Prof. Rowbetham is now giving instructions to the North Lebanon Band.

HOME AFFAIRS.

CATTLE MARKET .- We shall hereafter give weekly a full and correct Philadelphia Cattle Market. See Philadelphia Market.

Or Mr. DEHUFF's stages now meet the train regularly at Hummelstown for Middletown at 15 o'clock; so that persons wishing to go to the latter place by that route need fear no delay.

OF We give in this week's paper the report of the President of the Harrisburg and Hamburg Railroad. It is an able document and will well repay perusal by all.

HOTEL CHANGES .- The "Buck Hotel" is now kept by Mr. Henry D. Carmany, late of Annville; and "Ramler's" by Mr. Endres Bomberger. Mr. Henry Ramler has taken "Gockleys," about 2 miles east of Lebanon.

The Perseverance Band and Cecelian Vocalists gave two Concerts in the Court House, on Monday afternoon and evening. We learn that the attendance was pretty large, especially in the evening.

GREEN GROCERY .- Geo. F. Reinhard has commenced furnishing our citizens with Fish, Oysters, Vegetables, &c. See his notice in another column. He understands the business-has ceive the necessary encouragement to pay him for his trouble.

HOWARD & Co's EXPRESS OFFICE has been removed to the building formerly occupied by D. S. Raber's Drug Store, a few door west of the Court Rouse, and next building east to its late location. The obliging Agert of the Company John Ulrich, Esq., is always ready to attend to any business in the line.

OF DANIEL GREEF has removed his Boot and Slice Store to the room vacated by John Graff's Confectionery Store, in Cumberland street, 12 o'clock, M., in Temperance Hall, this borough, a few doors west of Market. He desires his where all congregations unite in "offering up friends to step in and see how pleasantly and business like he is now situated.

Mr. Græff intends occupying his landsome new confectionery building on and after the 1st of April; and has been in the city laying in a new stock for the purpose of opening out with an assortment suitable for the place. His new place is next door to his old stand, he is anxing in a new stock for the purpose of opening out ious that all his old customers as well as a host of new ones should give him a call.

Our over-head neighbor Keim, had a great run for "picters," on Monday. The proaching, and it is hoped that the people of Lebboys and girls crowded up in scores. The only inconvenience was occasioned by the narrowness of the stairs, producing a dreadful smashing of hoops. The stairs will have to be widened or the size of the hoops reduced. Broken whale hone is plenty about "our diggins."

The age of a horse is now more easily told by his eyes than teeth, in this way: After a horse is nice yours old a wrinkle comes over his eyelid, at the upper corner of the lower lia, and every year therafter he has a wrinkle for has 3 wrinkles, he is twelve; if 4, he is thirteen. the bursting of the hose. Add the number of wrinkles to nine, and you will always get it. So says a writer, and he is confident it will never fail. As a great many people have horses over nine, it is easily tried.

The New he and that friend (?) would therefore be Gulli-York Times of Monday contains the following:— vers. The secret of the matter no doubt is—the Since the enterprise of C. E. Topp & Co., in Broome-st., was broken up, over 6,000 letters, addressed to the proprietors, have been taken from the Post Office. These letters contained over \$5, 000. The money has all been sent back to the writers with the following note from the Mayor: "Inclosed you will find the sum remitted by you to C. E. Topp & Co., who have been arrested in this City. Be on your guard against all gift enterprises, letterles, and all other bogus schemes, as they are intended to defraud only the unwary. DANIEL F. TIEMANN, Mayor,"

The 1st of April is come and gone. Although thousands and tens of thousands of dollars which were to be paid on that day remained unpaid, we continued revolving around the sun as usual. Many a mountain of fear and of hope has been removed, and the wonder with many now is, what it could have been that in the clined to promenade than to write. We took distance appeared so all-absorbing, peace-break- a stroll around town to see the sights. The large ing and threatening to them. Sleep can now again | number of ladies and gentlemen from the country visit the minds and bodies of many who for a gave the town quite a gay appearance. Some month past have been upon the rack. The paid came to "see the elephant," others to exchange are satisfied and the unpaid must trust to the future. In the whole, not one-fourth the money was paid that should have been paid, but nevertheless satisfactory arrangements were made in nearly all cases, and just as satisfactory as if there had been less anxiety and apprehension there had been less anxiety and apprehension prevalent. All the probabilities are that money will be very plenty in a few weeks. Judging from the papers it is already a drug in the cities.

On the whole, the day was one of delight and enjoyment, and the way lagor, whiskey, pretzels, &c., disappeared, was a precaution to "fast young from the papers it is already a drug in the cities."

THRRIBLE !- A young man named HERRY WEBB, the father of a family, was bitten by a dog four or five weeks ago, in Lancaster, and on Sunday a week, he died in an awful manner

from that dreadful disease Madness. We can scarcely pick up a poper at the present day but some account of death from Hydrophobia stares us in the face. We never knew so mamy cases as have occurred within several months, and which are no doubt owing to the innumerable number of ours twarming the country. It is astonishing that under the circumstances the recominable nuisance is not abated promptly and signally. No other rottennass-even of a less terrible nature-would be permitted by the body

In Lobanon we have thus far been fortunate in having no hydrophobia cases, but certainly the exception is not owing to the scarcity of Bogs .-Our town and neighborhood is overrun with the worthless the hand the warm weather now aoming on, was the disease being so prevalent on our borders, it can seavely be expected that we shall remain an exception from the svil. WE WERE SHOWN last week a piece of the late bell on the Presbyterian church at Harrising. Thus despoiled of her most prized beauty, the cable matron hid herself in shame, and after-wards became a tractable and obedient wife. Fine in Harrisburg .- About 10 o'clock last night a fire broke out in the stable of Mr. M'Gown, hotel keeper on the corner of 2d and Chestnut, which proved to be the most serious conflagration that has visited our borough for more than twenty years. From the stable it spread to other buildings, and then to the frame dwelling house owned be Peter Myers, and the other frame buildings owned by Mrs. Jause, which were entirely con-

The last to take fire was the Presbyterian church, a large and fine building, built of brick, and rough cast. The church has been built but a few years, and the whole cost was about \$14,000, on which we learn there is an insurance of \$7,000. We were unable to learn whether the other builddings consumed were insured. The fire is, almost without a doubt, the work of an incendiary, as the stable in which it originated was discovered to be on fire last Friday morning, but was extinguished -Keystone, 31st., nit.

Fraud We cell attention to the fact of nu-Fraud?—We call attention to the fact of numerous unprincipled efforts that are daily making in our city by venders of a bitter inixture, using the persuasive argument (in order to effect sales) to dealers in Hostetter's bottles, to purchase from them and sell it in Hostetter's bottles, to purchase from them and sell it in Hostetter's bottles. We hope that such impostures will be held up to public contempt by all respectable persons who sell or use the genuine article. Not only have we the individual evidence of the country, but almost every paper in the Union is commenting upon the superior excellence of, and great bonefits derived from the use of this celebrated tonic; bosides various diplomas awarded, among which is one from the Ohio Mechanics' Institute, at Cincinnati, where the gommittee—composed chiefly of physicians of the superior virtue of their Bitters, as a tonic and strengthener of the human system. We, therefore, caution all against impositions, and to purchase of none but respectable dealers, whom they know would not decive them.

The Manheim Tragedy. WILL be published on the 10th of APRIL next a complete history of the double murder of Mrs. Garber and Mrs. Ream; with the only authentic Life and Confession of Alexander Anderson, together with a correct account of the arrest, trial, con Richards, his accomplies; to which will be appended the death warrants, law relating to executions, a brief account of the executions which have taken place in Lancastor county since its organization, and some reflections on the consequences and causes of crime, &c.

mEDICATED INHALATION.

The great point in the treatment of all human main dies is to get at the disease in a direct manner. All medicines are estimated by their action upon the organ requiring relief. This is the important fact upon which Inhalation is based. If the Stonach is diseased, we take neclicine directly into the Stonach. If the Lungs are diseased, breathe or inhale medicated vapors directly into them. The reason why Consumption and Diseases of the Lungs have hereofove resisted all treatment has been because they were not approached in a direct manner by medicines. They were intended to be loval, and yet they were so administered that they could not not constitutionally, expending their immediate action, upon the Stomach, whilst the foil "dicers within the Lungs were unnolested. INHALATION brings the medicine into direct contact with the disease, without the disadvantages of violent action. Its application is so simple that it may be employed by the youngest infant of feeblest invalid. It does not derange the Stomach, or interfere in the least with the strength, comfort or business of the patient. **No charge for consultation.

Of all diseases, the great, first cause Springs from neglect of Nature's laws. SUFFER NOT: CURE IS GUARANTEED SECRET DISEASES.

Self-abuse, Nervous Debility, Strictures, Gleets, Gravel, Diabetes, Disosess of the Kidneys and Bladder Meterial Rheumatism. Scrofuls. Pains in the Bones and Aphlys, diseases of the Lungs, Throat, Nose and Eyes, Ulcers upon the Hody or Limbs. Cancers, Dropsy, Eplleptic Fits, St. Vitus' Dance, and all Diseases arising from a derangement of the Sexual Organs, such as Nervous Trembiling, Loss of Memory, Loss of Power, General Weakness, Dimness of Vision with peculiar spots appearing before the cyas. Loss of Sight. Wakefulness, Dyspepsia, Liver Disease, Evuntions upon the Eace, Pain in the Back and Head. Female Irregularities and all improper disclarges from both sexes it matters not from what cause the disease has baffled the skill of eminent physicians and rediscase has baffled the skill of eminent physicians and resisted all their means of cure. The medicines are pleasant without odor, causing no sickness and free frem incremy or balsant. During twenty years of practice. I have rescued from the Jaws of Doath many thousands, who, in the last stages of the above-mentioned disease, had been given up to die by their physicians, which warrants into promising to the afficient, who may place themselves under my care. A perfect and most speedy cure. Secret Direases are the greatest engines to health, as they are the first cause of Consumption, Scrofula and many other diseases, and should be a terror to the human family. As a permanent cure is seared; ever effected, a majority of the cases folling into the hands of incompetent persons, who not only fell to cur's the diseases but rain the constitution, filling the system within the disease, hastens the sufferer into a rapid Consumption.

mercury, which, with the disease, baseus the sufferer into a rapid Consumption.

But should the disease and the treatment not cause death speedily and the victim marries, the disease is entailed upon the children, who are born with feeble constitutions, and the current of life corrupted by a virus which betrays itself in Scrotch, Tetter, Ulcers, Eruptions and other affections of the Skin, Eyes, Threat and Jungs, chialling upon them a brief existence of suffering a contemporary than to an early grace.

which betrays field in Serofule, Tetter. Ulcere, Eruptions and other affections of the Skin, Eyes, Threat and Lange, chialling apon them a brief existence of suffering and consigning them to an early grave.

SELF ABUSE is another formidable enomy to health, for nothing else in the dread catalogue of human discasses accesses so destructive a drafu mon the system, drawing its thousands of victims through a few years of suffering down to an untimely grave. It destroys the Nervous System, rapidly westes away the energies of life, causes mental derangement, provents the proper development of the system, disqualifies for marringe, society, business, and all earthly happiness, and leaves the sufferer wrecked in body or mind, prodisposed to Consamption and a train of evils more to be dreaded than death itself. With the fullest confidence I assure the unfortunate victims of Self Alass that a permanent and speedy energe and provided and provided to robust, vigorous health.

The artifacted are cautioned against the use of fatent Modicines, for there are so many ingenious snares in the common of the public prints to each and rub the unwary sufferers, that infillious have their constitutions trained by the vile compounds of quack socious, or the equally poisonous nostrums vended as "Intent Modicines." I have carofully analyzed many of the so-culied Patent Modicines and find that nearly all of them contain Corrosive Sublimate, which is one of the strongest preparations of mercury and a deadly poison, which instead of can live the disease, disables the system Fu iffo.

Three-fourths of the patent nostrums now in use are put up by unprincipled and ignorant persons who do not understand even the alphabet of the MATRIA MEDICA, and are equally as destitute of any knowledge of the human system, laving one object only in view, and that to make money regardies of consequence.
