Unique Mermon of Defence. -Long John Wentworth's mode of warding off blows aimed at his lame shoulder, with heavy hickory canes is unique if not original. In his account of the attack made upon him, he says, in his paper, the Chicago Democrat, "We warded off the first blow with our head." This reminds us of the famous narrative given by John Phoenix of his fight with the Judge, into whose mouth he inscried table. his nose for the purpose of holding him down.

Mr. F. B. Hall has now no exhibition the Pennsylvania House, in Patterson, Juniata county, one of the strangest freaks of nature. It is a pig which was taken from a sow which had been slaughtered on the farm of Dr. ThornesTayother shaped and hanging down precisely like an elephant; it has but one eye, and that is placed in the center of its bead, and contains two distinct sights; it also has ou its upper lip a horn, like a specros; in the place of a lower jaw it has a distinctly formed human chiu; its two hind legs and feet are perfectly developed, the same as a natural pig's, while one of its fore feet has a protuthe other fore foot more nearly, resembles a came of foot than anything we can liken it to. of the State of Pennsylvania. I the State of Pennsylvania am at present in a sound State of health, but considering the uncertainty of this transitory life, we cannot judge, but as I am at present of sound mind memory and understanding, I declare this to be my last Will and Testament.

First. It is my will that my Body is to be bur ied in a decent manner, and the funeral expenses to be paid by a collection.

Second. As my sons and daughters have helped me greatly in my worldly circumstance, it is not more than right and just that they be not forgotten after my decease.

And as my daughters called Philadelphia and Pittsburg city, send every winter to my house an American, a native of Chambersburg, Pa., and much longer, I therefore make the following reserves and bequeats:

First. My son called the Pennsylvania Rail Road Company, got a good share of the leaves and fishes in my life-time, by the sale of the Main Line to him, I think it is not more than right and proper that he should continue and pay the the three mill tonage tax regular through his exstence, for the sole use and maintenance of my widow.

Second. And as my son called the Sunbury and Eric Railroad Company is in bad circumknown until the parts were seen in the block of stances as reported, whether through bad manageiice after docy had been loaded upon a sleigh to be ment, intemperance or gambling, I cannot say, but as it is scripture to reclaim the lost and provide for the needy, I hereby give and bequeath to him the North and West Branch Canal for his

A NOVEL ATTEMPT TO OBTAIN A PARDON. The old adage that "truth is stranger than fiction" is becoming more palpable every day. A singular illustration of this precept was made manifest on the 8th instant, by the insane conduct of one of the convicts in the penitentiary at Alton, Illinois. It appears that a desperado, named William Lindsay, who was confined for committing a robbery in Champaign county, by some means or other obtained possession of a knife, and with it determined to obtained his nardon and liberty. When one of the guard, named Crabbe, made his accustomed visit, profiting by the absense of others, he knocked him down, tied his arms, and fastened his cell door with a stick of timber. When this fact became known, and efforts were made to obtain the release of the unim up unless his pardon were procated, and imself released, threatening to kill him it his terms were not acceded to. In order to prevent surprise, he constantly kept the body of his prisoner between himself and the aperture in his cell door, so that a shot fired from the outside would first take effect on Crabbe. In this state of affairs the pardon was procured, but without using A an offort was made to accomplish the release of Crabbe by stratagem. Breakfast was placed at the cell door in larger vessels than usual, and when the fortunate guardsman, the wretch refused to give cod liver eil was then applied, also without effect were not acceded to. In order to prevent surin abating the pain. But chloroform having been prise, he constantly kept the body of his prisoner CLERGYMAN-BURIED ALIVE.—A letter from fort was made to accomplish the release of Crabbe Brie, Pa., gives the following rather improbable by stratagem. Egyptian Schools.—In Egypt schools are very numerous, almost every village containing at least one. Scholars attend them at an expense of little over two cents a week, which is collected by the schoolmaster every Thursday, from the parents. The master also usually receives yearly, a turban, a piece of linen, and a pair of shoes. The schools are held in the open air. The children sit upon the ground, and learn their lessons from wooden tablets, and when one lesson is loarned, the tablet is washed, and another is substituler county, Va. orang, thus affording additional evidence of the progress of American Baterprise and Industry, and of our ability to produce articles at home equal to those made by any other nation.

The OHIO CATAWBA BRANDY not only equals, but even excels the best imported. Branding in purity and flavour. It is in fact the BEST BRANDY KNOWN.—

This statement is fully corroborated by the Certificates of many of our most distinguished and spour. The want of PURE BRANDY has long been felt in this country, and, the introduction of a article of such quality as to supersede the sale and use of those vile compounds hitherto sold under the name of Brandy, can only be regarded as a great public good. The CATAW-BA BRANDY possesses all the good qualities claimed for the best imported Edjuor, and is of perfect purity and superior flavor. It is therefore fully entitled to the patronses of the public, as the following certificates will show. We feel confident that its reception in this State will be as favorable as that which it has met with in the Great West, and that the time is not far distant, when the superiority of our own Lagons will put an end to their importation from abroad.

In Medicinal purposes this Brandy has no rival, and has long been needed.

Patent Portable Heater.

The world. For warming with pure air Private or Public Romas, Rathis, Swattes, Cauches, Factories, Stores, &c., Sanford's \$1,000 Chailenge Patent Portable Reaker is unequalled. It is claimed that it.will bring into action at least 30 per cent. more heat than any other of the same size, using at the same time 30 per cent. less fuel.

The objection usually ascribed to all other heaters of furnishing an impure, dry air, so injurious to health and furniture, is avoided in this, supplying as it does a pure malleable air.

This heater has been in use for five years, and all who have them testify in the most flattering terms to their superiority over all others, both as fuel-savers and heaters.

"No Such Word as Fail." HOLLOWAY'S OINTMENT.

HOLLOWAY'S, OINTMENT.

"BIROULAR TO THE SICK.—The first hospital surgeons and medicinal publicits of Europe admit the unparalleled anti-inflammatory, and healing properties of this ofnement; governments sanction its use in their navaland military services; and the masses in this country and throughout, the world repose the uniose candidates in its curative properties. It penetrates the sources of inflammation and corruption which underlie the external evidences of disease, and mentralize the fiery elements which feed and exapporate the malady.

These are among the most terrible and agonizing diseases of the muscles, the fleshy fibre and the skin; jet in their worst forms, and when seemingly incurable, they invariably disappear under a persevering application of this soothing, healing antidote to pain and inflammation.

Salt Rheum, Fever Sores, Stiff Joints.

In all cases of Salt Rheum, where medical waters, lotions, and every recipe of the pharmacopea have proved unseless, the Ointment will accomplish a thorough cure. Fever Sores heal quickly under its influence, and its relaxing effect upon contracted sinews is truly wonderful.

A meet remarkable and happy change is produced in the appearance of malignant ulcers after a few applications of this Ointment. The sufrounding redness vanishes, and granules of health, flesh begin to take the place of the discharged matter. This process goes on more or less rapidly until the orifice is filled up with sound material, and the ulcer radically cured.

HAIR INVIGORATOR AND TONIC.

HAIR INVIGORATOR AND TONIC.

A gentleman of Boston writes to his friend in New Bed ford thus:
To your inditiries, I would reply, that when I first commenced using Prof. Wood's Hair Restorative, my hair was almost white, and had been so for the last ten years and it was very thin on the top of my head, and very loose, and pulled out freely; but I found that before I had used all the second bottle, (which was eight weighs) my hair was entirely changed to its original color, light birpwil, and is now free from dandruff and quite moist. I have and is now free from dandruff and quite moist. I have now never seen anything like white hair starting from the roots; and it is now as thick as it ever was, and does not come out at all. It has proved in my case all that I could wish to ask.

July 1, 1855.

Yours, etc.

[From the Boston Herald.]
Something Worth Knowing.—By using Prof. Wood's Hair Restorative, gray hair can be permanently restored to its original color. The subjoined certificate from Johnson & Stone, Gardiner, Maine, is but one of the many instances that are daily coming to our knowledge, of its wonderful effects. It is no longer problematical, but a self-orident truth, as hundreds in our community can testify.

tify.

Gardiner, Maine, June 22, 1855.

Dear Sir: — I have used two bottles of Prof. Wood's Hair Restorative, and can fruly say it is the greatest discovery of the age for restoring and changing the hair. Before using it I was a man of seventy. My hair has now attained its original color. You can recommend it to the world without the least fear, as my case was one of the worst kind.

Yours, respectfully,

Pref. O. J. Wood.

BROOKSTEIN, MASS. January 12, 1855.

BROOKTIELD, Mass., January 12, 1855.

DEAR SIR:—Having made a trial of your Hair Restorative, at gives me pleasure to say that its effect has been excelled in removing influmention; dandruff, and a constant itching tendency with which I have been troubled from childhood; and has also restored my hair, which was becoming gray, to its original color. I have used no other article with anything like the pleasure and profit.

Yours, truly, J. K. BRAGG,
Prof. Woop. [Pastor of the Orthodox Church, Brookfield.]

Prof. Woon. [Pastor of the Orthodox Church, Brookfield.

[From the Misseuri Democrat.]

Woon's II an Drie—This admirable article is rapidly improving the hair. No article of a similar kind, now before the public singless better reputation as a restorative and fivingorating hair toric. Its peculiar chemical qualities have a beneficial effect upon the growth and character of the hair, giving a silky and glossy texture to that which was forinerly of a coarse and dry mature. It has, also, we understand, a tendefricy to preserve the youthful color and appearance of the hair, and destroying or counteracting the effects of age. With such recommendations in its favor, we hardly perceive how any lady or gentlemum should be without so valuable an adjunct to their toilet.

What the Formers say:

A late writer says that "the various species of vermin are multiplying at a fearful rate throughout the land.—
Their rayages have become a matter of serious dread."

A Postmaster in Illinois, writing to "Costar's" Depot, says, "The country is literally overrun with them, (rats, mice, &c.") Another from the same State, says, "The rats positively, graw-the halters off nixh horses while in the stable." An Ohio correspondent remarks, "They (the rats) are everywhere—in the house, the barn, and under every stump in the field." In the South it is still worse. A late order from the Navy Yard at Mobile was for thirty pounds of the Rat Exterminator alone. What the People say:

Dear Sir—Having a great many rats around my stable and shop, I thought. I would try your Rat Exterminator, and bought one of your boxes, and fixed it seconding to your directions. The next morning I found over one hundred and fitty dead rats. I take pleasure in saying that it will do more than you say it will. Thave also tried it on steamboats, and satisfied them that it is the greatest thing of the age.

J. D. Dear Sir—Having a State of the Market also tried it on steamboats, and satisfied them that it is the greatest thing of the age.
