A barrel of beer, said a 'fust young man,' may be compared to an industrious man, because of its frequently working.

PATENT MEDICINE .- A young lady was recently dured of palpitation of the heart by a young I. D., in the most natural way imaginable. He held one of her hands in his, put his arm around her waist, and whispered something in her left

"When I goes shoppin," said an old lady, "I allers ask for what I wants, and if they have it, and it's suitable, and I feel inclined to buy it, and it's cheap, and can't be got at any place for less. I most allers takes it without chappering about it all day as most people does."

Boy.-I say you! are you engaged at anything particular?

Young Gent .- You impudent young scamp, what are you hollering after me for? Log.—Un, nothing much; only if you ain't, teaching, teaching, leaching, leac Boy .- Oh, nothing much ; only if you ain't,

A wise man endeavors to shine in himself; a fool to outshine others; the first is humbled by the sense of his own infirmities; the last lifted up by the discovery of those which he observes in others. The wise man considers what serves in others. The wise man considers what he wants, and the fool what he abounds in. The wise man is happy when be gains his own approbation; and the fool, when he recommends himself to the applause of those about him.

Important Discovery. CONSUMPTION

Diseases of the Lungs and Throat CURABLE BY INHALATION!!! CURABLE BY INHALATION!!

which conveys the demedies to the cavities in the lungs through the alipassages, and coming in direct contact with the disease, ineutralizes the tubercular matter, allays the cough, causes a free and easy expectoration, heals, the Lungs, rourifles the blood, imparts renewed vitality, to the 'nervous system, giving that tone and energy so indispensable for the restoration of health. To be able to state confidently that Consumption is curable by Inhalation, is to me a source of unalloyed pleasure. It is as much under the control of medical treatment as any other formidable disease; ninety out of every hundred cases can be cured in the first stages, and fifty per cent. in the second; but in the third stage it is impossible to save more than five per cent, for the lungs are so cut up by the disease as to defy medical skill. Even, however, in the last stages, inhalation affords extraordinary relief to the suffering attending this fearful scourge, which annually destroys ninety-five thousand persons in the United States alone; and a correct calculation shows that of the present population of the carth, eighty millious are destined to fill the Consumptice's create. mitally destroys ninety-five thousand persons in the United States alone; and a correct calculation shows that of the present population of the carth, eighty millions are destined to fill the Consumptice's grave.

Truly, the quiver of death has no arrow so fatal as Gonsumption. In all ages it has been the great enemy of life, for it spares neither age nor sex, but sweeps office, for it spares neither age nor sex, but sweeps of alike the brave, the beautiful, the graceful, and the gilted. By the help of that Supreme Being, from whome cometh every good and perfect gift, I am enabled to offer to the afflicted a permanent and speedy cure in Consumption. The first cause of tabercles is from Impure Blood, and the immediate effect, produced by their deposition in the lungs, is to prevent the free admission of air into the air cells, which causes a weakened vitality through the entire system. Then, surely, it is more rational to expect greater good from medienes entering the cavitius of the lungs, than from those administered through the stomach; the patient will always find the lings free and the breathing easy, after inhaling rome dies. True, inhalation is a local remedy, nevertheless, it acts constitutionally, and with more power and cortainty than remedies administered by the stomach. To prove the powerful and direct influence of this mode of administration, chloroform inhaled will destroy sensibility in a few minutes, paralyzing the entire nervous system, so that a limb may be amputated without the slightest pain; inhaling the ordinary burning gas will destroy life in a few hours.

The inhalation of ammonia will rouse the system when fainting or apparently dead. The odor of many of the medicines is perceptible in the skin, a few moments af

The inhalation of ammonia will rouse the system when fainting or apparently dead. The odor of many of the medicines is perceptible in the skin, a few moments art to being inhaled, and may be inamediately detected in the blood. A convincing proof of the constitutional effects offinishalation, is the fact that sickness is always produced, by breathing foul air. Is not this positive evidence that proper remedies, carefully propared and judiciously administered through the lungs, should produce the most happy results? During eighteen years' practice, many thousands, suffering from diseases of the lungs and throat, have been under my care, and I have effected many remarkable cures, even after the sufferers had been pronounced in the last stages, which fally satisfies met that Consumption is original, and founded on long expecience and a thorough investigation. My perfect acquaintance with the nature of tubercles, &c., enables me to distinguish, readily, the various forms of disease that simulate consumption, and apply the proper remedies, rarely being mistaken even in a single case.—This familiarity, in connection with certain pathological and microscopic discoveries, enables me to remember the lungs from the effects of contracted chosts; to enlarge the chest, purify the blood, impart to it renewed vitality, giving energy and tone to the entire system.

But the cure would be more certain if the patient should pay me a visit, which would give me an opportunity to examine the lungs and enable me to prescribe with much greater certainly; and then the cure could be effected without my seeing the patient again.

Experience has rendered Dr. K. a mest successful practitioner in the cure of all diseases of a private nature, manhood's debility, as an impeliment to marriage; nervous and sexual infimities, diseases of the skin, and those arising from abuse of mercury.

**Late Corner of Maird M

There is an evil habit sometimes indulged in by boys, in solitude, often growing up with them to manhood; and which, if not reformed in due time, not only begets serious obstacles to matrimonial happiness, but gives rise to a series of protracted, insidious, and devastating Few of those who give way to this permissions practice

Few of those who give way to this pernicious practice are aware of the consequences, until they find the nervous system shattered, feel strange and unaccountable sensations, and vague fears in the mind. [See pages, 27, 23,429, of Dr. K.'s book on "Self-Preservation."]

The unfortunate thus affected becomes feeble, is unable to labor with accustomed vigor, or to apply his mind to study; his step is tardy and weak; he is dull, hrresolute, and engages even in his sports with less energy than usual. gy than usual.

If he emancipate himself before the practice has done

If he emancipate himself before the practice has done its worst, and enter matrimony, his marriage is unfruitful, and his sense tells him that this is caused by his early follies. These are considerations which should awaken the attention of all who are similarly situated.

For the length of the afficted, I feel it a duty, to state what a blessing a medicine known by the name of "Bull" Rento Mistura," has been to no. 'I have been afflicted with the Piles for eight years, during which time I tried my own remedies as a practitioner, and many others, but without success. Having heard of Mr. Ifull's Pile Remedy, I tried it; and though! I used but one half-bottle, I can say that I am perfectly cured. I also used it in a violent case of Tetter, which extended over the whole body, and in less than two weeks it disappeared, and the girn became clean and smooth. Betrictly adhered to the directions.
