

Lebanon Advertiser.

Wm. M. Breslin, Editor and Proprietor.

LEBANON, PA. WEDNESDAY, MAY 19, 1858.

Democratic State Nominations. JUDGE OF SUPREME COURT: WILLIAM A. PORTER, OF PHILADELPHIA.

CANAL COMMISSIONER: WESTLEY FROST, OF FAYETTE.

Minnesota a State. On Wednesday last the President signed the bill admitting Minnesota a State of this Union.

On Wednesday last the President signed the bill admitting Minnesota a State of this Union. Immediately after the fact had been communicated to Congress by message, Messrs. Shields and Rice were sworn in as Senators, and Messrs. Cavanaugh and Phelps as members of the House.

Our glorious Union now consists of 32 States--may the number never be less. The opposition tried hard in Congress to get up a crusade against the admission of this vigorous young State (a la Kansas), but without avail--they were still too exhausted by their prodigious efforts to effect the defeat of the Kansas bill.

Mr. Evans has been appointed United States Senator from South Carolina, in place of Mr. Evans, deceased.

HOME AFFAIRS. A BRIGADE Parade is ordered to take place at Jonestown, on Saturday, July 3, 1858.

In Arms.--Our friends in Millcreek township are in arms against the laying-out of the State road through that township, authorized at the last session of the Legislature.

OUR AGRICULTURAL SOCIETY.--We understand that the Committee appointed at a preliminary meeting of citizens of this county, having in view the formation of an Agricultural Society, will shortly issue a call, asking the cooperation of our farmer friends in establishing upon a permanent basis so laudable a project.

The opposition party, infatuated with the foolish idea that they can elect their President in 1860, are already laying plans to fill the treasury to overflowing, at the expense of the sweat and tears of the laboring-men, women and children of the land, so that they can fatten on the spoils.

They will not permit their hard earnings to be swindled out of their pockets by a "tariff for protection's self" to fill the purses of a horde of greedy politicians. The Democratic party contends for a tariff for revenue, and it will probably find that the present tariff, under the pressure of the times, is insufficient for that.

Our old friend, Col. Cyrus Germany, formerly of the Black Horse Hotel, in this place, and of late years Collector of Tolls at Lancaster, has taken the National Hotel, (formerly White Swan,) in Race street, above Third, Philadelphia. The people of Lebanon county, we are confident, will do us the honor to patronize the place, and we are confident, will do us the honor to patronize the place.

At the request of its numerous admirers, the "SKEEL" we spoke of last week, will be on exhibition at the Ladies' Fair, next Monday. Equipped with the editor of the Courier for the Polyorama Pantomime.

A FINE HOTEL.--We were taken, last week, by Mr. KUNZEL, through his New Hotel, directly opposite the Lebanon Valley Depot. We were astonished at the elegance and convenience of its arrangements, surpassing in many particulars the No. 1 Hotel of the city. From the bar-room, on the first floor, to the observatory on top of the building, everything is fitted in the most airy, best style, and truly "a garden of expense." The arrangements are for the accommodation of all classes of boarders and travelers, families or individuals, and at charges in accordance to the times and the desires of the patrons. The House is now fully open for business, and in another column the patronage of the public is solicited. The name of the Hotel is the "Lebanon Valley House."

TOWN LOTS SOLD.--John R. Eby, of Harrisburg, purchased last week, at private sale, BRUCKNER'S Lots, fronting 285 feet on Walnut street, between the Quittapahilla Creek and the Lebanon Valley Depot, and 198 feet deep, for \$2,000. The probabilities are that Mr. Eby will improve the lots immediately, and locate there an extensive wholesale Grocery establishment. We believe that such an establishment could be made pay in this town, if not in any other place, as Mr. Eby is well versed in it as Mr. Eby.

Mr. Henry Bubb, of the firm of Bunn & Co., has just returned from the city with a new lot of Cooking Ranges, Furnaces, Ventilators and Regulators. He also procured a new article called the Farmers' Cook, to which he calls the attention of families. It is portable, and admirably adapted for washing, butchering, scalding, &c. Any quantity of water can be heated by this contrivance, with the smallest possible quantity of fuel. It invites farmers and others to call on his store in Chestnut street, opposite Hoffman's Hotel, and look at his goods.

OUR OLD FRIEND, COL. CYRUS GERMANY, formerly of the Black Horse Hotel, in this place, and of late years Collector of Tolls at Lancaster, has taken the National Hotel, (formerly White Swan,) in Race street, above Third, Philadelphia. The people of Lebanon county, we are confident, will do us the honor to patronize the place, and we are confident, will do us the honor to patronize the place.

JUST SO!--Late accounts from Kansas state that Jim Lane's men in Kansas--the great Freedom strikers--now, since their occupation is gone, have turned robbers. They probably were nothing else before they went to Kansas, and the only wonder is that honest and sensible people, in and out of that Territory--in and out of Congress--should so long have allowed themselves to be humbugged by, and followed in the wake of, such scoundrels. Mr. Buchanan declared them traitors in his special message to Congress, and now they have proved themselves robbers--Pretty lights for a would-be great political party to follow and swear by--The wrongs of Kansas certainly need redressing so long as such scamps are outside the penitentiary, and roaming within its borders.

ALREADY AT WORK.--The first act of the newly elected Opposition Commonwealth of Philadelphia was to cram the desks of members with gilded paper, pen-knives and paper cutters, to the value of \$15 for each of the ninety members of that body.

Judge Loring, of Massachusetts, who was lately removed from office by Governor Banks, has been appointed Judge of the United States Court of Claims in place of Judge Gilchrist, deceased.

A. P. Hayne has been appointed United States Senator from South Carolina, in place of Mr. Evans, deceased.

FOR A RIGHT PLEASANT SPARKLING drink, try Guilford & Lemberger's Soda Fountain. It has just been put in operation.

AT WASHINGTON.--Dr. John W. Gloninger, Jack Weidie, Esq., Messrs. John and Samuel Heilmann, took a trip to the President, and pay their respects to the President, and peep at the doing of Congress. The President, no doubt, is always glad to see his fellow-citizens, and particularly, as in this case, when "office" is not the groundwork of the visit.

The location of the new Lebanon Valley Bank is to be in Mr. John George's large house, corner of Chestnut and Walnut streets, in the room occupied by A. R. Boughter, Esq.

John P. Sanderson, Esq., has been appointed one of the Assistant City Solicitors of Philadelphia.

Hon. John J. Pearson, President Judge of this district, is favorably named as the opposition candidate for Supreme Judge, next fall.

AMERICAN WATCHES. ROYAL WATCH FACTORY, Waltham, Mass., Feb. 1858.

Having received many requests for a particular description of the watches of our manufacture, and for an account of their peculiarities and differences from other watches, we beg to make it generally to such inquiries the following statement:

These Watches are of one uniform size. The movement is a full or two-plate form, of the English fashion, and without brass cap, and it opens at the back, and is secured by a screw.

It has a patent-lever escapement, of the English shape, but has neither main spring, fusee, nor chain; the power being communicated direct from the barrel to the train. It is this arrangement which distinguishes the American Watch in plan from every other, and which gives it some of its chief advantages.

The idea of a fusee and chain being necessary to the equal action of the power of the main-spring upon the train, is now admitted by English writers on the science of Chronometry and Watch-making to be false, as it has long since been proved to be so by the Swiss practice. The winding in the fusee of the watches of those parts are, greater, simpler, less finished upon the train (as a lighter spring may be used), and the escape from all the troubles incident to chains, fuses, and retaining power.

We sell movements either with or without gold and silver cases, as may be ordered. Our gold and silver cases are of the very best quality and are made in England, and they are sure to be of the best quality.

Every movement having our own firm-name engraved upon it, and which is equally perfect in all respects; and if at any time it is found to be otherwise, it may be returned and another will be given in its stead. A certificate of genuineness and of its accuracy, signed by ourselves, is given with each.

We manufacture also a watch named "Chas. T. Parker, Waltham, Mass.," which is in all essential particulars superior to the ordinary watch, and although not warranted, may be relied on as a thoroughly good time-keeper. It will be exactly similar to the article bearing our own name, but at its lower rate only as we economize labor upon it in parts upon the finish of which we do not insist as a time-keeper does not depend.

All our watches of whatever quality, have our firm name in full on the dial.

We are just in receipt of a new watch, too, a watch named "W. S. Bartlett, Waltham, Mass.," at a price so low as to be within the reach of all classes. It is made upon the same principle as the better quality, and is equally well finished, and will give entire satisfaction to the wearer.

We are, Sir, your obedient servants, APPLETON, TRACY & CO.

These Watches can be had at J. J. BLAIR'S Watch and Jewelry Store, which is the authorized Agent for the sale of them for Lebanon Co.

PUBLIC MEETING IN MILLCREEK. In accordance with previous notice, the tax-payers of Millcreek township, assembled in township meeting at the public house of Mr. Oliver Veigley, at the Centre, on Friday evening, May 14th, 1858, when by a unanimous vote, Mr. JOYNTMAN BLISS was called to preside, and Frederick Schultz, John Becker, Christian Hoffman, Isaac Gipple, Joseph Kalkbrenner, and William Veigley, were elected Vice Presidents. D. W. Leeds was elected Secretary, and on the call of the meeting, addressed the citizens in opposition to the authorized State Road, as well as in opposition to all future proposed roads, not absolutely necessary for the convenience of public travel and business. The following named tax-payers were appointed a Committee to draft resolutions expressive of the sense of the meeting, viz:--Samuel Becker, Oliver Veigley, David S. Matthew, F. A. Schultz, J. B. Stuart, Joe. Matthew, Jacob Shaak, Leo. Hig. Michael Holstein, John Hartman, John B. Walter, Abraham Ziegler, Geo. Mastey, David Lower, Henry Gackley, Col. D. M. Person, and John Zimmerman, who in a short time reported the following, which were unanimously adopted:

Resolved, That the citizens of Millcreek, in the passage of the law authorizing the laying out of a State road through the entire length of the Lebanon and Millcreek townships, have acted credulously, not believing there was a man resident among them, or others in a sister district, so lost to all sense of honor and justice, as to procure the passage of such a law, and to consent to the same in a manner, which would if consummated, seriously affect the interests of the tax-payers of this district for all time to come, without a single corresponding benefit or advantage arising to any one in extension of the wrong.

Resolved, That we believe that very public roads passing through the entire length of Millcreek, and at equal distances front and parallel with each other, as well as with the proposed road, two of them leading directly to the Railroad Station, besides an adequate number of diverging and cross-roads, are sufficient for the convenience of public travel and business, and certainly as many as the tax-payers of the townships desire to keep in repair.

Resolved, That we will "do all in us" to prevent the said road from being opened, and will consider any man superfluously selfish who advocates its necessity.

Resolved, That we fully appreciate the services--disinterested though they be--of our late late Representative from Heidelberg, in engineering said bill through the Legislature, and we respectfully accord to him the character such conduct merits.

Resolved, That we do hope the Commissioners named in the writ above, will before they set out in an official capacity, have the courtesy to inquire into the necessity of such road from other persons than the one we say, for whose special benefit the road is to be made.

Resolved, That those proceedings be published in the Lebanon Advertiser, and in the Lebanon Valley House.

A paper, deprecating the action of the friends of the road, and affirming a fixed determination to oppose its opening, was signed by 103 of the largest tax-payers of the district, after which, on motion, the meeting adjourned, to meet at the call of JONATHAN ILLIG, Pres't.

D. W. LEEDS, Sec'y.

The Right of Search Question. WASHINGTON, May 15.--The Secretary of State has addressed Lord Napier, the British Minister, upon the subject of firing into, and searching our vessels in the Gulf of Mexico and it is understood that his lordship will avail himself the earliest opportunity to make some remonstrance to the commander of the British squadron in that quarter. The news is so troublesome to Lord Napier so Secretary Cass.

New York, May 12.--A special Washington dispatch to the Herald says it is believed that orders have been issued to the gun squadron to prevent the outrages committed by British cruisers on American vessels.

Miss Garry, of Abingtonham, Monroe county, on returning home from an expedition to the Academy on Wednesday night, found the door locked, and attempted to get into the house through one of the windows, when the watch-dog and striking her upon the neck caused her death.

BY OUR LOCAL REPORTER.

Messrs. Dehuff & McRae have put up a top pin-alley near Kuhle's Hotel, opposite the Lebanon Valley Depot.

The Large Basin, north-west from this Borough, we observed last week, has been considerably enlarged and enlarged. Various other improvements are also going on there.

"Brunner Moses," (still judging others by himself,) at last acknowledges that every other person here knows, (from his recent reprint,) that his few items are dictated to him.

We are pleased to observe the spirit of improvement going on in all directions of our thriving Borough. Old buildings are being demolished to make room for new ones, and the streets also are gradually improving. The pavements in particular are receiving their due share of attention.

The United Brethren Church of this Borough has recently been remodeled, and now presents quite an improved appearance. The dedication on Sunday was well attended.

We know of no town in the interior of the State that presents more handsome and commodious churches than Lebanon. And then we have a church-going people also, who delight in making the house of the Lord an inviting place.

EXHIBITION.--On Thursday evening we attended a public exhibition at Fairview Hall, given by the young ladies of School No. 1, under the charge of Miss M. E. STEPHENS. The Hall was beautifully decorated with wreaths and bouquets, presenting quite a gay appearance, but in regard to room, it reminded us of a Chestnut street omnibus--"crowded to excess and still more space left." Owing to the crowded state of the Hall, and the unbecoming behavior and noise of several outsiders, we are unable to give a full report of the interesting exercises, consisting of addresses, essays, dialogues & vocal music. It is unnecessary to say that oratorios suffered amazingly--in our locality there was a perfect wreck of the oratorio.

The scholars, as usual, sustained their parts in all instances admirably. In one piece the "gossipers" were very severely but justly rebuked, and in another the "old maids and bachelors" were freely handled, which created a good deal of mirth and by several was considered a little personal. An illustration was also given of how "patience" is to be kept behind the mysterious veil of matrimony, and how they are sure to be of all calumny, and well deserved to be heard by all. The "Monthly Visitor" also made its appearance and was filled with spicy articles. The music was beautiful and creditably performed. On the whole, we think the pieces were spoken with elegance, and the charming whiteness of the fair ladies' raiment seemed a fit representative of the purity of their sentiments. With their noble motto, "Perseverance Omnia Vincit"--"Perseverance conquers all things!" we were particularly pleased. It alone is a sure guarantee of success, and sets the word "fail" completely in the shade; it is the only one in external life, which is needed in all ages, we have attained positions of fame and distinction. Let that motto be your polar star through all the various avocations of life, and victory will always crown your efforts.

BATOR FROM UTAH--The Mormons leaving Salt Lake City for the White Mountains.

ST. LOUIS, May 16--Advice from Fort Leavenworth to the effect that the Mormons, who arrived from Camp Scott with letters dated April 10th. The Mormons left reported as leaving Salt Lake City for the White River Mountains, and Governor Cumming has gone to the city by invitation.

WASHINGTON, May 13, 1858. Deputations were received today, by the Administration from Kansas, which represent matters there in the most favorable light. The conservative portion of all parties express themselves in favor of the English bill. The ultras, Pro-Slavery and Anti-Slavery, with Jim Lane, are the only ones that have, thus far, taken open ground against the bill; and they now profess to be opposed to coming into the Union at all. There are not enough, however, of this class, to do anything except mischief.

The Minnesota Senators have drawn lot for term of office. Gen. Shields drew the term expiring March, 1859, and Mr. Rice the term expiring March, 1858.

On Friday evening last, at Mr. Christ Mullinger, of Stoughton, Pa., was returning home from Philadelphia in the night train of cars, his pocket-book, containing some five or six hundred dollars, was stolen from his pocket by some long-fingered pickpocket. Mr. M. had been to the city with a drove of horses, and the money stolen was a portion received from his sales.

The Boston on the Pennsylvania Canal, we see by the Harrisburg Herald, complain severely of the new rule of the company, by which all the lock keepers are discharged, and the boatmen are required to be their own lock tenders--It is said the company have discharged all the lock tenders between Pittsburgh and Johnstown, and watchmen have been appointed in their place to go over their respective stations once a day, and see that locks and levels are in good order, but without being compelled to lock any boats, and without being employed on the canal throughout this as an imposition upon them.

DEATH BY DROWNING.--Miss Mary Culp, daughter of John Culp, of Mount Joy, was accidentally drowned in the Little Chiquee creek, on Friday last. In company with another young lady named McNeal, the deceased entered a small skiff for the purpose of boating, which by some accident was upset precipitating both ladies in the stream. Miss McNeal caught the limb of an overhanging tree by which she supported herself until rescued, but her unfortunate companion floated out into the stream and soon sank to rise no more. After considerable labor and search her body was recovered. The deceased was about seventeen years of age and was highly beloved and respected. At the time of her death she was a student of the Cedar Hill Female Institute.

THE STRIKE AT ALLEGANY.--The hands employed in the machine shop of the Pennsylvania Railroad Company, at Altoona, numbering one hundred and fifty, struck for an advance of wages--The advance asked for being refused, they declined working at the former rates. The effect has been most disastrous upon the interests of the town, and many families are suffering from its effects.

Gen. Lane has received an offer from Boston to deliver a series of lectures on Kansas through the Free States at \$50 per night for six months. The offer is a tempting one, and it is believed that he will accept it. The Governor of North Carolina a few days since granted a respite to a negro who was sentenced to be hung on Friday last, for murdering his mistress in Columbia county, in that State; but it arrived too late. He was already executed.

Ohio built in 1857, 220 churches, worth \$400,000; eight hundred school-houses, worth \$400,000, and twenty county buildings, worth \$300,000.

Miss Garry, of Abingtonham, Monroe county, on returning home from an expedition to the Academy on Wednesday night, found the door locked, and attempted to get into the house through one of the windows, when the watch-dog and striking her upon the neck caused her death.
