Dr. Morse's Indian Root Pills **PFF. INDUFSC'S INGLAN ROOOT PILLS** D. has spent the greater part of his life in traveling, inaving visited Europe, Asia, and Africa, as well as North America—has spent three years among the Indians of our Western country—th was in this way that the Indian Root Pills were first discovered. Dr. Morse was the first man to establish the fact that all discasses axises from *Impurity* of the Blood—that our strength, health and life depended upon the various passages become closered, and do not

be stabilish the fact that an discass arise from impurey of the Biood-that our strength, health and life dopended upon the vital fluid. When the various passages become clogged, and do not act in perfect harmony with the different functions of the body, the blood loces its notion, becomes thick, corrupted and diseased; thus causing all pains, sickness and distress of every name; our strength is exhausted, our health we are deprived of, and if nature is not assisted in throwing off the etagnant humors, the blood will become cholted and cause to act, and thus our light of life will forever be blown out. How important then that we should keep the various passages of the body free and open. And how pleasant to us that we have it in our power to put a med-licino in your reach, namely, Morse's Indian Root Pills, manufactured from plants and roots which grow around the mountainous cliffs to Nature's garden, for the health and recovery of diseased man. One of the roots from which these Pills are made is a Sudorific, which opens the porce of the skin, and assists nature in throwing out the funce parts of the largs, and thus, in a soothing manner, performs its duty by throwing off plegm, and other hu-more from the lungs by opious spitting. The stard is a Diarotic, which gives case and double strength to the kid-neys; thus encouraged, they draw large amounts of im-purity from the blood, which is then thrown out bounti-fully by the urinary or water passage, and which could not have been discharged in any other way. The fourth is a Cathartic, and accompanies the other properties of the Pills while engaged th purify my the blood; the cour-te of any the the shorth is the other of as by the other and the set of impurity which cannot pass by the other
