It has within its limits one hundred and seventy families, all white except one, and they keep dark about it. There are one hundred and sixty-five voters, and during the last twenty years there has been no fight or quarrel at any election held in the township. It contains seven school houses, seven road districts, seven bachelors, and soven large men; three churches, three preachers, three pair of twin boys, three fiddlers, three carpenters, three post offices, three crazy men, and three over seventy-five years old. AN AFFECTING INCIDENT. We are indebted to Mr. L, recently returning from a whaling voyage, for the following ouching narrative :

On the home voyage of one of our Liverpool packots, she being crowded with emigrants, that wful scourge, the ship fever, broke out. The carpenter of the vessel, one of nature's noblemen, and having on board his little son, a lad of some twelve summers, was one of the first Victims .---His shipmates sadly enclosed his body in his hammock, and having read over him the buria l ervice, and attached to his feet a grindstone for the purpose of sinking him, committed it to the embrace of old ocean. The poor boy, overcome with grief at the loss of his natural protector, sprang overboard, and before he could be rescued, was beyond the reach of human aid.

On the day following the burial, a large shark was noticed in the wake of the ship; and as it was almost calm, the sailors asked permission to catch it, which was readily granted by the captain. Having procured a hook and attached a chain and line, and baited it with pork, they cast it overboard, and soon had exciting pleasure of hooking the monster, and with the aid of the windless, hauled the writhing mass on board. As it lay on the deck in its death struggles, the sailors heard a singular rumbling noise, that seemed to proceed from within, the writhing captive .---Taking a ship aze, they soon cut their way into the new dead fish and to their great suprise, found that it had evallowed the carpenter, grindstone, and boy, and that the former (who had only wooned) had rigged up the grindstone, and with

the assistance of t he boy to tarn it, was grinding his jack knife to cut his way out.
