LETTER FROM WASHINGTON. WASHINGTON, April 16, 1558. Since my last, Congress has made but little progress in furthering any business to promote evils, engresses all the attention of our worthy legislators, and the excitement attending the debate of this question is still kept up to fever heat. Some consolation is to be derived however, from the fact that the period has almost arrived when the final disposition of this bore will be made.-The Senate having offered the Olive branch to the House in the appointment of a Conference Committee, a vote was taken in that body upon acceding to the Senate's request, that they appoint a Committee to confer, which was agreed to

by the casting vote of the Speaker. We believe that there is not on record, in the Green, Hunter and Seward; of the House, Messrs. English of Ind., Howard of Mich., and Stephens, of Georgia.

The vote in the House, upon agreeing to a Committee of Conference, is deemed by many as the sure precursor of victory for the administration; "a consumation devoutly to be wished."

The result upon the motion to confer -and their allies the bogus democrats, appear quite crest-fallen since their defeat, and are now fearful that their last plank is about being taken from them.

The position occupied by the democratic memhers who have bolted cannot certainly be very agreeable and how they can face their constituents with any show of self-respect, is more than your correspondent can imagine.

An instance was brought to my notice a few days ago which deserves mention. A democratic member of the House, who has been carried away by the Montgomery swindle, met one of his electors on the avenue, and with a grasp of his hand exclaimed, "why how do you do? You are quite a stranger!" "Oh! No," coolly replied the constituent-"if I have not seen you, I have seen your VOTE." The feelings of the derelict member can be better imagined than described, and with a "good day" rapidly disappeared.

The Deficiency Bill, which was rejected by the House one day and passed the next, has passed the Senate with same amendment and was reported to the Honse to-day. It is to be hoped the House will act promptly and put it upon its passage at once, for upon it, depend the carrying into effect the Army Bill lately passed. Our City is full of strangers; and the rush of individuals enzious to serve their country, in some honorable and well-paying capacity is undiminished.

There is a sharp centest going on over the Philadelphia Mint appointments, which will be announced when Kansas is out of the arena .-Rumor gives the appointment of Treasurer of the Mint to Gen. McNair, ex-member from Montgom-

LETTER FROM PHILADELPHIA.

PHILAD'A., APRIL 10, 1858. MR. BRESLIN-Dear Sir :-

"In the morning sow thy seed, and in the evening withhold not thine hand; for thou knowest not whether shall prosper, either this or that, or whether they both shall be alike good." In your last issue I learn with pleasure that

moon Prayer Meetings have been organized .--In supplications for the prosperity of Zion, I would especially bring to your notice, a feature, which is engaging attention here-THE YOUNG. Our Sunday School children—the budding blossoms of the Church! These must soon be the main pillars-and how great the necessity of sowing the seed BROAD CAST EARLY!

The most distinct and pleasurable recollections of our childhood, we can trace back to that time when with tender heart and pliable consciences, we first lisped a Saviour's name and "Crowned Him Lord of all." With what rapture did our minds drink in the glories of Heaven and a Father's love; and when our little lips first caught their INSPIRATION in prayer, with what zest did we near the throne of Him, who said, "Forbid

them not, for of such is the kingdom of Heaven." Who does not look back with remorse upon the many days of childhood, REGLECTED out of Sabbath School? Are not its influences telling all around-a Sabbath's profanation-in the whole- Herald. sale desecration—its being made a day of profit in wordly acquisition-amusement and profitless. visiting when it should be as Early taught, "Holy unto the Lord." As exemplary and lawabiding citizens let us hail the Sabbath School as the harbinger of good to the land, and inscribe the ground, injuring his spine. the name of Robert Raikes, its founder, in letters of living fire, upon the tablets of our hearts. He cast his bread upon the waterrs, and it has re-

turned as a plenteous harvest. It would not take long to show how much good has been accomplished—the world knows that abdurate sinners have fallen under the pertness and simplicity of childhood. A word spoken in season "is like apples of gold in pictures of silver." Many of our most remarkable revivals have had their origin in children of the Sunday School. And the statistics of one of our conferences aver that, in the aggregate of four thousand conversions, in one year, the striking reali-ty exists that of that number eighteen hundred WERE CHILDREN! Of the influence of children let me repeat to you as near as I can of the many ineidents related at our mid-day meetings, one. An old lady keeping "a Sunday shop" was visited by one of our Sunday school teachers and per. mission was asked that her dauguter, a bright interesting little girl might go half a day. She sought and six years. found the pearl of great price. A brother was persuaded—and another and last—that ein-servpersuaded—and another and last—that ein-zerv-ing mother melted under the hallowing influence, and what a change! That obdurate heart resped the seed sown in the infant heart! Will we apply our efforts here. My Christian friends, bring in the children, the example of a child sayed by grace, to an unconverted parent, who can astimate! but best of all, to see in death's est assumate: but best of all, to see in death's straggles—children singing of a "Happy Land, far, far away," and "Angels beight"—what pencil can paint a seene so sublime. REMARKABLE ESCAPE. -On Friday last Mr. Lancasten Examiner. Peter Connell, while drawing water on the premises of Mr. John Allen in this village, fell head foremost into the well, a distance of about sixtyfeet. The accident was uno beerved by any one. Mr. Connell says the first he was aware of, he was struggling in the water, which was up to his chin. Soon he began to work his way out-a slow and difficult task-which he accomplished without assistance. On reaching the top and safety, he was completely exhausted, and was ound fying near the well-curb. His arms were much bruised by striking the sides of the well in his descent, but otherwise he was not materially harmed. How a man could fall head foremost

into a well, and yet escape with so small injury, is indeed remarkable. It is wonderful that he was not killed instantly.— Woonsocket Patriot THE WOMEN OF AMERICA HAVE PURCHASED Mount Vernon!-We are happy to announce that on the 6th inst., in the presence of two parties, and the counsel of the Association and the proprietor of Mount Vernon, a contract was formally entered into, before a notary, between Jonx A. They regard the recent financial depression and the prevailing religious excitement as signs of the last days. By the next arrival from Europe they expect to hear of the destruction of the city of Rome, and this will portend the conflagration of the world next summer. The prophecy of Lord Rosse, the astronomer of England, that the coming summer will be the hot test one ever known, is thought to favor the hope of a general conflagration.

DEATH IN A BALL-ROOK -A sad Scene. Yesterday morning, about 1 o'clock a sad affair took place at a ball at Saranak Hall. While the ball was in progress, a young woman named Apaline Sewell, who was engaged in dancing suddenly ions hastened to raise her up, when it was found caused a deep impression among the persons who were present at the party. The body of the doceased, attired in her ball dress, was removed to her late recidence, No 1224 North Sixteenth street above Girard avenue. The deceased was thirtysix years of age. Her sudden death is attributed to disease of the heart and the sad consummation was probably hastened by the exercise in which she was indulging.

Coroner Fenner held an inquest in the case .-It seems that the deceased was dancing the "Lancers," quadrille at the time she fell dead. Her husband was present in the ball-room at the time of the melancholy event. The ball which was the closing scene of the life of Mrs. Sewell, was given on her birth-night. The coroner's jury rendered a verdict that the deceased died from disease of the heart .- Phil. Press, April 16th.

MEDICATED INHALATION. MEDICATED INHALATION:
The great point in the treatment of all human maladies is to get at the disease in a direct manner. All medicines are estimated by their action upon the organ requiring relief. This is the important fact upon which Inhalation is based. If the Stomach is diseased, we take medicine directly into the Stomach. If the Lungs are diseased, breathe or inhale medicated vapors directly into them. The reason why Consumption and Diseases of the Lungs have heretofore resisted all treatment has been because they were not approached in a direct manner by the Lungs have heretofore resisted all treatment has been because they were not approached in a direct manner by medicines. They were intended to be local, and yet they were so administered that they could not act constitutionally, expending their immediate action upon the Stomach, whilst the foul ulcers within the Laugs were unmolested. INHALATION brings the inclicine into direct contact with the disadvantages of violent action. Its application is so simple that it may be employed by the youngest infant or feeblest invalid. It does not derrunge the Stomach, or interfer in the least with the strength, comfort or business of the patient. **** No charge for consultation.

A GREAT BOOK FOR AGENTS!

Published this Day, Feb. 2th, 1858,

Pifty Years in Chaires;

OR, THE LIFE OF AN AMERICAN SLAVE.

Written by Hinself—430 Pages, Cloth, Gilt Back, Price \$1.

THIS is the title of one of the most intensely interest ing biographies of the day. It is the plain history of an American slave in the far South, who, after two or three escapes and recaptures, finally, an old man, found freedom and rest in one of the Northern States.

What the Press say:—

The story is told with great simplicity, but with much power and pathos. Whoever takes it will find it difficult to lay it down until it is finished.—National Bra, Washington, D. C.

A barrative of real experience like the above, will have

to lay it down until it is nineaeu.—Transverse Long ington, D. C.

A carrative of real experience like the above, will have far more effect againse slavery than the ingeniously wrought norel, however true to life its pictures may be.—American Baptist.

Here is a book of facts, stranger than fiction, and a thousand-fold more thrilling; a simple tale of life-long oppression, revealing truly the workings of the peculiar institution? in our country. To the story-loving we would say, here is a story worth reading.—Mission Rec.

It matters not from what cause the disease originated, however long standing or obstinate the case, Recovers is CERYAIN, and in a shorter time than a permanent cure can be effected by any other treatment, even after the disease has baffled the skill ofeminent physicians and resisted all their means of cure. The medicines are pleasant without odor, causing no sickness and free from mcreury or balsam. During twenty years of practice, I have rescued from the Jaws of Death many thousands, who, in the last stages of the above-mentioned diseases, hab been given up to die by their physicians, which warrants me in promising to the afflicted, who may place themselves under my care; a perfect and most speedy cure. Secret Diseases are the greatest enemies to health, as they are the first cause of Consumption, Scrofula and many other diseases, and should be a terror to the human family. As a permanent cure is scarcely ever affected, a majority of the cases falling into the hands of incompetent persons, who not only fail to cure the disease but ruin the constitution, filling the system, with mercury, which, with the disease, hastens the sofferer into a rapid Consumption.

But should the disease and the treatment not cause death speedily and the victim marries, the disease is entailed upon the children, who are born with feeble

content on the electrical and with the abandonment of ruinone practices my patients can be restored to robust, vigorous health.

The afflicted are cautioned against the use of Patent
Medicines, for there are se many ingenious snares in the
columns of the public prints to catch and rob the unwary
sufferers, that millions have their constitutions ruined
by the vile compounds of quack sloctors, or the equally
poisonous nostrums vended as "Patent Medicines." I
have carefully analyzed many of the so-called Patent
Medicines, and find that nearly all of them contain Corrosive Sublimate, which is one of the strongest preparations of mercury and a deadly poison, which, instead of
can ing the disease, disables the system for life.

Three-fourths of the patent nostrums now in use are
put up by unprincipled and ignorant persons who do not
understand even the alphabet of the Materia Medica,
and are equally as destitute of any knowledge of the human system, having one object only in view, and that to
make money regardless of consequences.

Irregularities and all diseases of males and females
treated on principles established by twenty years of
practice, and sanctioned by thousands of the most remarkable cures. Medicines with full directions sent to
