TWENTY-TWO YEARS'

Experience has rendered Dr. K. a most successful practitioner in the cure of all diseases of a private nature, manhood's webility, as an impediment to marriage; nervous and sexual infirmities, diseases of the skin, and those arising from abuse of mercury.

TAKE PARTICULAR NOTICE.

There is an evil habit sometimes indulged in by boys, in solitude, often growing up with them to manhood; and which, if not reformed in due time, not only begets serious obstacles to matrimonial happiness, but gives rise to a series of protracted, insidious, and devastating affections.

rise to a series of protracted, insidious, and devastating affections.

Few of those who give way to this pernicious practice are aware of the consequences, until they find the nervous system shattered, feel strange and unaccountable sensations, and vague fears in the mind. [Seepages, 27, 28, 29, of Dr. K.'s book on "Self-Preservation."]

The unfortunate thus affected becomes feeble, is unable to labor with accustomed vigor, or to apply his mind to study; his step is tardy and weak; he is dull, irresolute, and engages even in his sports with less energy than usual.

If he emancipate hisself before the practice has done its worst, and enter matrimony, his marriage is unfruitful, and his sense tells him that this is caused by his early follies. These are considerations which should awakex the attention of all who are similarly situated. awaken the attention of all who are similarly situated.

Remedies to the cavities in the lungs through the al. passages, and coming in direct contact with the disease, neutralizes the tubercular matter, allays the cough, causes a free and easy expectoration, heals the lungs, purifies the blood, imparts renewed vitality to the nervous system, giving that tone and energy so indispensable for the restoration of health. To be able to state confidently that Consumption is curable by Inhalation, is to me a source of unalloyed pleasure. It is as much under the control of medical treatment as any other formidable disease; ninety out of every hundred cases can be cured in the first stages, and fifty per cent. In the second; but in the third stage it is impossible to save more than five per cent, for the lungs are so cut up by the disease as to defy medical ekill. Even, however, in the last stages, inhalation affords extraordinary relief to the suffering attending this fearful securge, which annually destroys ninety-five thousand persons in the United States alone; and a correct calculation shows that of the present population of the earth, eighty millions are destined to fill the Consumptive's grave.

Truly, the quiver of death has no arrow so fatal as Consumption. In all ages it has been the great enemy offlic, for its sparse neither age nor sex, but sweeps off allike the brave, the beautiful, the graceful, and the gifted. By the help of that Supreme Being, from whom cometh overy good and perfect gift, I am enabled to offer to the afflicted a permanent and speedy cure in Consumption. The first cause of tubercles is from Impure Blood, and the limitediate effect, gift, I see enabled to offer to the afflicted a permanent and speedy cure in Consumption is on the sir cells, which causes a weakened vitality through the entire system. Then, surely, it is more rational to expect greater good from medicines entaring the cavities of the lungs, than from those administered through the stomac

TOBACCO CHEWERS

Dr. Gustav Linnard's Taste Restorative Trochies, the Great Substitute for Tobacco.

It is a well known and incontrovertable fact that the use of Tobacco is the promoting cause of many of the most severe Mental and Physical Disorders to which the race of man is subject, as careful analysis and long and painful experience have clearly proven that it contains certain narcotic and poisonous properties most dangerous in their effects, which by entering into the blood derange the functions and operations of the Heart, causing many to suppose that organ to be seriously discussed.

TOBACCO affects also the entire nervous system; manifesting itself—as all who have ever used the noxious weed will bear testimony—in Lassitude, Ferrous Irritability, Water Brash, Dyspepsia, and many other disorders of a similar character.

THE TASTE RESTORATIVE TROCHES

Are designed to counteract these baneful influences, and have proved completely successful in a multitude of causes, and wherever used. Being harmless in themselves they exort a beneficial effect upon the entire system, restoring the Taste which has become vitiated or destroyed by great indulgence, completely removing the irritation and accompanying tickling sensation of the Throat—which are always consequent upon abstaining from the use of Tobacco, and by giving a healthy tone to the Stomach, invigorate the whole system.

Persons whe are irrestivably undermining their constitutions and shortening their lives, should use these Troches immediately and throw of the injurious and unpleasant habit of Tobacco Chewing.

These Troches or Lozenges are put up in a convenient and portable form at the low price of 50 Cents per box. A liberal discount to the trade. Prepared solely by the undersigned to whom all orders should be addressed.

JOHNSTOWN, Feb. 3, 1858.

To the Farmers of Lebanon County. You are offered a chance this year, which has never been offered before, and, perhaps, never will be again; and that is: each farmer can try for himself Manny's Reaper and Mower, with Wood's Im-

provement, and if it does not do all as represented, there are no loss-es sustained. The Agents for Lebanon county are per-fectly responsible for all they warrant these Mowers and Reapors to perform, and do not offer them to the farmer with yieu of mergly selling them but to supers the Response to perform, and do not offer them to the farmer with view of merely selling them, but to answer the purpose of their invention—lightening labor, and giving a full equivalent for the price of their cost. There is no humbug about these Machines. They are the latest and best improved of their kind. There are none others now extant that excel them; and to prove this, it is, but necessary to say that in 1857, they took the first premiums at all the County and State Fairs of Pennsylvania; the first premiums in Vermont, New York, Maryland, and Tennessee. But the greatest victory achieved was at the great trial at the United States Apricultural Fair, at Syracuse, in 1857, where the first and second (gold and silver modals) Premiums were awarded, as the best combined Machine and as a Reaper.

The Agents, A. Mayos & Brorrier, would challenge all Agents of Reapers and Mowers in this county to a trial at such time and place as will suit them. And if Mauny's Reaper and Mower with Wood's Improvement is not the best Machine, a fair trial will decide it.

Address the Agents, A. MAJOR & BRO.
