Our friend George Gingrich, is not to be out-done in catering for the public .-We observed yesterday at his stand a fine lot of Strawberries, the first of the season.

REV. Dr. Bowman, of Lancaster was last week, elected Assistant Bishop, by the Episcopi l Convention, in session in Philadelphia Sixteen ballots were had.

It is stated that Lord Napier and Sir Gore Ousley intend paying a visit to Pottsville, Reading. and Lebanon, after the adjournment of Congress, to see the great works in which so much English capital is invested.

MUCH OBLIGED .- We received the closing speech of Hon. Wm. H. Seward on the Kansas Question, last week, with the information that we can bave any number at \$1 per 100. The idea of asking us to buy Republican Speeches is a good one, and shows that members of Congress have a high opinion of their thoughts upon the

By an advertisement in another column we notice that Mr. Fox, has opened a store at No. 637 North Second street, Philadelphia, for the manufacture and sale of Spectacles, &c. He was six years with the McAllisters, and hence may be relied upon as well acquainted with the business. The attention of our farmer friends is particularly called to his Dairy Thermometers. It is an article which no farmer should be without. He is also agent for Fifes' Patent oblique pointed Steel and Gold Pens, an article we have tried and can recommend, as the next best pen to the quill in use. He warrants all articles to give satisfaction.

Society.-The annual session of this body commenced at Lancaster on Tuesday last. Dr. John K. Raub, of Lancaster caunty, was elected Secretary, to fill the vacancy occasioned by the decease of Dr. Septimus A. Ogier, of Chester counthe annual address, in which he adverted to the benefits of medical associations and the progressive improvement in treatment. The attendance at the Convention seem to have been very limited:

THE Agricultural Meeting .- We take great pleasure in calling the attention of our agricultural friends to the proceedings of the meeting published below. The Lebanon County Agricultural and Horticultural Society is a fact. On Saturday last it was put into existence under the most flattering circumstances. The meeting of organization was attended by gentleman interested in agriculture from every section of the county, and the feeling was a general determination for the success of the enterprise. A good Constitution was adopted, and a Committee appointed to prepare By-Laws, which will also be of the right kind. During the recess of the meetin a short time every gentleman present handed siderable length of timein his name, in addition to which many at once wid the fee of membership (\$1.) The Society will consist of 1000 members by next Saturday a week, when the next meeting takes place at Mark's. We trust that every person in the county interested in agriculture (and who is not,) will then attend, if possible, and keep the ball a rol-
