TAKE PARTICULAR NOTICE.

There is an evil habit sometimes indulged in by boys, in solitude, often growing up with them to manhood; and which, if not reformed in due time, not only begets serious obstacles to matrimonial happiness, but gives rise to a series of protracted, insidious, and devastating affections.

Few of those who give way to this pernicious practice are aware of the consequences, until they find the nervous system shattered, feel-strange and unaccountable sensations, and vague fears in the mind. [See pages, 27, 28, 29, 07 r. K.'s book on "Self-Preservation."]

The unfortunate thus affected becomes feeble, is unable to labor with accustomed vigor, or to apply his mind to study; his step is tardy and weak; he is dull, irresolute, and engages even in his sports with less energy than usual.

If he emusucipate himself before the practice has done its worst, and enter matrimony, his marriage is unfruitful, and his sense tells him that this is caused by his

which betrays itself in Scrofula, detter, Ulcers, Eruptions and other affections of the Skin, Eyes, Throat and Lungs, entailing upon them a briof existence of suffering and consigning them to an early grave.

SELF ABUSE is another formidable enemy to health, for nothing else in the dread catalogue of human diseases causes so destructive a drain upon the system, drawing its thousands of victims through a few years of suffering down to an untimely grave. It destroys the Nervous System, rapidly wastes away the energies of life, causes mental derangement, prevents the proper development of the system, disqualifies for marrirge, society, business, and all earthly happiness, and leaves the suffere wrecked in body or mind, predisposed to Consumption and a train of evils more to be dreaded than death itself. With the fullest confidence I assure the unfortunate victims of Self Abuse that a permanent and speedy cure can be effected, and with the abandonment of ruinous practices my patients can be restored to robust, vigorous health.

The afflicted are cautioned against the use of Patent Medicines, for there are se many ingenious snares in the columns of the public prints to catch and rob the unwary sufferers, that millions have their constitutions ruined by the vile compounds of quack doctors, or the equally polsonous nostrums wended as "Patent Medicines." I have carefully analyzed many of the so-called Patent Medicines, and find that nearly all of them contain Corosive Sublimate, which is one of the strongest preparations of mercury and a deadly poison, which, instead of can ing the disease, disables the system for life.

Three-fourths of the patent nostrums now in use are put up by unprincipled and ignorant persons who do not understand even the alphabet of any knowledge of the human system, having one object only in view, and that to make money regardless of consequences.

Irregularities and all diseases of males and females trested on principles established by twenty years of practice, and sanctioned by thousands of

Remedies to the cavities in the lungs through the sipassages, and coming in direct contact with the disease,
noutralizes the tubercular matter, allays the cough,
causer a free and easy expectoration, heals the lungs,
purifies the blood, imparts renewed vitality to the nervous system, giving that tone and energy so indipensable for the restoration of health. To be able to state
confidently that Consumption is curable by Inhalation,
is to me a source of unalloyed pleasure. It is as much
under the control of medical treatment as any other
formidable disease; ninety out of every hundred cases
can be cured in the first stages, and fifty pur cent. in the
second; but in the third stage it is impossible to save
more than five per cent, for the lungs are so cut up by
the disease as to defy medical skill. Even, however, in
the last stages, inhalation affords extraordinary relief to
the suffering attending this fearful securge, which annually destroys ninety-live thousand persons in the United States alone; and a correct calculation shows that
of the present population of the earth, eighty millions
are destined to fill the Consumptive's grave.

Truly, the quiver of death has no arrow so fatal as
Consumption. In all ages if has been the great enemy
of life, for it sparce neither age nor sex, but sweeps off
alike the brave, the beautiful, the graceful, and the gifted. By the help of that Supreme Iloing, from whom
cometh every good and perfect gift, I am enabled to offer
to the afflicted a permanent and speedy cure in Consumption. The first cause of tubercles is from Impure
Blood, and the immediate effect, produced by their deposition in the lungs, is to prevent the free admission of
air into the sir cells, which causes a woakned vitality
through the entire system. Then, surely, it is more rational to expect greater good from medicines entering
the cavities of the lungs, than from those administered

we respectfully call the attention of persons a bout to build, to our invaluable method of roofing, now much used throughout the Principal cities of the United States and their vicinities. This mode of roofing having all the combined requisites of cheapness, Durability, and Security against Fire and Water, and dispensing with high gable walls; the roofs require an inclination of not more than three-quarters (2) of an inch to the foot, and in many cases saving the entire cost of rafters—the many cases saving the entire cost of rafters—the ceiling joist being used.

From Rev. Mr. Enterline, Fastor German Church, Cor. Conway and Sharp streets:
For the benefit of the affiicted, I feel it a duty to state what a blessing a medicine, known by the name of "bull's Recto Mistura." has been to no. I have been affilieted with the Piles for eight years, during which time I tried my own remedies, as a practitioner, and many others, but without success. Having heard of Mr. Bull's Pile Remedy, I tried it; and though I used but one half-bottle, I can say that I am perfectly cured. I also used it in a violent case of Tetter, which extended over the whole body, and in less than two weeks it disappeared, and the skin became clean and smooth. I strictly achered to the directions.
