We respectfully call the attention of persons about to build to our invaluable method of roofing, now much used throughout the principal cities of the United States and their vicinities. This mode of woofing having all the combined requisites of cheapness, Durability, and Security against Fire and Water, and dispensing with high gable walls, the roofs require an inclination of not more than three-quarters (2) of an inch to the foot, and in thee-quarters (2) of an inch to the foot, and in three-quarters (2) of an inch to the foot, and in many cases saving the entire cost of rafters—the ceiling joist being used.

The gutters are made of the same material, without any 'text'a charges; 'teorisequently, our roofs are put up at almost half the cost of either Tin, Slate, or Shingles. The material being of an imperiphable nature strenges all others in

an imperishable nature, it surpasses all others in Durability; besides, in case of any casualty, it is the most easily repaired of any other roof now in use. Yet, the best proof, we can offer as to its being both fire and water proof, are our many references, to any one of whom we are at liberty N. B.—But let it be distinctly understood

(since we mainfacture our own composition, and do the work in person,) that we warrant all our work proof against both Fire and Water; if they prove contrary, we will most willingly abide the

The materials being mostly non-conductors of heat, no roof is so cool in summer, or so warm in winter. Those wishing to use our roof should give the rafters a pitch of about one inch to the foot.
