THE LEBANON ADVERTISER.---A FAMILY NEWSPAPER.

Pumorous Corner.

BERATHINGS OF AN ISOLATED HEART.

How sweet is all nature when spring is appraring, And warblers melodiously sing in the grove; To the heart that is unclouded with sorrow, how cheering To hear the birds wantonly chanting their love!

O, blest is that man who can listen with pleasure, O, blest is the eye then undimmed with a tear; O, happy the heart unbereft of a treasure, Then diamonds more scarce -- than existence more dear

That heart may be calm as the deep flowing river. That noiselessly rolls to the fathomless sea; But sorrow, alas, is my portion forever, The gem I most value mine never can be.

Though Edon was mine, with its scenes so enchanting Though riches and beauty around me did twine, I'd still be unhappy, this plighted heart panting, Nay, bursting for one who can never be mine

But had I this lowel such beautics possessing While sojourning here I would nothing more crave I'd envy no mortal, for with such a blessing, Time sweetly would glide till I lay in my grave.

O, God, if 'tis sinful thus fondly to love her, Thou gavest this heart, and 'tis formed to adore; Thon mad'st her too perfect, and ah! I can never Forget her till time shall with me be no more !

Yes. It is a proof that a man is sober, because he can stand a loan?

Hearts-Little red things that men and women play with for money.

Common sense has become such a rare commodity, that the world has entered into a tacit compact to live without it.

To prevent your hair from coming out, never let your wife catch you kissing the servant girl.

A wise man will dread the beginning of quarrels. None of us knows how much of the evil spirit is either in himself or in his adversary.

A thirfty wife wonders why men can't do something useful. Might't they as well amuse themselves smoking hams as eigars?

FI a negro be named Smith, docs it follow that he should be put down on the consus as a blacksmith?

per It has been remarked, that of all the fine titles of which Napoleon had the picking, there is nothing left but the bare bony-part.

A Lover-writing to his sweetheart says. "Delectable dear-you are so sweet that honey would blueh in your presence, and molasses stand appalled."

Can you tell me Bill, how it is that a rooster always keeps his feathers slock and smooth ?" "No," said Bill.

"Well, he always carries his comb with him."

"Steel your heart," said a considerate father to his son, "for you are now going among some fascinating girls." "I had much rather steal theirs," said the unpromising young man."

ger "Come here and tell me what the four seasons are ?" Young prodigy answers, "Pepper, mustard, salt and vinegar; them's what mother always seasons with ?"

Many woman are beloved without knowing it, but more women think they are beloved when they are not. They generally discover their mistake after marriage.

"Sally, what did you do with that tallo" Mr. Brownley greased his boots with this morning?" "Please, marm, I greased the griddle-cakes with it !"

"Lucky you did Miss, I thought you wasted it!"

Dr. Morse's Indian Root Pills

Dr. Morse?s Indian Root Pills Dr. Morse?s Indian Root Pills Das point the greater part of his life in traveling, having visited Europe, Asia, and Africa, as well as North America.—has spent three years among the Indian of our Western country.—it was in this way that the Indian Root Pills were first discovered. Dr. Morse was the first man to establish the fact that all diseases arise from Inspurity of the Biod—that our strength, health and life depended upon the visai fatid. When the rarious passages become clogged, and do not act in porfect harmony with the different functions of the body, the blood loses its action, bécomes thick, corrupted and diseased; thus causing all pains, sickness and distress of every name; our strength is exhausted, our health we are deprived of, and if nature is not assisted in throwing off the stagmant humory, hone will become checked and closes to act, and thus our light of life will forever be blown out. How important then that weshould keep the various passages of the body free and open. And how pleasant to us that we have it in our power to put a med-liem in your reach, namely, Morse's Indian Root Pills, maufactured from plants and roots which grow around the mountainous cliffs in Nature's garden, for the health and recovery of diseased man. One of the roots from which these fills are made is a Sudorific, which opens the pores of the skin, and assists nature in throwing out the finer parts of the corruption within. The second is a plaut which is an Expectorant, that opens and unclogs the passage to the lungs, and thus, in acothing manuer, performs its duty by throwing off plegm, and other hu-mors from the lungs by opplous spitting . The thir is a Diructic, which gives ease and double strength to built-huey; thus encouraged, they draw large amounts of im-munity from the bloed, which is then thrown out bounti-fully by the unitary or water passage, and which could not have been discharged in any other way. The fourth ully by the urinary or water passage, and which could to have been discharged in any other way. The fourth s a Cathartic, and accompanies the siher properties of he Fills while engaged in purifying the blood; the coar-er particles of impurity which cannot pass by the other ullets, are thus taken up and conveyed off in great quan-ities by the bowels.

ities by the bowels. From the above, it is shown that Dr. Morse's Indiau

outlets, are thus taken ip and convoyed off in great quan-tities by the bows; it is shown that Dr. Morse's Indiau Root Pills not only onter the stomach, but become uni-ted with the blood, for they faed way to every part, and completely rout out and cleanse the system from all im-purities, and the life of the body, which is the blood, be-comes perfectly healthy; consequently all sickness and pain is driven from the system, for they cannot remain wheat the body becomes so pure and clean. The reason why people are so distressed when sick, and why so the body becomes so pure and clean. The reason why people are so distressed when sick, and why so the body becomes so pure and clean. The reason why people are so distressed when sick, and why so thany die, is because they do not get a medicine which will pass to the afflicted parts, and whild will open the natural passages for the disease to be cast out bench a large quantity of food and other matter is lodged, and the stomach and intestines are literally overflowing with the corrupting mass; thus undergoing disarceable for-mentation, constantly mixing; with the bilood, which Hurows the corrupted matter through every vein and arti-ry, until life is taken from the body by disease. Dr. Morse's PILLS have, added to themselves victory upon victory, by restoring millious of the sick to blooming health and happiness. Yee, thousands who have been uracked or tormented with sickness, pain and anguish, and whose feeble frames have been scorched by the burn-ing elements of raging fover; and who have been unmbered with the dead, ind it not been for this great and wonder-fol medicine, Morse's Indian loot Pills. After one or two deses had been taken, they, wore absolution standished, in witneesting their charming effects. Not only do they give immediate case and strength, and the ken away all sick-uess, pain and anguish, but they at once go to work at the foundation of the disease. which is the blood. Thore-fore, it will be shown, especially by theso who use thece Pills t

Medicines. Agents wanted in every town, rillage and hamlet in the land. Parties desiring the agency will ad-dress as above for terms. Price 25 couts per box, five boxes will be sent on receipt of \$1, postage paid. Doc. 16, 1857.-Iy.

THE undersigned, having taken this old and favorite stand, and having refitted it in the

Trusses.

A WISE REPLY .- There was much sound, pal pable argument in the reply of a country lad to an idler, who boasted of his ancient family:

"So much the worse for you." said the peasant: "as we ploughmen say, the older the seed the worse the crop."

HIS OCCUPATION .- A first-rate joke took place quite lately, in the Court-room. A woman was testifying in behalf of her son, and swore that he had worked on a farm "ever since he was born." The lawyer who cross-examined her said: "You assert that your sen has worked on a farm ever since he was Horn ?" "T do." "What did he do the first year ? "He milked."
