Democratic State Nominations. JUDGE OF SUPREME COURT: WILLIAM A. PORTER. CANAL COMMISSIONER WESTLEY FROST,

05 J. P. Walton, Esq., of Monroe county, has been appointed Treasurer of the Mint at Philadelphia, in place of Dr. Sturgeon.

Or Hon. John P. Hale has been reelected by the New Hampshire Legislature for another full term of six years to the United States Senate.

'05 The Reading Journal appeared on Saturday, in an entire new suit of type. The Journal is a good paper. and we are pleased to learn of its pecu-Phiary success.

Col. Berret's majority for Mayor of Washington is 571. The Democrats and anti-Know Nothings were also successful in electing Aldermen, Common Councilmen, and Assessors, in all the Wards but one.

The New York Herald, a Republican paper, recommends Gen. Simon fers Cameron to Fremont, and says that the opposition candidate must have "Democratic anticedents." Nearly all desirable the opposition candidates of late have been recreant Democrats, viz :- Taylor, Fremont, Wilmot, Johnston, et. cetera.

Mr. Kilbourne, President of the La Crosse and Milwaukee Railroad, testified before the committee reg rding Governor Bashford, as follows: "That in consideration of the past, and pros-

pect of the future, the company felt disposed to extend to him a pecuniary compliment, if he would accept it. He said that, with the views and purposes expressed by me, he should not feel at liberty to decline a compliment of the kind, and would accept it cheeffully. I then stated that I would at an early day place in his hands the bonds 3d Witch-Scale of dragon, tooth of wolf; of the company to the amount of \$50,000." Furthermore, says Mr. Kilbourne:

"Distinctly stating to him at the time; that I wished this gratuity to have no influence upon any official act which it might henceforth devolve on him hereafter to perform. On his part, I bee lieve he accepted it for the reason that he thought the company could well afford to make such donation without doing any material damage, while to him the sun was large enough to confer a real benefit (! !) In pursuance of this conversation, I subsequently placed in the hands of Gov. Reshford the bonds of the company to the amount of \$50,000, and at a later period I exchanged shford the bonds of the company to the amount with him \$15,000 into money at par. * * I presume this would have been done from time to time had the condition of the company per-

From the Phila. Monitor, (Anti-Lecompton. Pennsylvania Politics.

The above caption having attracted our attention in an obscure column of the New York Tribune of Saturday, we glanced further down, and read, in large letters, the following words-"THE OPPOSITION UNITED-CALL FOR A STATE CON-VENTION." Then followed the announcement that-

The United American Republican, and (our italies,)
People's Committee of Superintendence for the City of
Philadelphia sernestly desirous to extend and perpetuate that union of the elements of opposition to the present National Administration, which in this City has lately
resulted in such brilliant success, do hereby respectfully
suggest and recommend to the State Committees representing those several elements of opposition, that they
call upon the citizens of Pennsylvania, who are opposed
to the present National Administration; especially to its
despotic and fraudulent Lecompton policy, and its wilful
neglect of the just claims of domestic infustry; and who
are in favor of the Sovereignty of the people over their
own local concerns; of American institutions as againet

Tithe American of Perseylvania.

To the Americans of Pennsylvania:

The above recommendation having been submitted to me for my approval, after consultation with the majority of the members of the American State Committee, and a large number of the prominent Americans of the State, I cheerfully adopt it as our call for a State Convention, and urge the members of the American party throughout the State to participate in the elec ion of Delegates.

But seriously, can it be possible these gentlemen, who have been preparing such a mixture to be swallowed by the people of Pennsylvania, really believe when Democrats differ about the propriety of a measure, that, therefore, they may be induced to abandon their principles and desert their party? Do they suppose that be-cause a virtuous man may have a little domestic squabble at home, he will, therefore, plunge into all the excesses of vile debauchery? That would be a pretty remedy, a very satisfactory revenge indeed! We were anti-Lecompton ourselves, but we are still Democrats; nothing should prevent us from voting the Democratic ticket. We are neither an officer-holder nor an office seeker, nor do we enjoy any sort of patronage or favor from fire, and shot Lane in the leg, inflicting a wound the Administration. But we try to be honest, and conscientious; and will endeavor to support the men we contributed to place in power. And we shall certainly oppose such an infamous conglomeration as that which has been recently formed in this State under the auspices of the Black

Republicans. But what do the Americans expect, from such an alliance? It may be fun for Mr. H. Bucher Swope, but it will be death to Mr. Crittenden, Mr. Bell, and all the Southern Know Nothings. PHILADELPHIA, June 7, 1858. Wm. M. Breslin-Mr. Editor:

United States Engine, Sunday, 5-6. The department of our city consists of some seventy companies; measures are being taken to reach all; the field of labor you will perceive is large; and much is yet to be done. In one of the largest companies of 500 members visited, but one professing a change of heart was found; this one has undertaken to be the leader, and now labors zealously in his Master's spirit. What a commentary! That impetuous spirit so characteristic of our firemen when upon duty, has added much, to assist the growth of the good work among them. They exhaust themselves in this also; they are becoming missionaries for the spread of the Kingdom, and as one and another came out on the Lord's side, "the simple story of the cross" goes from lip to lip, until the hallowed blaze fires the whole. Some 17 of those noble missionaries visited Germantown last week, to unite with a sister company in one common supplication to a throne of grace, and bring them congratulations of God speed in their well begun work. They have become as beacon lights, and "the Christian graces" in this class, as from the mouth of "babes and sucklings," are perfecting praise. A plenteous harvest is being gathered in; of the Diligent some fifteen have professed religion, five of whom have been considered, heretofore, incorrigible. As in this, so in others,

here and there, men stand up and boldly ask :-

"Brethren, pray for me!"

'We have heard it intimated that no appreciable fruit has resulted from the "awakening;" we may perhaps never fully realize the extent, but in the great aggregate, we would simply ask such doubting ones, How is the monthly accession of 259 young men to the Christian Association to be accounted for? The 1300 to the Episcopal church, and an equal ratio to several of the larger denomnations? Has not the great question been asked and answered? Men and brethren! What shall we do to be saved! There is no controverting such an array of figures. In almost every town in the country, a Union Prayer Meeting has been established, estimate the conversion of a soul a day, in each, and what a vast number presents itself! We must also view the vast multitude visiting those meetings who linger but a season, but receive the "arrows of conviction" in a deep lodgment in their heart; the influence of sympathy and example; all these arrayed, are convincing proofs of the power and work of God! The news from distant quarters betokens good; the morning is dawning! Though assailed from within and without, this grand movement has lived, notwithstanding the assaults of infidelity, ridicule and tracts from men in spiritual places, like the diamond, this shines most brilliantly in darkness! The simplest means as we reverted to are being abundantly blessed. Religion has become the theme among the children. God bless them! and their influence accompanied by their sweet simplicity, who can fathom. A few weeks ago a little girl from Providence had occasion to write to this city to her uncle, to procure some medicine for her father, who was sick; in a postseript to the same were these simple but important words,—"Dear Uncle, how is it with your

A MURDER BY JIN LANE .- An affray took place Lawrence, Kansas, on the 3d inst., between Gen. Iim Lane, the notorious Black Republican eader, and Mr. Jenkins, a prominent and highly estcomed citizen of that place, which resulted in the death of Mr. Jenkins. The affair grew out of the refusal of Lane to permit Mr. Jenkins to ake water from a well situated on some land to which there was a disputed claim between the parties. The well had been heretofore used by both parties in common. Mr. Jenkins, accompanied by four friends, all armed, was proceeding toward the well to draw water, when Lane, after warning him not to advance, fired and killed him instantly. One of Jenkins' party returned the which confined him to bed. Lane has been arrested for murder.

The highest waterfall in the world is in the Sandwich Islands, and it is stated to be between four and five thousand feet high. The stream on which the fall occurs runs among the peaks of the highest mountains—so high that the water actually never reaches the bettom-so great is the distance that the water is converted into mists and ascends to the clouds again.

The firemen of Chicago have got a 3d class team engine. The machine on exhibition has thrown two one inch streams a distance of one hundred and eighty-five feet, and one stream of one and a half inches two hundred and eight feet, in a horizontal line. Steam can be got up in this machine in from seven to ten minutes. It weighs nearly three tons, throwing two streams, and its cost is \$4.500.

RAINY DAYS IN MAY .- Some one who has kept count, says that there were but four days in the whole month of May that were not rain. In May last year, twenty-one out of thirty-one days were rain. The quantity of rain which fell at both periods, was about equal:

We respectfully call the attention of persons a bout to build, to our invaluable method of roofing, now much used throughout the principal cities of the United States and their vicinities. This mode. of roofing having all the combined requisites of cheapness, Durubility, and Security against Fire and Water, and dispensing with high gable walls; the roofs require an inclination of not more than three-quarters (2) of an inch to the foot, and in

many cases saving the entire cost of rafters—the ceiling joist being used.

The gutters are made of the same material, without any extra charges; consequently, our roofs are put up at almost half the cost of either Tin, Slate, or Shingles. The material being of an imperishable nature, it surpasses all others in Durability;—besides, in case of any casualty, it is the most easily repaired of any other roof now in use. Yet, the best proof we can offer as to its being both fire and water proof, are our many references; to any one of whom we are at liberty to refer.

To the Farmers of Lebanon County. You are offered a chance this year, which has never been offered before, and, perhaps, never will be again; and that is: each farmer can try for himself Manny's Reaper and Mower, with Wood's Im-

again; and that is: each farmer can try for himself Manny's Reaper and Mower, with Wood's Improvement,
and, if it does not do all as represented, there are no lossics sustained. The Agents for Lebanon county are perfectly responsible for all they warrant these Mowers and Reapers to perform, and do not offer them to the farmer with view of merely selling them, but to answer the purpose of their invention—lightening labor, and giving a full equivalent for the price of their cost. There is no humbug about these Machines! They are the latest and best improved of their kind. There are none others now extant that excel them; and to prove this, it is but necessary to say that in 1857, they took the first premitims at all the County and State Fairs of Pennsylvania, the first premiums in Vermont, New York, Maryland, and Tennessee. But the greatest victory achieved was at the great trial at the United States Agricultural Fair, at Syncuse, in 1857, where the first and second (gold and silver medals) Premiums were awarded, as the best combined Machine and as a Reaper.

The Agents, A. MAJOR & BROTHER, would challenge all Agents of Reapers and Mowers in this county to a trial at stuch time and place as will suit them. And if Manny's Reaper and Mower with Wood's Improvement is not the best Machine, a fair trial will decide it.

To those especially that are suffering from the Piles, we offer a sure remedy.

From Rev. Mr. Enterline, Pastor German Church, Cor. Conway and Sharp streets:

For the benefit of the afficied, I feel it a duty to state what a blessing a medicine, known by the name of "Bull's Recto Mistura," has been to me. I have been afflicted with the Piles for eight years, during which time I tried my own remedies, as a practitioner, and many others, but without success. Having heard of Mr. Bull's Pile the, I can say that I am perfectly cured. I also used it in a violent case of Totter, which extended over the whole the skin became clean and smooth. I strictly adhered to the directions.

cuitis, Laryngitis, Asthma, and all Diseases of the Th and Lungs. by MEDICATED INHALATION.

MEDICATED INHALATION.

The great point in the treatment of all luman malades is to get at the disease in a direct manner. All medicines are estimated by their action upon the organ requiring relief. This is the important fact upon which Inhalation is based. If the Stomach is diseased, we take medicine directly into the Stomach. If the Lungs are diseased, breathe or inhale medicated vapors directly into them. The reason why Consumption and Diseases of the Lungs have heretofore resisted all treatment has been because they were not approached in a direct manner by medicines. They were intended to be local and yet they were so administered that they could not art constitutionally, expending their immediate action upon the Stomach, whilst the foul ulcers within the Lungs were unmolested. INHALATION brings the medicine into direct contact with the disease, without the disadvantages of violent action. Its application is so simple that it

Ann Arbon, November 5, 1856.

Prof. O. J. Wood—Dear Sir: I have heard much said of the wooderful effects of your Hair Restorative, but having been so often cheated by quackery and quack nostrums, hair dyes, &c., I was disposed to place your Restorative in the same category with the thousand and one loudly trumpeted quack remedies, until I met you in Luwrence county some months since, when you gave me such assurance as induced the trial of your Restorative in my family—first by my good wife, whose hair had become very thin and entirely white, and before exhausting one of your large bottles, her hair was restored nearly to its original beautiful brown color, and had thickened and become beautiful and glossy upon, and entirely over the head; she continues to use it, not simply because of its healthful influence upon the head and mind. Others of my family and friends are using your Restorative, with the happiest effects; therefore my skepticism and doubts in reference to its character and value are entirely reremoved; and I can and do unest cordially and confidentially recommend its use by all who would have their hair restored from white or gray (by reason of sickness or ago) to original color and beauty, and by all young persons who would have their hair restored from white or gray (by reason of sickness or ago) to original color and beauty, and by all young persons who would have their hair restored from white or gray (by reason of sickness or ago) to original color and beauty, and by all young persons who would have their hair restored from white or gray (by r

It has done all that you assured me it would do; and others of my family and friends, having witnessed its effects, are now using and recommending its use to others as entitled to the highest consideration you claim for it.
