THE "COLUMBIA SETAT."-The Mexicans gravely assert now that the reason why the North Americans, as they call the Yankee nation, want more territory, is because they need the room to accommodate their wives and daughters.

The son of a worthy deacon, whose father was away from home, undertook to say the family prayers—the prayer he had been accustomed to hear every evening since the days of his boyhood. He commenced aright, and for a time got on swimmingly-quite astonishing his mother, who had no idea she had such a telented son. At last, when he was in the midst of his invocation, his memory foresook him, and he repeated the first part of the prayer over again. This he did several times, till at length the patience of the old dame was thoroughly exhausted. 'John,' she whispered, "do get through sometime." "I would, mother," replied the poor boy, "but I do not know how to wind the plaguy thing up?"

Webster had an anecdote of old Father Searl, the minister of his boyhood, which never has been in print, and which is too good to be lost. It was customary then to wear buckskin breeches in cool weather. On Sunday morning in the autumn, Father Searl brought his down from the garret: but the wasps had taken possession during the summer, and were having a nice time of it in them. By dint of effort he got out the intruders, and dressed for meeting. But while reading the Scriptures to the congregation, he felt a dagger from one of the enraged small waisted fellows, and jumped around the pulpit, slapping his thighs. But the more he slapped and danced the more they stung. The people thought him crazy, and were in commotion as to what to do; but he explained the matter by saying: "Brethren, don't be alarmed; the word of the

Three-fourths of the patent nostrains now in use are put up by unprincipled and ignorant persons who do not understand even the alphabet of the Materia Medica, and are equally as destitute of any knowledge of the luman system, having one object only in view, and that to make money regardless of consequences.

Dr. Gustav Linnard's laste iccstorative inches, the Great Substitute for Tobacco in a well known and incontrovertable fact that the I use of Tobacco is the promoting cause of many of the most severe Mental and Physical Disorders to which the race of man is subject, as careful analysis and long and painful experience have clearly proven that it contains certain narcotic and poisonous properties most dangerous in their effects, which by entering into the blood deriange the functions and operations of the Heart, causing many to suppose that organ to be seriously diseased.

TOBACCO affects also the entire nervous system; manifesting itself—as all who have ever used, the noxious weed will bear testimony—in Lassitede, Nervous Irritability, Water Brash, Dyspepsia, and many other disorders of a similar character.

THE TASTE RESTORATIVE TROCHES

Are designed to counteract these baneful influences, and have proved completely successful in a multitude, of cases, and wherever used. Being harmless in themselves they exert a beneficial effect upon the entire system, restoring the Taste which has become vitiated or destroyed by great findulgence, completely removing the irritation and accompanying ticking sensation of the Throat—which are always consequent upon abstaining from the use of Tobacco, and by giving a healthy tone to the Stomach, invigorate the whole system.

Persons whe are irretrievably undermining their constitutions and shortening their lives, should use these Troches immediately and throw of the injurious and unpleasant habit of Tobacco Chewing.

These Troches or Lozonges are put up in a convenient and portable form at the low price of 60 Cents per lox. A liberal discount to the trade. Prepared solely by the undersigned to whom all orders should be addressed.

The records of the Insane Asylums, and the melanciably deaths by Consumption, bear ample witness to their this of these assertions. In Lanatic Asylums the most melancholy exhibition appears.
