What others may have done we are not requested to the contrary, urged the noble are my of firement to go on, but as their hose was not sufficiently long, their faithful efforts proved in vain.

Mr. Breslin :- In last week's Advertiser, I observed a communication signed "Myerstown," which at first sight I considered unworthy of notice, but as it contained several unbecoming reflections deviating from truth, I take occasion to intrude upon your columns. In the first place, "Myerstown" would have one infer that his infinite chaos was written from the town bearing that name, but unfortunately the tenor of the whole article will not allow that-it is therefore evident that deception and envy is the groundwork of his trouble. I, indeed, should Misfortunes never come singly, is an old saying, have enjoyed that feature in the programme myself. Having been among the number I can truthfully state that the gentlemen bore all the expenses, and that what provisions we furnished were not solicited, -hence the large amount left, which were very

It will doubly repay itself in a few months by saving time and annoyance, doing away with all inconveniences attending the measuring of Mohasses, &c., as it will force the article to be measured through a large hole or funnel, into a jug or other vessel, by the simple movement of a lever.
