The old stone view is come to life again.

JOHN PETER MOYER would respectfully inform the public that he continues the business of LIMESTONE SAWING AND DRESSING by horse power, in Chestnut Street, East Lebanon. He finishes the following articles out of the best and soundest limestone that can be procured in this neighborhood, viz-Door SLIAS and Planforms, Steps, Window Shles and Heads, Cellar Door Cheeks, Curbe-Stones, Shoe Scraper blocks, as well as any other article that can be manufactured of limestone. His Curb-stones are from four to five inches thick; and his prices in accordance with the quality.

He was the first person that introduced the lime-stone into this place, and is now prepared to finish off limestone so as to give it an appearance vory little inferior to that of the handsomest Marble, in proof of which assertion he directs the public to the finished work at his establishment. He respectfully invites all those who intend erecting new buildings, to call the is establishment and convince themselves of the excellent finish of his work as also of the cheapness of his prices.

Dr. Morse's lindian Root Pills

Dr. Morse, the inventor of Morse's Indua Root Pills

Dr. Morse, the inventor of Morse's Indua Root Pills

has spent the greater part of his life in traveling, having visited Europe, Asia, and Africa, as well as North America—has spent three years among the Indiana of our Western country—if was in this way that the Indian Root Pills were first discovered. Dr. Morse was the first man to establish the fact that all discases arise from Impurity of the Blood—that our strength, health and life depended upon the vital fluid.

When the various passages become clogged, and do not act in perfect harmony with the different functions of the body, the blood loses its action, becomes thick, corrupted and diseased; thus causing all pains, sickness and distress of every name; our strength is exhausted, our health we are deprived of, and if nature is not assisted in throwing off the stagnant humors, the blood will become choked and cease to act, and thus our light of life will forever be blown out. How important then that we should keep the various passages of the body free and open. And how pleasant to as that we have it in our power to put a medicine in your reach, namely, Morse's Indian Root Pills, manufactured from plants and roots which grow around the mountainous cliffs in Nature's garden, for the health and recovery of diseased man. One of the roots from which these Pills are made is a Sadorfic, which opens the pussage to the lauge by copious spitting. The third is a plant which is an Expectorant, that opens and unclogs the pussage to the lauge, and thus, in a soothing manuner, performs its duty by throwing off pflegm, and other humors from the lungs by copious spitting. The third is a Diurctic, which gives case and doubte strength to the kidneys; thus encouraged, they draw large amounts of impurity' from the blood, which is then thrown out bountifully by the urinary or water passage, and which could not have been discharged in any other way. The fourth is a Cathartic, and accompanies the is a Catharte, and accompanies the other properties of the Fills while engaged in purifying the blood; the coar-ser particles of impurity which cannot pass by the other outlets, are thus takes up and conveyed off in great quan-tities by the bowels. ities by the bowels.

From the above, it is shown that Dr. Morse's Indiau

outlets, are thus taken up and conveyed off in great quantities by the bowels.

Froin the above, it is shown that Dr. Morse's Indian Root Pills not only cuter the stomach, but become united with the blood, for they find way, to every part, and completely rout out and cleanse the system from all impurities, and the life of the body, which is the blood, becomes perfectly lealthy; consequently all sickness and paln is driven from the system, for they cannot remain when the bedy becomes so pure and clear.

The reason why people are so distressed when sick, and why so many die, is because they do not get a medicine which will pass to the afflicted parts, and which will open the natural passages for the disease to be cast out, hence, a large quantity of food and other matter is ledged, and the stomach and intestines are literally overflowing with the corrupting mass; thus undergoing disagreenble formulation, constantly mixing with the blood, which thows the corrupted matter through every vein and arteful throws the corrupted matter through every vein and arteful throws the corrupted matter through every vein and arteful put in the staken from the body by disease. Dr. Morse's PILLS have added to themselves victory upon victory, by restoring millions of the sick to blooming health and happiness. Yes, thousands who have been racked or tormented with sickness, pain and anguish, and whose feeble frames have been scorched by the burning elements of raging fever, and who have been numbered with the dead, had it not been for this great and wonderful medicine, Morse's Indian Root Pills. After one or two doses had been taken, they were absolutely astomished, in witnessing their charming effects. Not only do they give immediate ease and strength, and take away all sickness, pain and anguish, but they at once go to work at the foundation of the disease, which is the blood. Therefore, it will be shown, especially by those who use flowers and strength, and take away all sickness, pain and anguish cells in the foundation of the dis

TAKE PARTICULAR NOTICE.

There is an cril babit sometimes indulted in by bose

those arising from abuse of mercury.

TAKE PARTICULAR NOTICE.

There is an evil habit sometimes indulged in by boys, in solitude, often growing up with them to manhood; and which, if not reformed in due time, not only begets serious obstacles to matrimonial happiness, but gives rise to a series of protracted, insidious, and devastating affections.

Few of those who give way to this pernicious practice are aware of the consequences, until they find the nervous system shattered, feel strange and unaccountable sensations, and vague fears in the mind. [See pages, 27, 28, 29, of Dr. K.'s book on "Self-Preservation."]

The unfortunate thus affected becomes feeble, is unable to labor with accustomed vigor, or to apply his mind to study; his step is tardy and weak; he is dull, irresolute, and engages even in his sports with less energy than usual. gy than usual.

If he emancipate himself before the practice has done

If he emancipate himself before the practice has done its worst, and enter matrimony, his marriage is unfruitful, and his sense tells him that this is caused by his early follies. These are considerations which should awaken the attention of all who are similarly situated.

REMEMBER,

He who places himself under Dr. KINKELIN'S treatment, may religiously confide in his honor as a gentle man, and rely upon the assurance, that the secrets of Dr. K.'s patients will never be disclosed.

Young man—let no false modesty deter you from making your case known to one, who, from education and respectability, can certainly befriend you.

Important Discovery. CONSUMPTION Diseases of the Lungs and Throat CURABLE BY INHALATION!!!

which conveys the
Remedies to the cavities in the lungs through the al.
passages, and coming in direct contact with the disease,
neutralizes the tubercular matter, allays the cough,
causes a free and easy expectoration, heals the lungs,
purifies the blood, imparts renewed vitality to the neryous system, giving that tone and energy so indispensable for the restoration of health. To be able to state
confidently that Consumption is carable by Inhalation,
is to me a source of unalloyed pleasure. It is as much
under the control of medical treatment as any other
formidable disease; ninety out of every hundred cases confidently that Consumption is curable by Inhalation, is to me a source of unalloyed pleasure. It is as much under the control of medical treatment as any other formidable disease; ninety out of every hundred cases can be cured in the first stages, and fifty per cent. In the second; but in the third stage it is impossible to save more than five per cent., for the lungs are so cut up by the disease as to defy medical skill. Even, however, in the last stages, inhalation affords extraordinary relief to the suffering attending this fearful scourge, which an nually destroys ninety-live thousand persons in the United States alone; and a correct calculation shows that of the present population of the earth, eighty millions are destined to fill the Consumptive's grave.

Truly, the quiver of death has no arrow so fatal as Consumption. In all ages it has been the great enemy of like for it spares neither age nor sex, but sweeps off alike the brave, the beautiful, the graceful, and the gifted. By the help of that Supreme Being, frome whom cometh every good and perfect gift, I am enabled to offer to the afflicted a permanent and speedy cure in Consumption. The first cause of tubercles is from Impure Blood, and the immediate effect, produced by their deposition in the lungs, is to proven the free admission of air into the air cells, which causes a weakened vitality through the entire system. Then, surely, it is more rational to expect greater good from modicines entering the cavities of the Jungs, than from those administered through the stomach; the patient will always find the lungs free and the breathing easy, after inhaling remedies. True, inhalation is a local remedy, nevertheless, it acts constitutionally, and with more power and certainty than remedies administered by the stomach. To prove the powerful and direct influence of this mode of administration, chloroform inhaled will destroy sensibility in a few minutes, paralyzing the entire nervous system, so that a limb may be amputated without the slightest part in th

life in a few hours.

The inhalation of ammonia will rouse the system when fainting or apparently dead. The odor of many of the medicines is perceptible in the skin, a few moments after being inhaled, and may be immediately detected in the blood. A convineing proof of the constitutional effects of inhalation, is the fact that sickness is always produced by breathing foul air. Is not this positive evidence that proper remedies, carefully prepared and judiciously administered through the lungs, should produce the most happy results? During eighteen years' practice, many thousands, suffering from diseases of the lungs and throat, have been under my care, and I have effected many remarkable cures, even after the sufferers had been pronounced in the last stages, which fully satisfies me that Consumption is no longer a fatal disease.—My treatment of Consumption is original, and founded on long experience and a thorough investigation. My perfect acquaintance with the nature of tubercles, &c., enables me to distinguish, readily, the various forms of disease that simulate consumption, and apply the proper remedies, rarely being mistaken even in a single case.—This familiarity, in connection with certain pathological and microscopic discoveries, enables me to reliave large the chest, purify the blood, impart to it renewed viablety, giving energy and tone to the entire system.

Medicines, with full directions, sent to any part of the united States and Canadas, by patients communicating their symptoms by letter. But the cure would be more certain if the patient should pay me a visit, which would give me an opportunity to examine the lungs and then the cure could be effected without my seeing the patient should be more repeater certaint; and then the cure could be effected without my seeing the patient should be effected without my office, 1131 Filbert St., (old No., 109.) below 12th, Harch 18, 1858.—1y.

MEDICINAL.

Oreat Discovery of the Age. ST TOBACCO CHEWERS

TOBACCO CHEWERS

Dr. Gustav Linnard's Taste Restorative Troches, the Great Substitute for Tobacco.

Tis a well known and incontrovertable fact that the use of Tobacco is the promoting cause of many of the most severe Mental and Physical Disorders to which the race of man is subject, as careful analysis and long and painful experience have clearly proven that it contains certain narcotic and poisonous properties most langerous in their effects, which by entering into the blood derunge the functions and operations of the Heart, causing many to suppose that organ to be seriously diseased.

TOBACCO affects also the entire nervous system: manifesting itself—as all who have ever used the noxious weed will bear testimony—in. Lassitude, Nervous Irritability, Water Brash, Dyspepsia, and many other disorders of a similar character.

Are designed to counteract these baneful influences, and have proved completely successful in a multitude of cases, and wherever used. Being harmless in themselves they exert a beneficial effect upon the entire system, restoring the Taste which has become vitiated or destroyed by great indulgence, completely removing the irritation and accompanying tickling sensation of the Throat—which are always consequent upon abstaining from the use of Tobacco, and by giving a healthy tone to the Stomach, invigorate the whole system.

Persona whe are irretrievably undermining their consiliations and shortening their lives, should use these Troches immediately and throw of the injucious and unpleasant habit of Tobacco Chewing.

These Troches or Lozenges are put up in a convenient and iportable form at the low price of 50 Cents per box. A liberal discount to the trade. Prepared solely by the undersigned to whom all erders should be addressed.

There symptoms if allowed to go, on—which this medicine invariably removes—soon follows loss of Power, Patuity, and EPILEPTIC KITS—in one of which the patient may expire. Who can say that these excesses are not frequently followed by those direful discusses—IN-SANITY AND CONSUMPTION? The records of the Insané Asylums, and the melancholy deaths by Consumption, bear ample witness to the truth of these assertions. In Lunatic Asylums the most melancholy exhibition impears. The Countenance is actually sodden and quite destitute—neither Mirth or Orife ever visits it; should a sound of the voice occur, it is rarely articulation—in "With worful measures wan despair with woeful measures wan despair."
