To be able to State confidently that Consumption is curable by Inhibation, is to me a source of unalloyed pleasure. It is as much under the control of medical treatment as any other formidable disease: ninety out of every hundred cases can be cured in the first stages, and fifty percent, in the second; but in the third stage it is impossible to save more than five per cent. for the lungs are so cut up by the disease as to doty medical skill. Even, however, in site last stages, inhaliation sifords extraordinary relief to the suffering attending this fearful securge, which annually destroys unjety-five thousand persons in the United States alone; and a correct calculation shows that of the present population of the earth, eighty millions are destrined to fill the Consumptive's grave.

Truly, the quiver of death has no arrow so fatal as Consumption. In all ages it has been the great enemy of life, for it spares neither age nor sex, but sweeps off alike the brave, the beautiful, the graceful, and the gifted. During twenty of the same fair of the fair of the land of the practice, I have been discovere

tailed upon the children, who are born with feeble con-stitutions, and the current of life corrupted by a virus which betrays itself in Scrofula. Tetter, Ulcers. Erup-tions and other affections of the Skin. Eyes, Throat and Lunga, entailing upon them a brief existence of suffer-ing and consiering them to an early grave. SELF ABUSE is another formidable enemy to health. SELF ABUSE is another formidable enemy to health, for nothing else in the dread catalogue of human discases causes so destructive a drain upon the system, drawing its thousands of victims through a few years of sutfering down to an untimely grave. It destroys the Nervous System, rapidly wa-tes away the energies of lifecauses mental derangement, prevents the proper development of the system, disqualities for marring, society, business, and all earthly happiness, and leaves the sufferer wrecked in body or mind, predisposed to Consumption and a train of evils more to be dreaded than death itself. With the fullest confidence is assure the unfortunate victims of Self Abuse that a permanent and speed, cure can be effected, and with the abandonment of rainous practices my patients can be restored to robust, vigorous health.

The afflicted are cautioned against the use of Patent-Medicines, for there are so many ingenious snares in the

orons health.

The afficied are cautioned against the use of Patent Medicines, for there are so many ingenious snares in the columns of the public prints to catch and rob the unwary sufferers, that millions have their constitutions ruined by the vile compounds of quack soctors, or the equally poisonous nestrums vended as "Patent Medicines." I have carefully analyzed many of the so-called Patent Medicines, and find that nearly all of them contain Corrosive Sublimate, which is one of the strongest preparations of mercury and a deadly poison, which, instead of one increase a disables the system for life.

Three fearths of the patent nostrams now in use around produce of the application of the Attract Minica, and are equally as destitute of any knowledge of the human system, having one object only in view, and that to make money regardless of consequences.

Irregularities and all diseases of males and females treated on principles established by twenty years of practice, and sanctioned by thousands of the most remarkable cures. Medicines with full directions sent to any part of the United States or Canadas, by putients communicating their symptoms by letter. Business correspondence strictly confidential. Address:

This mode of roofing having all the combined requisites of cheapness, Durability, and Security against Fire and Water, and dispensing with high gable walls; the roofs require an inclination of not mere than

many cases saving the entire cost of rafters-the ceiling joist being used.

The gutters are made of the same material, without any extra charges; consequently, our roofs are put up at almost half the cost of either Tin, Slate, or Shingles. The material being of an imperishable nature, it surpasses all others in Durability;—besides, in case of any casualty, it is the most easily repaired of any other roof now in use. Yet, the best proof we can offer as to its being both fire and water proof, are our many re-ferences, to any one of whom we are at liberty

ferences, to any one of whom we are at liberty to refer.

N. B.—But let it be distinctly understood, (since we manufacture our own composition, and do the work in person,) that we warrant all our work proof against both Fire and Water; if they prove contrary, we will most willingly abide the results.

The materials being mostly non-conductors of heat, no roof is so cool in summer, or so warm in winter. Those wishing to use our roof should give the rafters a pitch of about one inch to the foot.

offer a sure remedy.

From Rev. Mr. Enterline. Pastor-German Church, Cor. Conway and Sharp streets:

For the benefit of the afflicted, I feel it a duty to state what a blessing a medicine known by the name of "Bull's Recto Mistura," has been te nue. I have been afflicted with the Piles for eight years, during which time I tried may own remedies, as a practitioner, and many others, but without success. Having heard of Mr. Bull's Pile Remedy, I tried it; and though I used but one half-bott lie, I can say that I am perfectly cured. I also used it in a violent case of Tetter, which extended over the whole body, and in less than two weeks it disappeared, and the skin became clean and smooth. I strictly adhered to the directions.
