In 1840, the four great States of New York, Pennsylvania, Ohio and Virginia, had 116 electoral votes, being only 32 less to be trampled upon much longerit will than were required to elect a President. BRUSSELS LACE .- The spinning of the fine is an operation demanding so high a degree of exquisite skill, minute manipulation, and vigilant attention, that it appears impossible that it can ever be taken from human hands by machinery. None but Belgian fingers are skilled in this art. The very finest sort of this thread is made in Brussels, in damp underground cellars, for it is for the next President, with the followso extremely delicate that it is liable to break by contact with the dry air above ground ; and it is obtained in good condition only when made and kept in a humid, subterraneous atmosphere .---There are numbers of old Belgian thread makers, who, like spiders, have passed the best part of their lives spinning in cellars. This sort of ocsupation naturally has an injurious effect on the health, and the eye-sight of the operatives is impaired at an early ago.

From Rev. Mr. Enterline, Pastor German Church, Cor. Conway and Sharp streets: For the benefit of the afflicted, I feel if a duty to state what a blessing a medicine, known by the name of "Bull's Retco Mistura," has been to me. I have been afflicted with the Piles for eight years, during which time I tried my own remedies, as a practitioner, and many others, but without success. Having heard of Mr. Bull's Pile Remedy, I tried it; and though I used, but one halfbot-tie, I can say that I am perfectly cured. I also need it in a violent case of Tetter, which extended over the whole tody, and in less than two weeks it disappeared, and the skin became clean and smooth.
