SINCE WHEN ARE THE OPPOSITION AD. THE FAIR .- A large number of the generous adies who propose holding a Fair in this Borough on Whit-Monday, assemble on Wednesday evening of every week, in the Persoverance Hall, which they seem to have converted into a regular bee-hive,) to manu facture and receive articles. The Hall has been recently remoddeled, and prewere taken, when Wesley Frost, of Payette, re- | sents a neat appearance. A number of articles are being thankfully received weekly, and appearances are encouraging that this will be the greatest Fair ever held in this county. The proceeds will be devoted towards a laudable object. of which the good denizens of Lebanon will have just cause to be proud.

> SAD NEWS .- We understand that the schools in several districts of this county are about closing. When we reflect over the idea of keeping schools open four or five months in the year, this is to be deply regretted. Experience taught us that equally as much is forgotten in eight months as learned in four. How then can the glorious Common School system prove its capacity under such circumstances; how can the teacher expect to receive his just reward? Why cannot country schools keep open ten months in the year? is a question we would aid in discussing.

RELIGIOUS.—The past winter has been an interesting one for revivals in this borough and can is edified by our apparent change of county. For the Lebanon Advertises Nicholas Gabrini de Rienzi, the last of the

Roman Tribunes, and John W. Forney. There is a striking similitude in the characters

of these individuals, the former playing his political pranks 500 years ago the latter is now playing the last act of his own political drama. Rienzi obtained the post of public scribe; he allowed no opportunity to escape to excite the people to discontent, lectured insiduously and harrangueing against the legal authorities, until the people conferred upon him the title of Tribune, but after a turbulent administration of a few months, he was massacred.

Forney obtained the post of scribe to the House of Representatives, performed his duties with so much plausibility, that his bitterest political enomies applauded his conduct-with equal insiduousness he is endeavoring to arouse the discontent of the people againt their own government, and against the party which warmed him into life-like his prototype he will signally fail, and sink into his original insignificance.

People will make an Express office of the mails. In three days' time, the Postmaster at Charlestown, Mass., has taken from newspapers mailed at that office the following articles among others: Three contained dress patterns, 3 three skeins of silk each, 3 letters, 2 pieces of black silk, 1 landscape drawing, 1 a letter and a \$3 bill; 1 a child's apron; I a roll of ribbon, I a ladies collar, and 1 a Ohina baby.

LADIES AND GENTLEMEN:—We would call your atten-ion to the advertisement of Prof. O. J. Wood's Hair Res-orative, which appears in the columns of our present

torative, which appears in the columns of our present number.

From our long acquaintance with the proprietor, and with numerous individuals who have used his preparation with perfect success for the last two years, we feel no hesitation in recommending the article as superior to any of the preparations now in use for the same purpose, viz: for restoring grey hair to its original color, a sure and perfect cure for baldness, and a never failing preventive for the failing off of the hair.

It is decidedly the best and most popular in use for beautifying, preserving, restoring and strengthening the hair, relieving diseases of the skin, and removing scurff, dandruff and all cruptions and feverish heat from the scalp;

We speak in relation to the above from what we know, having been personally acquainted with numerons per-sons who have used the Restorative for the above pur-

poses with the most gratifying results.

It is not often we notice a patent medicino. Indeed we think we have never puffed one before; but Prof. Weed's Hair Restorative is something so superior to most of the preparations of the day, that we cannot forbear asking the attention of our readers to it —Cath. For warming with pure air Private or Public Rooms, Halls, Stadies, Churches, l'actories. Stores, &c.. Sanford's \$1,000 Challenge Putent Portable Heater is unequalled. It is claimed that it will bring into section at least 30 per cent. more heat than any other of the same size, using at the same time 30 per cent. less fuel. The objection usually ascribed to all other heaters of turnishing an impure, dry air, so injurious to health and farmiture, is avoided in this, etipplying as it does a pure malleable air.

This heater has been in use for ave years, and all whe have them testify in the most flattering terms to their amperiority over all others, both as fuel-savers and heaters.
