J WHEN PRESIDENTS DINE .- On Davy Crockett' return to his constituents after his first session in Congress, a nation of them surrounded him one day and began to interrogate him about Washington.

What time do they dine at Washington, Colonel?" asked one.

"Why," said he, "common people, such as you bill here, get their dinners at one o'clock, but the gentry and big 'uns dine at three. As for repre-Bontatives we dine at four, and the aristocracy crand the Senate don't get their's till five." Well; when does the President fodder," asked-another.

"Old Hickory," exclaimed the Colonel, (attempting to appoint a time in accordance with the dignity of the station,) "Old Hickory! well don't dine till next day !"

Chief-Justice Padelford, as he was commonly called, was a magistrate of one of the beats In Warren County, Mississippi. On one occasion some boys were brought before him, charged with crusity to the dog of John Flechenstein, by putsting turpentine on his tail. The judgment of the Court was set forth in the following entry: "The evidence in this case having been heard, and the Coart being sufficiently advised in the premises, it is ordered, adjudged, and decreed, that the defendants be fined in the sum of five dollars each, and that they soverelly enter into recognizance,

A lady made a complaint to Frederick the Great King of Prussia. "Your Majestry," said she, "my husband treats me badly." "That is none of my business," replied the King. "But he speaks ill of you," said the lady. "That," replied he, "is none of your business."

What is the share of each at the time of the father's death? An arithmetical solution required.

He such the greater part of his life in traveling, having visited Europe, Asia and Atrica as well as Nor b function—has spent three years among the Indians of our Weisern country—it was in this way that the Indian Root Pills were first discovered. Dr Morse was the first nan to establish the fact that all discases arise from *Impurity* of the Rood—that our strength, health and life dopended mon the vital fluid. Then the vital fluid. Then the vital fluid. Then the vital fluid is a strength in the first discovered of the pills were described and the strength of the strength of the strength of the strength is exhausted our health we get the Rood—that our strength is exhausted our health we we deprived of and if nature is not assisted in throwing the stagmant humors, the blood will become choked and cease to act, and thus our light of life will forever be there to us the our strength are should keep the piles were to us the stagmant humors, the blood will become choked and cease to act, and thus our light of life will forever be there out. From the above, it is shown that Dr. Morso's Indiau Root Pills not only enter the stomach, but become uni-ted with the blood, for they flud way to every part, and completely rout out and cleanse the system from all im-purities, and the life of the body, which is the blood, be-comes perfectly healthy; consequently all sickness and pain is driven from the system, for they caused remain when the bedy becomes so pure and clean. This feason why people are so distressed when sick, and why, which will pass to the afflicted parts, and which will open the bit of the bedy becomes so pure of the set out; hence, a large quantity of food and other matter is lodged, and the stamany die, is because they do not get a medicing which will pass to the afflicted parts, and which will open the mather and intestines are literally overflowing with the completed matter through every voin and arte-ry, until life is taken from the body by disease.
