## JUDGE OF SUPREME COURT WILLIAM A. PORTER,

## CANAL COMMISSIONER: WESTLEY FROST.

- THE RIGHT OF SEARCII.

The recent outrages by British cruisers on American merchantmen in the Gulf of Mexico threaten to cause a renewal of the diplomatic discussions which took place between the Govern- cans," under the leadership of the Daiments of Great Britian and the United ly News, come down upon this move-States, in consequence of the African seizures before and during 1841, and a piece of assumption for the chaps who which was quieted and suspended, but by no means settled, by the treaty of

Washington, of 1842. It will be remembered that, with the alleged object of carrying out the orders of their Government! for the sup pression of the slave trade. British ves sels of war on the African coast seized American merchant ships, examined their papers, overhauled and injured their cargoes, maltreated their officers mand crews, and, in some cases, appropristated them as lawful prizes. Against these aggressions on our commerce the "United States strongly protested, and demanded reparation for the injuries sustained, and a disgrowal by Great Britain of the acts of her agents. A \*long correspondence followed between the diplomatic agents of the two Governments. Great Britian, at first, thro' Lord Palmerston, claimed the right and avowed the intention to search American evessels in time of peace, with a view to ascertain their national character; but afterwards, through Lord Aberdeen, disclaimed all right to search, detain, or in any manner interfere with American resels, whether engaged in the slave trade or not, limiting her pretensions to boarding vessels strongly suspected of being those of other nations unwarrant. Tably assuming the American flug, and promising, when this assumed right had a-been abused to the injury of American vessels, that full and ample reparation erabould be made. She made a distincaction between the right of search, which is she dislaimed, except in time of war, or in pursuance of treaty stipulations. and the right to visit, which she claim. ed even in time of peace, as the only means of ascertaining the true national-

-between visitation and search, maintaining that the former, to be effectual necessarily included the latter, and thus extended to the exercise, in time of peace, of an authority conceded by the haw of nations only in time of war. To the representation by Great Britain, that pobjection to visitation of American veaseels, for ascertaining whether the American flag had been abused for the purpose of covering the vessels of other a nations, would extend even to the sanc dian ofipiracy, when the persons engaged in it should think fit to shelter themselves under the flag of the U. States, the United States replied by emphatically declaring their will and ability to enforce their own laws, and to protect their flag from being used for purposes minily forbidden by those laws, and obossessious to the moral censure of the world, and they wholly denied, and deelared their determination to resist, the claim of any nation of the world, by any treaties whatever, to limit their equal right to the seas, guarantied to tothem by the law of nations, which no besombination of foreign Governments

ity of suspected vessels.

The United States, on the other hand,

denied the existence of any difference

could alter or control. Such is the substance of the great cona troversy for the freedom of the seas, in | Percy. Being reduced from affluence to poverty which Lords Palmerston, Aberdeen, and by sudden reverses in England, he came to the Ashburton, in liehalf of Great Britain, and Webster, Cass, Everett, and Steven - lar novels and magazine articles, and a high andison, in hehalf of the United States, ex-- hausted all the resources of ingenious diplomacy.

In order to obtain for her assumed right of search the sanction of the leading Powers of Europe, Great Britain proposed to France, Russia, Austria, "and Prussia to unite with her in a quin- of the inconvenience that must necessarily result and guaranty; but the firmness and enlightened reasoning of the representations of the United States induced the proposed treaty; and it fell to the ground.

Finally, by the treaty of Washington. .the United States and Great Britain Tacitly agreed to suspend controversy, the minister and the seriously inclined audience, by entering into an arrangement under who could not keep from laughing in their handwhich the point at issue was neither kerchiefs. yielded nor denied by either party :-Taw of nations; but simply provided that fusing to receive the vote of John Chapman, a esch Josethe dwo Governments should acchilation on the African const a nava proved that Mr. C. presented his naturalization that every his state; on the enforcement, separately papers from one of the New York courts,

obligations of the two countries for the uppression of the slave trade.

We cannot venture to hope that the will result in any concessions of principle by England. In accordance with her previously declared doctrines, on being satisfied that the vessels thus out. raged were American, she will unflount. edly offer apology and full reparation; but she will go no further, for she never yields a national principle. But the United States, equally firm in their determination to maintain their rights and dignity will continue to assert them; and will maintain them, if need be, by all their exhaustless energies .- Washing. ton Globe.

The Republican branch of the opposition party in this State, under the lead of Lemuel Todd, have issued a call for a "Union State Convention" to nominate State officers, to meet at Harrisment like a thousand of brick. It is nominated David Wilmot to presume to leadership of the opposition forces, and are not received with favor.

MASSACHUSETTS JUSTICES. -- By a law ecentty passed in the "Bay State" for thi appointment of special justices, seven thousand eight hundred and thirty-three Justices of Peace in that State are to be stripped of criminal indicial functions and deposed from the beach. The commission of Justice of the Peace in most cases, under the old law, was considered merely a compliment'from the Governor to his ambitious friends who coveted the ornamental attachment of Esquire to their names.

WERY CLEAR. -In a trial recently in Brooklyn upon the intexicating qualities of Lager Bier, Dr. Reese, a scientific and professional witness, made the following clear and explicit statements, of killing men, women and children, and of steal-"He thought that if a man drank enough lager bier to intoxicate him, he would be intoxicated that is, if he imbibed lager bier to such an amount that the alcohol contained therein would be sufficient to intoxicate intoxication." ficient to intoxicate, intoxication would follow."

Henry William Herbert, better known by his nom de plume of "Frank Forrester," committed suicide in New York; on Monday. He had been depressed is spirit for some weeks, in consequence of his separation from his second wife, caused, it is alleged in a letter left by him, by the meddling interferance of others. In a lefter to the coroner, he declared his intention to commit suicide because life has become "hopeless, hateful, and insupportable," in consequence of suspicion, distrast, and dissension sown by others beteen himself and his wife. Mr. Herbert was born in London, in 1810. He was the eldestson of the honorable and reverted William Herbert, dean of Manchester, ominent as a man of science, a poet, and a liberal politican, and was paternally deseended from the noble house of Pembroke and United States in 1831, where he has since distinguished himself as a scholar, an author of poputhority in sportsmanship.

BAPTISM IN HOOPS .-- At Chicago, last week, a rather amusing scene took place during the haptism of a young lady by the pastor of the Taber-

nacle. The Union says: "The minister requested berito assume the dress peculiar to such an occasion, but she declined to take off her hooped skirt. 2 The minister told her tuple treaty for its perpetual affirmance from her obstinacy, but she persisted. When she came to descend into the bath the rinflated skirt touching the water and rose up around herslike a balloon. Her head was lost to the congregation; she was swollowed up in the swelling skirt; the France to withhold her ratification of minister tried to force her down into the bath; but she was kept above the surface by the floating properties of the crinoline, and was buoyed up so successfully that it was not until after much difficulty and many forcible attempts to submerge the lady, the minister succeeded, im baptizing the cisco became surety for a friend and the creditors fair one. We are called upon again to protect our merchantmen from marauding cruisers which have recent aggressions, similar to those vessels have recently been boarded and overhaulwhich originated this great difficulty, ed in Sagua la Grand, Cuba, by British naval officers. Of these the bark W. H. Chandler and their masters have made circumstantial reports of the cases.

The most flagrant case is that of the schooner Mobile, overhauled, only twenty-five miles from Key West, by her Britannie Majesty's war steamer Styx. Captain Howe, of the Mobile, was unable to understand the proceeding, and at first very naturally mistook the British steamer for a lowing title:- Eggs of Charity, laid by the pirate. The hostile intentions of the aggressors were mad, known by a couple of rifle bullets, fired within hailing distance, and these were quickly followed by two others, which penetrated the rigging, but, fortunately, caused no further damage. A boat was then lowered from the steamer. and an officer, accompanied by six seamen, boarded the Mobile, and compelled Captain Howe to exhibit his papers. Even when he had discovered his error-for we charitably suppose that the English licutement mistook the Mo ile for a slaver-he offered no apology for his conduct, but stated that he was acting under the orders of his Government. The fact that the British West India squadron has been largely augmented, conburg on the 8th of July. The "Ameri. firms the supposition that the offending gun boats have been putting in execution a preconcerted programma.

Congress has already noticed the matter, and our Government will, of course, demand explanation and reparation. In the mean time, the first measure will be to strongthen our fleet in the Gulf of Mexico, and instruct the officers in command to protect our merchantmen-be the consequence we are glad to see that their pretensions what they may-from the heavy hands of foreign men-of-war.

> The American Consul at Havana also communicates information in regard to several instances where American vessels have been visited and searched. In addition to the above mentioned, are :-- Ship Tropic Bird fired into, bourded, and searched; schooner Cortez seized and now detained at Inagua; schooner N. B. Borden fired into, boarded and searched; scheoner Mobile firel into, boarded, and searched; brig Robert Wing fired into, boarded, and scarched; bark Glenburn overhauled at sea; and bark W. H. Chandler boarded and searched, while lying at anchor in the port of Sugua la Grande; also the brig A. A. Chapman, of New-Orleans; the brig Brownsville, Captain Simpson; the bark Glenham, Captain Habersham, of Richmond;

Our Government has been by no means inac tive in regard to these insults to our national self respect. Congress was informed by the President on Wednesday last, that strong representations on the subject have already been made to the British Minister at Washington and to the American Mir i ter in London, and that steps have been taken to prevent such occurrences hereafter. The Collectors of all our ports have been directed dred and ninety eight feet horizontally. to procure and forward evidence in regard to ev-Two streams of one inch were thrown ery vessel that may arrive within their jurisdiction after such an incident, and these verified statements will be made the basis of new reprecentations to the British Government. Secretary Cass demands a disarowal of the acts of the offending officers, with reparation for whatever injury may have been sustained, and effective measures to prevent a recurrence of those abuses.

The Secretary of the Navy states that he has to American vessels from such interruption hereis also to show her flag in those waters. We trust quarrel about the recunical and efferal. that these indications of a purpose to resent such on hoard the Inflexible, protests that he shall have been brought to the attention of the There are now immense quantities of wheat grown tries.

HORRIBLE SCENES IN SONORA-A Church Full of Woman and Children Burned Alive .- The Yaqui Indians are at war with the people of Sonora, Lower California. These Indians entered Santa Cruz de Mayo and killed every man there was in it, got all the women and children togethed, was elected, receiving 117 votes or, shut them up in the church and set fire to it, and then burned the rest of the town. At a butthe fought on a plain, called El Sancito, between Gov. Pasquiera and Jesus. Gandara, the latter was totally-defeated, and himself killed in the nefich, and also three of his principal officers taken prisoners and shot on the following day. This occurred on the 23d of February last. The troops are now at the river Yaqui, and having intentions

into a hairdresser's shop on April day, at Brussels, and begged to be shaved. All male hands being engaged, the barber's wife offered to officiate, and Herman expressed discontent, and said he would finish the process himself. So taking the razor from the woman's hand he stood up, and to the utter terror of all present, cut his throat apparently from ear to ear. Some bystanders rushed but to their utter astonishment, Herman turned round, quietly asked what they meant by the uproar, and showed his shirt spotless. The police report of the morning stated that the hairdresser was so frightened that he fell down in a swoon, and that half his hair turned white.

To cure corns, soak the foot in warm water for a quarter of an hour every night; after each sonking rub the corn patiently with the finger using half a dozen drop. of sweet oil; wear around the too during the day two thicknesses of buckskin, with a hole in it to receive the corn. Continue this treatment until the corn falls out; and by wearing moderately loose shoes it will be days. Paring corns is always dangerous, bosides making them take deeper root.

BY-HOGRAPHY OF A BRIDE.—The Boston Post says:-"A young married lady in Vermont undurfook to expol a hog from the garden, and soon drove him into a corner-when piggy turned upon his pursuer; and making a full tilt, struck her between her pedal extremities, and would have passed safely through, had his nose not caught in the folds of her hooped skirts. As it was, he took her safely on his back, and commenced a series of circuits about the garden that rivalled the feats of a circus ring. At length a hoop gave way, the lady turned a summerset, while his pigship made rapid tracks in search of the hole through which he had entered the forbidden enclosure.

THE THIRTY THIRD STATE .- Oregon is virtually a sovereign State of this Union. On Friday the Senate passed the bill for her immediate admission, by a vote of 35 to 17. In the House it will encounter no effectual opposition, and before the close of the session she will constitute the thirty-third member of the Confederacy.

The Newburyport (Mass.) HERALD says that the boot and shoe makers in the southeastern and central sections of the State have organized for the protection of their labor, having lodges and leagues, which are said to number

783 On Satur ay afternoon some people on Station Island were engaged getting ship timber from a forest. A tree some sixty feet high had been dug around, and a man sent to fasten a line at the top, so as to pull it down in a certain direction. Soon after reaching his lofty destination; to the consternation of the few spectators, the tree began to full. The men clung to the trunk of the falling tree, and landed on the ground with the tree above him. The company hastily did so. But in the middle of the operation P. gathered around, expecting to see the mangledremains of the climber. Judge of their surprise when they were thus saluted, "Ah, hoss, an'shure didn't I bring her down nice !".

An employee in the barber shop of Heury Gardiner, at St. Louis, was arrested on the 17th to him, whilst others ran for surgeons and police; inst. on the charge of being implicated in the murder of Hugh Downio, a drover. This person has confession that the murder was committed at nine o'clock on Sunday evening, in Gardiner's shop. Downie come in took the chair, and resigned himself to be shampoord. The lather was permitted to trickle to his eyes, and then the rope was applied to his neck. His hat was burned in the stove, his body robbed and thrown where it was found. Three impliyees of Gardiner did the job. The remaining two have fled, but will be caught. Gardiner is also under arrost.

JUDICIAL VAGARIES .- Judge Galbraith, of the Eris district, so interprets the new Liquor Law as to authorize tavern keepers to procure license months, and even years, before the corn returns, without publication or certificate, and he has when the same fronthent will be efficient in a few granted licenses accordingly. The judge of the Northampton district construes the law as requiring him to grant tayern licenses only where he deems them necessary. These are two constructions the antipodes of each other, and both equally absurd. The other judges throughout the State appear to coincide in giving a common sense contruction to the law which the Ericand Northampon judges seem unable to do .- Lancaster E.cam

Letter from Washington. WASHINGTON, May 15, 1858. Kansas has almost ceased to be the subject of olitical discussion, or even of conversation, and the only question now seeking an answer in connection with the "imbroglio," is, What will the people of the new State do? Private advices are

being daily received here, all bearing the same import, that the people will by a decided majority accept the terms offered in the "Conference Bill," and so for ever settle the too long mooted anestion.

That poble Democrat and talented representaive from "Old Berks," J. Glancy Jones, Chairman of the Committee of Ways and Means of the House, is pushing the Appropriation bills with a tuct and energy not excelled by any of his predecessors : and from present appearances. I am led to believe that they will all be disposed of three or four days before the close of the session.

The Pennsylvania Democratic Club of this city: composed of citizens of the Kaystone State, temporarily residing here, is in full blast. The organization is as follows :- President, J. Glancy Jones : V. Pres't, Col. D. M. Ball, of Bradford co. Sect'v. T. J. McCammant, of Schuvlkill: Ass't Sec'ty, S. Y. McNair, of Montgomery; and Treas, Thos. Ferrag, of Laneaster. The Association is now engaged in sending important political documents throughout the State and County. The example has been followed by New York, New Jersey, Maine, Chio, Indiana and Illinois, all engaged in the same good work.

Has stood the test of over ten year's experience, and is recommended by all the most eminent physicians us the most valuable remedy in use. Dr. Williams, the celevated Physician of the London Consumption Hospital, took notes of its effects in about 500 cases, and found it more efficacious than all remedies yet discovered. This remedy, so valuable, when pure, becomes worthless or injurious when adulterated. See that the liabil his these seeds and morar and the signature were the care of each gle and mortar, and the signature over the even of each buttle, as thousands have been cured by the use of the genuine article who had used others without success.—Sold by all Drugrists.

A GREAT BOOK FOR AGENTS! Fifty Years in Chains:

Fifty Y CAP's in Chains 5
Oil. THE LIFE OF AN AMERICAN SLAVE.

Written by Hinself—430 Pages, Cloth, Gilt Back, Price \$1.

Thirs is the title of one of the most intensely interesting blorraphies of the day. It is the plain history of an American slave in the fire South, who, after two or three escapes and recaptures, finally, an old man, found freedom and rest in one of the Northern States.

What the Press say:—

The story is told with great simplicity, but with much power and pathos. Whoever takes it will find it difficult to lay it down until it is finished.—National Era, Washington, D. C.

A narrative of real experience like the above, will have far more effect againse slavery than the ingeniously wrought novel, however true to life its pictures may be.—American Baptist.

Here is a book of facts, stranger than fiction, and a thousand-fold more thrilling; a simple tale of, life-long appression, revealing truly the workings of the peculiar institution" in our country. To the story-loving, we would say, here is a story worth reading.—Mission Rec.
