Important Discovery. Will be open for Public Travel between Reading and Harrisburg, on Monday, January 18. 1868. Diseases of the Lungs and Throat

CURABLE BY INHALATION !!! CURABLE BY INHALATION!!!

Remodies to the cavities in the lungs through the alpassages, and coming in direct contact with the disease, neutralizes the tubercular matter, allays the cough, causes a free and easy expectoration, heals the lungs, purifies the blood, imparts renewed vitality to the merous system, giving that tone and energy so indispensable for the restoration of health. To be able to state confidently that Consumption is curable by Inhalation, is to me a source of unsiloyed pleasure. It is as much under the control of medited treatment as any other formidable disease; ninety out of every hundred cases can be cured in the first stages, and fifty per cent. In the second; but in the third stage it is impossible to save more than five per cent. for the lungs are so cut up by the disease as to dely medical skill. Even, however, in the last stages, inhalation affords extraordinary relief to the suffering attending this fearful scourge, which annually destroys interview thousand persons in the United States alone; and a correct calculation shows that of the present population of the earth, eighty millions are destined to fill the Consumptice's grave.

Truly, the quiver of death has no arrow so fatal as Consumption. In all ages it has been the great enemy of life, for it sparse neither age nor sex, but sweeps olf alike the brave, the beautiful, the graceful, and the gifted. By the help of that Supreme Being, from whom cometh every good and perfect girt, I am enabled to offer to the afflicted a permanent and speedy cure in Consumption. The first cause of tubercles is from Impure Blood, and the immediate effect, produced by their deposition in the lungs, is to prevent the free admission of air into the air cells, which causes a weakened vitality through the entire system. Then, surely, it is more rational to expect greater good from medicines entering the cavitios of the lungs, than from those administered through the stomech; the patient will always find the lungs free and the breathing easy, after inhaling

life in a few hours.

The inhalation of ammoula will rouse the system when fainting or apparently dead. The odor of many of the medicines is perceptible in the skin, a few moments after being shahed, and may be immediately detected in the blood. A convincing proof of the constitutional effects of inhalation, is the fact that sickness is always produced by breathing foul air. Is not this positive evidence that proper remedies, carefully prepared and judiciously administered through the lungs, should produce the most happy results? During eighteen years' practice, many thousands, suffering from diseases of the drugs and threat, have been under my care, and I have effected many remarkable cures, even after the sufferers had been pronounced in the last stages, which fully satisfies me that Consumption is no longer a fatal disease,—My treatment of Consumption is original, and founded on long expelience and a thorough investigation. My perfect acquiritance with the nature of theereles, &c., enables me to distinguish, readily, the various forms of disease that shiullate consumption, and apply the proper romedies, rarely being mistaken even in a single case.—This familiarity, in connection with certain pathological and microscopic discoveries, enables me to relieve the lungs from the effects of contrasted chestes, to enlarge the chest, purify the blood, impart to irrenewed vitality, giving crorgy and tone to the entire system.

Medicines, with full directions, rent to any part of the United States and Canadas, by patients communicating their symptoms by letter. But the cure would be more certain if the patient should pay me a visit, which would give me an opportunity to examine the lungs and analy in the patient should be effected without my seeing the patient again,

Discharging Ulcers. A most remarkable and happy change is produced in the appearance of malignant ulcers after a few applications of this dintment. The surrounding redness vanishes, and granules of healthy fiesh begin to take the place of the discharged matter. This process goes on more or loss rapidly until the orifice is filled up with sound material, and the ulcer radically cured.

A Word to Mothers. The young are the most frequent sufferers from axternal injuries and therefore every mother should have this beating preparation constantly at hand. It is an absolute specific for sore breasts and quickly removes the encrusted sores which somotimes disfigure the heads and faces of children.

Significant Facts. This Olatment is universally used on board the Atlantic and Pacific whaling fleet as a cure for scorbutic affections, and as the lest possible remedy for woulds and bruises. Large supplies of it have recently been ordered by the Saltan of Turkey for hospital purposes.

Of all diseases, the great, first cause Springs from neglect of Nature's laws SUFFER NOT! CURE IS GUARANTEED SECRET DISEASES,

It matters not from what cause the disease originated,
however long standing or obstinate the ease, Recovery
is Certain, and in a shorter time than a permanent cure
can be effected by any other treatment, even after the
disease has baffled the skill of eminent physicians and resisted all their means of cure. The modelines are pleasant without odor, causing no sickness and free from
mercury or balsam. During twenty years of practice, i
have resented from the Jaws of Death many thousands,
who, in the last stages of the above-mentioned diseases,
had been given up to die by their physicians, which warrants me in promising to the afflicted, who may place
themselves under my care, a perfect and most speedy
cure. Secret Diseases are the greatest enemies to health,
as they are the first cause of Consumption, Scrofula and
many other diseases, and chould be a terpor to the Jau
man family. As a perfect and most speedy
cure, which, with the disease, hast-as the sufferer
into a vapid Consumption.

death speedily and the victim marries, the disease is entailed upon the children, who are born with feeble constitutions, and the current of life corrupted by a virus which betrays itself in Scrotula. Tetter, Ulcers. Eruptions and other affections of the Skin, Lyes, Throat and Lungs. entailing upon them a brief existence of suffering and consigning them to an early grave.

SELF ABUSE is another formidable enemy to health, for nothing else in the dread calalogue of human discasses causes so destructive a drain upon the system, drawing its thousands of victins through a few years of suffering down to an untimely grave. It destroys the Nervous System, rapidly wastes away the energies of life, causes mental derangement, prevents the proper development of the system. disqualifies for marrings, society, unriness, and all carthly happiness, and leaves the sufferer wrecked in body or mind, predisposed to Consumption and a train of evils more to be dreaded than death itself. With the fullest confidence I assure the unfortunate victims of Self Aluse that a permanent and speedy cure can be effected, and with the abandonment of ruinous practices my patients can be retored to robust, vigorous health.

orous health.

The affilicted are cautioned against the use of Patent Medicines, for there are so many ingenious snares in the columns of the public prints to catch and rob the unwary sufferers/that millions have their constitutions rained by the vile compounds of quack doctors, or the equally poisonous nostrums vended as "Patent Medicines." I have carefully analyzed many of the so-called Patent Medicines, and find that nearly all of them contain Corrosive Sublimate, which is one of the strongest preparations of mercury and a deadly poison, which, instead of curing the disease, disables the system for life.

Three-fourths of the patent nostrums now in use are put up by unprincipled and ignorant persons who do not understand even the alphabet of the MATERIA MEDICA, and are equally as destitute of any knowledge of the human system, baving one object only in view, and that to make money regardless of cursequences.

From Rev. Mr. Enterline. Pastor German Church, Cor. Conway and Sharp streets:

For the benefit of the afflicted, I feel it a duty to state what a blessing a medicine. known by the name of "Bull'a Recto Mistura." has been to me. I have been afflicted with the Piles for eight years, during which time I tried my own remedies, as a practitioner, and many others, but without success. Having heard of Mr. Bull's Pile Remedy. I tried it; and though I used but one half-ble tie, I can say that I am perfertly cared. I siso used it in a violent case of Tetter, which extended over the whole body, and in less than two weeks it disappeared, and the skin became clean and smooth. I strictly adhered to the directions.

Who can say that these excesses are not frequently followed by those direct diseases—IN-SANITY AND CONSUMPTION? The records of the Insane Asylums, and the melancholy deaths by Consumption, bear ample witness to the truth of these assertions. In Lunatic Asylums the most melancholy exhibition appears. The Countenance is actually sodden and quite destitute—neither Mirth or Grief ever visits it; should a sound of the voice occur, it is rarely articulate.
