## GOD BLESS YOU.

How sweetly fall those simple words Upon the human heart, When friends long bound by strongest ties Are doomed by fate to part. You sadly press the hands of these, Who thus in love caress you, And soul responsive beats to soul, In breathing out, "God bless you."

"God bless you!" ah! long, long months ago I heard the mournful phrase, When one whom I in childhood loved Went from my dreamy gaze. Now blinding tears fall thick and fast. I mourn my long lost treasure, While echoes of the heart bring back The farewell praver, "God bless you."

The mother sending forth her boy To scenes untried and new, Lips not a studied stately speech, Nor murmurs out "adieu." She sadly says between hor sobs, Whone'er misfort uncs press you, Come to thy mother-boy, come back, Then sadly sighs, "God bless you !"

"God bless you !" more of love expressed Than volumes without number; Reveal we thus our trust in Him, Whose eyelids never slumber. I ask in parting no long speech Drawled out in studied measure, I only ask the dear old words, So sweet-so sad-"God bless you."

Dr. Morse's Indian Root Pills

Dr. Morse's Indian Root Pills Dr. Morse's Indian Root Pills Dr. Morse's the inventor of Morse's INTAN Root Pills has spent the greater part of his life in traveling, having visited Europe, Asia, and Africa, as well as North America.—Its spent three years among the Indians of our Western country.—it was in this way that the Indian Root Pills were first discovered. Dr Morse was the first man to establish the fact that all diseases arise from *Impurity* of the Blood—that our strength, health and life depended upon the vital find. When the various passages become clogged, and do not at in perfect harmony with the different functions of the body, the blood loses its action, becomes thick, corrupted and diseased; thus causing all palts, sickness and distress of every name ; our strength is exhausted, our health we are deprived of, and if nature is not assisted in throwing off the stagmant humors, the blood will become choked and case to act, and thus our light of life will forever he blown out. How important then that we should keep tho various passages of the boly free and open. And how pleasant to us that we have to in our power to put a med-liche in your reach, namely, Mörse's Indian Root Pills, manufactured from plants and roots which grow around the mountainous cliffs in Nature's garden. for the health atil recorery of diseased mat. Oue of the roots from which these Pills are made is a Sudorife, which opens the parss of the largs, and thus, in a soothing manner, performs its duty by throwing off plegm, and other hu-mors from the lungs by copions spitting. The stird plant which is an Expectorant, that opens and anotics a burnetic, which gives ease and double strength to the kid-marker, thus decourged, lucy draw large amounts of im-muty from the blood. Which is then thrown out bounti-fully by the utinary or water passage, and which could not have been discharged in any other way. From the above, it is shown that Dr. Morse's Indiau Root Pills not only enter the stomnch, but become aui-ted with the blood, for they find way to every part, and completely rout out and cleanse the system from all im-purities, and the life of the body, which is the blood, be-comes perfectly healthy; consequently all sickness and pain is driven from the system, for they cannot remain when the bedy becomes so pure and clear. This reason why people are so distressed when sick, and why so many die, is because they do not get a medicino which will pass to the allierted parts, and which will open the natural passages for the disease to be cast out; hence, a large quantity of food and other matter is lodged, and the stomach and intestines are literally overflowing with the corrupting mass; thus undergoing disagreeable for-mentation, constantly mixing with the blood, which it throws the corrupted matter through every vein and arte-ry, until life is taken from the body by disease. Dr. Morse's PILLS have added, to themselves victory upon victory, by restoring millions of the sick to blooming health and happiness. Yes; thousands who have been racked or tormented with sickness, pain and auguish, and whose foold frames have been scorted by the burn-ing elements of raging forer, and who have been brought as it were, willing a step of the silout grave, now stand ready to testify that they would have been ner two doess had been taken. After one or two doess had been taken, they were alsolutely ustonished, in with the datal, but they at once go to work at he foundarion of the disease, which is the blood.
