Democratic State Nominations. JUDGE OF SUPREME COURT: WILLIAM A. PORTER, CANAL COMMISSIONER:

WESLEY FROST,

HOME AFFAIRS.

THE FIRST OF APRIL. -Those of our subscribers who contemplate changing their residences on or about the first of April, will please inform us of the fact as soon as convenient-being careful to state the place from which they intend to remove, as well as the place to which they wish their papers sent in future. There is scargely a neighborhood in the world that we cannot send the Advertiser to, either by mail, by our carriers, or by private conveyance.

county, and Dr. C. D. GLORINGER, of Lebanon, are the members of the Demogratic State Centrals Committee for the ensuing year.

THE Reading election on Friday resulted in the election of Benneville Keim, Esq. Mayor, by a majority of 444. He ran as an independent candidate.

Or Several exhibitions were given last week, in Temperanco Hall, by Dr. Parish and a company of six pupils from the Penusylvania Training School for Feeble Minded Children. They were very interesting.

Horse Bills,-We are now prepared te print "Horse Bills" either on white or colored paper, with the utmost neatness and despatch .-Persons desiring such, will do well to give us

Or During the past week we have again been making considerable additions to our dready large stock of Job and Fancy Card Type. We have one of the best appointed offices for doing all kinds of Job and Card printing in the State, outside of Philadelphia, and shall contintue to increase the same as our means permit.-We can execute any work in our line with neatness, despatch and at prices to suit the times.

On the 10th inst., a newly born Royer's meeting house, in Jackson township .-Jos. Coover, Esq., was called upon to hold an inaforesaid, (Lebanon) single woman, according to her own confession (having first denied it) did say that the said infant child was born the night previous of her body, at the same place where cients, ranked the first of the year, and was namof Dr. Franklin Bower and Dr. Wm. CALITHUMPIANS IN TROUBLE .- Our friend Jacon Schwarz was married last week. On Friday evening quite a large number of his would-be friends serenaded him with the horsefiddle and the et-ceteras. Frem julity they proceeded to boisterousness, and eventually assume quite a mobable demeanor—the result of the bad liquor they had imbibed during the day. Jacob to stop the proceedings, brought down his old

THE ELECTION in this borough on Friday was pri contested, and a large poll was the consequence. A portion of our ticket was elected, and a portion defeated. Mr. Weidle, (democrat,) was re-elected Chief Burgess by-a large inajority. Mr. Shants, the independent candidate for constable, was also re-elected. Our candidates for Assistant Burgess and Councilmen, were defeated, as was also our candidate for Supervisor in the East Ward. The votes in detail appear in this paper.

In North Lebanon Borough the Democracy achieved a glorique vistory by electing their entire ticket by a handsome majority. The returns also appear in another place, to which we also refor the reader to learn of other Democratic triumphs in various sections of the county. On the whele our friends done right well on Friday last. The only regret is that they did not do better in this berough ...

THE PERILS OF CRINOLINE. - We are pained to record the frightful death in Boston, on Friday night last of a roung lady, the daughter of a respectable resident of Beacon-street in that city, who was and in near the chimney-piece, when her undergarments suddenly took fire, and before the requisite pressure could be brought to bear upon them, were entirely consumed, inflicting upon her person induries so many and so severe that she survived but a few hours. It is hardlly necessary for us to inflict upon our lady reafeetly plain to them that the profection of the fames in such a case by the enveloping crinoline gers of this kind which they actually and daily incur, we may refer them to the London Court Journal of Feb. 20, in which we find a catalogue occurring in England, between the 1st of Januaverage of three deaths per week from or inclines on confiagration, ought to startle the most thoughtless of the privileged sex; and to make them, at kast, extraordinarily careful in their movements and behavior, if it fails (as of course it will) to deter them from adopting a fashion so fraught with leather, and bind it close upon the wound and

SAUSAGES .- A butcher in Lancaster accounty has just made two sausages, one, 76 feet 9 inches long, weighing 63 pounds, and the other 75 feet 2 luches long, and weighing 58 pounds. We hope the ingredients of these mammoth 'sassingers' were somewhat different from those lately manufactured in Philadelphia and other places, which savored strongly of the "dorg."

A NEW MODE OF COLLECTING TAXES. Tevanon Advertiser. A bill has been introduced into the Legislature by Judge Nill, of Franklin county, providing for a new mode of collecting taxes. Its main features are, that before the 1st of April in each year, the commissioners of every county shall make out their duplicates, certify to their correctness, and hand them over to the county treasurer for collection. It is the duty of the treasurer to give notice, by advertisement, published in at least two newspapers stating the time and place that he will meet the tax payere in the different townships .-At the time appointed the treasurer it to attend.

All that pay their taxes have an abatement of five per cent. made from their State tax, not from that of the county. It also provideds that after the expiration of thirty days from the 12th of July, all balances of taxes unpaid are to be handed over to the constables of the said townships .-These officers have authority to levy and distrain property to pay said taxes, and are allowed the same fees they received for like services in other cases. If the taxes are not paid without levie then the constables charge five per cent, on the amount to the persons who have to pay. It is also made the duty of the several courts of Quarter Sessions when they swear in constables who have been elected or who are appointed, to fix the amount of bail to correspond with the amount

of taxes which they may be called on to collect. This act has been in force in several conties in the State for some years past, and is found to operate advantageously; and, if adopted generally, it is believed that it would save a large amount annually to the people. Gentlemen who repressent the countres where the law is in operation. state that the taxes are paid in promptly under this system-more so than where the collection OF Gen. Wn. H. ALL FOOL'S DAY .- We would remind our friends to be a little cautious on the 1st day of April, which is fast approaching. We do not approve of the custom of playing off mirthful folly and little jokes upon ungarded individuals, on that day, and hope we may have no occasion to chronicle the adventures of a single dupe in the next paper.

STREET BOARDS .- We perceive that boards with the names of the streets thereon, have been put up at a number of corner buildings in this borough. This was a very desirable improvement, and reflects credit upon the prosecutors of the work, Messrs. THEO. P. FRANTZ and GEO. The value of the weather appropriate to March is expressed in the saying, "A peck of March dust finding that good words and grass would not do is worth a King's ransom." For the Lebanon Advertiser. THE DISCOVERER OF GAS.

The inventor of gas-lights was a Frenchman Phillippe Le Bon, an engineer of roads and bridges, who in 1785, adopted the idea of using for the purpose of illumination, the gases distilled during the combustion of wood. He labored for a long time in the attempt to perfect his crude invention, and it was not until 1798 that he confided his discovery to the Institute. In September, 1800, he took out a patent, and in 1801 he published a memoir containing the result of his researches. Le Bon commenced by distilling wood in order to obtain from it gas, oil, pitch, and pyroligneous acid; but his work indicated the possibility of obtaining gas by distillation from fatty or oil substances. From 1799 to 1802, Le Bon made numerous experiments. He established at Haven his first thermolips; but the gas which he obtained being a mixture of carburretted hydrogen and oxyd of carbon, and but imperfectly freed from its impurities, gave only a feeble light, and evolved an insupportable ordor, and the result was that but little favor was shown to the new discovery; the inventor eventually died, rained by his experiments. The English soon put in practice the crude ideas of Le Bon.

INTERESTING TO WIDOWS.—The Macon (Ga.) Telegraph thus refers to a decision made by the Supreme Court of Georgia, now in session in that city: "A case of some interest to the ladies was decided on Friday morning last. Savage, of Dougherty county, died, leaving a will which dechimney with a "blower" and draught, and if they would form come notion of the extent of the devi would form some notion of the extent of the dan- off the wife without a shilling. Gen. Morgan, the counsel for the widow, argued the case with great ability, and contended that this provision in the will being in restraint of marriage, was contrary of no less than nineteen deaths from this cause, to the policy of our, law, and illegal; but the Court held that a man had a right to leave his property ary and the middle of February. These articles are at all times accessible, and easy to be obtained .-After the blood has ceased to flow, laudanum may advantageously be applied to the wound. Due regard to these instructions will save agitation of mind, and running for the surgeon, who would probably make no better prescription, if present.

preacher. It appears that Mr. K. and his son went into a grove near his residence to cut down some timber, and while the son was at work Mr. K. was in conversation with a neighbor, when an upper limb of the tree suddenly broke off, and in its descent struck Mr. K. on the head, inflicting a severe wound, from which he died in about four hours. Mr. K. was a prominent member of the order of Mennonists, and was not only highly repreacher. It appears that Mr. K. and his son der of Mennonists, and was not only highly respected among those of his own persuasion, but by the community at large, and this announcement of his sudden death will surprise many, as will as east a deep gloom over his immediate

From our long acquaintance with the proprietor, and with numerous individuals who have used his preparation with perfect success for the last two years, we feel no hesitation in recommending the article as superior to any of the preparations now in use for the same purpose, viz for restoring grey half to its original color, a sure and perfect cure for baldness, and a hever failing preventive for the failing off of the hair.

It is decidedly the best and most popular in tac for beautifying, preserving, restoring and strengthening the hair, relieving diseases of the skin, and removing sourff, dandruff and all cruptions and feverish heat from the scalp.

THE BOWELS AND THEIR FUNCTIONS.

As perfect health is the greatest blessing that we can enjoy, without which all other blessings are of little consequence, we deem it of great importance to point out the way for you so enjoy it. The bowels must be kept in a state by which they are enabled the carry off the useless matter; they are the main channel which nature has appointed to carry everything that is unnecessary And it is impossible to tell what a large amount of sickness has been caused by costipation, or costiveness; in other words, by not keeping the bowels regular; it is the main road to all diseases; it is the cause of unnatural irritation to the mucous, or lining membranes of the bowels. Having lost their natural strength, they cannot object to what, is required of them. Hence, the bowels become inflamed, and unless you find a speedy relief, a thousand other complaints are ever roady to drag you through a miserable and wrotelled life. Such medicines must be given as will cleanso the stomach and bowels, and restore their natural strength. To accomplish this there is me compound so valuable as these Fills all other medicines aink to utter insignificance when compared to them; its seems as though the Author of Nature had designed them for this as well as other THE BOWELS AND THEIR FUNCTIONS.

Great Discovery of the Age. IMPORTANT TO TOBACCO CHEWERS

Dr. Gustav Linnard's Taste Restorative Tro-ches, the Great Substitute for Tobacco. Dr. Gugtav Linnard's Taste Restorative Troches, the Great Substitute for Tobacco.

It is a well known and incontrovertable fact that the use of Tobacco is the promoting cause of many of the most severe Mental and Physical Disorders to which the race of man is stiblect, as careful analysis and long and painful experience have clearly proven that it contains certain narcotic and poisonous properties most dangerous in their effects, which by entering into the blood derange the functions and operations of the Heart, causing many to suppose that organ to be seriously diseased.

TOBACCO affects also the entire nervous system; manifesting itself—as all who have ever used the noxious weed will beth testimony—in Lassitude, Nervous Irritability, Water Brash, Dyspepsis, and many other disorders of a similar character.

THE TASTE RESTORATIVE TROCHES

Are designed to counteract these baneful influences, and have proved completely successful in a multitude of casts, and wherever used. Being harmless in themselves they exert a beneficial effect upon the entire system, pestoring the Taste which has become vitiated or destroyed by great indulgance, completely, removing the irritation and uccompanying ticking sensation of the Throst—which are always consequent upon abstaining from the use of Tobacco, and by giving a healthy tone to the Stomach, invigorate the whole system.

Persons whe are irretrievably undermining their constitutions and shortening their lives, should use these Troches immediately and throw of the injurious and unpleasant habit of Tobacco Chewing.

Fifty Years in Chains: OR, THE LIFE OF AN AMERICAN SLAVE.

Written by Hinself-300 Pages, Cloth, Gilt Back, Price \$1.

"Will's is the title of one of the most intensely interesting biographies of the day. It is the plain history of an American slave in the far South, who, after two or three escapes and recaptures, finally, an old man, found freedom and rest in one of the Northern States.

What the Press say:—

The story is told with great simplicity, but with much power and pathos. Whoever takes it will find it difficult to lay it down until it is finished.—National Era, Washington, D. C.

AGENTS, ATTENTION! O you wish to find good shaployment, and make money with little or no investmellt. and without intering with your regular business? If you do, read this

titlfering with your regular business? Il you do, read this advertisement.

C. E. Toon & Co., of 392 Broom Street. New York, are manufacturing and selling massive gold Fencils for \$5 cach, (which are cheap at that price,) and they throw in a igift or prize with each Fencil worth from \$2 up to \$5, \$10 \$15, \$20, \$30, \$35, \$25, \$30, \$50, \$15, \$100, \$200, and \$300. Don't cry out, "Humbug! Lottery!" It's no such thing. The Puncils are sold at their each value, and all the profit over the first cost are thrown into the gifts, which actually cost the purchaser nothing. The prizes are distributed on a simple plan of drawing, which would take too much room to explain, but which has never failed to give complete satisfaction. We have drawn and sent to purchasers 183 gold watches of various prices, 74 purses of gold real 83 gold watches of various prices, 74 purses of gold dollars, 238 gold lockets, 850 gold chains, and a corresponding number of other prizes, within two months.

THERE ARE NO BLANKS;

but every purchaser draws a prize worth \$2 tertain, and it stands thousands of chances to be a higher figure. it stands thousands of chances to be a higher fighte.
We want a good agent in every neighborhood throughout the country, to solicit purchasers, and any agent, to be successful, must have a Pencil and prize to exhibit. We pay agents \$1 cash for she purchaser he obtains, and the irrst person in any neighborhood who applies for a pencil and gift, will receive the agency for the locality. Should an agent obtain a valuable prize to exhibit with his Pencil, he would have little difficulty in obtaining scores of purchasers, and making it a paying business.

A Name Iddae of Parad to December 1 A News Idea ! Read !! Read !!!

We ask nobody to send their money till they know what prize they draw. Any person wishing to try their luck, can first send us their nome and address and we will make their drawing and inform them, by return mail what prize they draw, whou they can send on and take the Pennia and prize, it litt, whichever they choose. We give this privilege only once to a purchaser. After the first drawing, every purchaser will be required to send in advance, through the suthorized agents. We will send with each drawing the number taken out, with full description of the plan of drawing. Address (i. E. ToDD & Co., 392 Broome St. New York. Jan. 13, 1888.
