The first parade will take place on the 2d Christ-

mas.

Owing to some misunderstanding in relation to lighting-up of the Court-house on Saturday evening, the Water Meeting was not hold. The Report of the Engineers is now 181 branch pipes, 181 branch pipes, 181 branch pipes, 181 branch pipes, 181 or an engineers. laid before the public through the medium of the newspapers.

## SUPPLYING LEBANON WITH WATER. Report of the Engineers.

To the Presidents and Councils of the Boroughs

GENTLEMEN:-In obedience to your instructions to examine that part of "the Gravel Ridge" in the vicinity of North Lebanon, with a view of Mr. HAGE: obtaining a supply of water for the use of the two boroughe, we begloave to

REPORT: That this examination took place the beginning of the present month, when all the streams were very low from the long continued absence of rains, and the result of our calculations, as to their contents, we believe, may therefore be relied upon, as the minimum supply. Some of the streams, which we examined, were too remote, and at the same time of so small a capacity, that we have come to the conclusion to leave them out of the estimate as not availabe. Among

commensurate uso. which feed the Reservoir: .

101.52 Gallons, This amounted to Shaffer's Spring delivers 38.94 do. And two smaller springs near

38.94 do. it also Making the total natural 179.40 Gallons, flow, per minute of Or equal to 258,336 Gallons in 24 hours.

From information kindly furnished us by B. B. Lehman, Esq., Resident Engineer of the Union Canal Company, we learn, that Steever's Reservoir, when full, contains one million Cubic feet water; covering about eight Acres of land .-This will add to our supply 16.784 Gallons per day for every time it is filled, and might be ade. quate to the wants of the community, if refitted at regular intervals and without wasting over the Dam, what ought to be stored up within it

for dry seasons. To remedy this difficulty, so much as circumstances will permit, we recommend to your con- Pl sideration the enlargement of this Reservoir by A raising the embankment, forming the present Cl Dam, so as to make it hold ten feet in addition to Co its present depth of water. In that case it will Di cover, when full, 24 Acres and 51 Perches and L contain 7.878.124 Cubic feet Water. It is known | F to the officers of the Union Canal Company, that a brisk rain falling to the depth of two inches, S will fill the present Reservoir to overflowing : 153 | inches will consequently do the same to this enlarge one, and it is to be presumed, that this C quantity may be relied upon every year in the Spring and fall freshets, independently of occa- S sional showers to compensate for evaporation and I absorption. Indeed we are of the opinion, that | N generally the dam will be filled twice in each year | B and, that for the greater part of the fall, winter | I and spring, it will be nearly full. We will how- I ever go back to the Reservoir being filled but | Huntingdon, once a year, viz: 7.878.124 Cubic feet, or in Montour, round numbers 48.250,000 Gallons. Carbon

This will give us in a day 132,000 Gallons And we have a natural flow of 258,000 do

Or a total supply for 24 hours of 390,000 Gallons nd if twice filled, 522.000 Gallons a day. We think a medium between these, or 450,000 Gallons por day, may be always relied upon as the minimum supply.

A few references to the consumption of rater in cities may be interesting, and we we will quote some that may be considered authentic though not of very recent date. In 1834, eight Water Companies in London supplied it with 4.517 000 cubic feet per day, or about 1631 gallons to a house, and if ters, &c., printed at the Advertiser office, at low the family consisted on an average of seven rates and short notice—and in the most elegant persons, about 23 gallons a day to each in

Ed. nburg uses 19 gallons a day to each individual and 280,000 gallons are permitted to run to waste daily.

In Greenock, with its R servoir of 296 acres, containing 284 000 000 cubic feet of

water, they calculate 15 gallons per day to

In Scotland, Engineers consider nine gal lons a day the minimum for each individual, in London 20 gallons, but in Paris only a Correction.—The presentation little over 5 gullens daily to each person. the Flag by Mr. Goesaman, noticed last week, In Philadelphia they averaged in 1831 2 000.000 gallons daily, but in the summer there were 3.000 000 consumed every day.

Taking therefrom 20 gallons a day for John Long sold 124 acres of land the supply of each individual and cur re-Swatara, to Daniel Stauter, at \$762 per acre. sources of 450 000 gallons, we would be able to support a population of 22 500 inhab itants with water for their daily use, per haps three times the amount of the present

> The plan of bringing this supply into use. in addition to the enlargement of the Res ervoir, as above described, consists in ma king another Reservoir or basin for distribution, near to Shaffer's spring, the surface of which we design to be on a level with the spring, or about eighteen feet higher than Hill street crossing Market street, or the highest point in Lebanon. This basin should be at least one hundred feet square on the bottom and hold fourteen feet in depth of water, containing about 1,255,000 gullons, to be supplied from the springs con stantly flowing into it and always to Le kept full from the Stoever Reservoir by means of an iron pipe and proper stop cock to guage the requisite quantity of water, so as to suf fer no overflow or waste. From this basin the conduct pipes are taken into the 10wn below, or south of the canal; while that part Gravel Ridge, should be supplied by means of an independent pipe taken from Steover's Dam direct, so as to gain the advantage of the elevation of this Reservoir for the supply

side of the ridge.
The great advantage in this mode of supplying a town with water, is evident on re flecting, that no machinery and the consequent cost of its construction, maintainance and keeping in motion will be incurred, as

We will next subm the you our estimate of the cost of constructing the work according to the plan recommended.

2) Acr s of Land for two lieservoirs @ \$100, \$2000 00 7000 cable yards exercises of Reservoirs, at 840 00 \$12 per foot, 9125 cubic yards embankment of Reservoirs, at 1368 75 \$15 per foot, 2900 cubbe pards puddling of Reservoirs, at \$25 per foot, 195000 brick for lining the lower Reservoirs, at 1340 00

Fence tround Basin sence troung masin. Superintendence and incidental expenses,

To which should be added the price of purchasing the old Reservoir with its water privilege from the Union Usual Company.

All which is respectfully submitted.

HOTHER HAGE, Chief Engineer.

Lebanon, Pa., Sept. 22, 1854. The following letter was received from Crawford and Warren,

Mr. Hyaicka:—This morning I paid a visit to the Water Works and examined the machinery for pumping.—The Pump is 8" diameter with 5' stroke, working 20 revolutions in a minute for 10 hours a day, as Mr. Fackier told me. They use 1½ ton of coal a day. This gives 256,627 guiltons a day and at 20 guilbins for each individual, will supply 12 800 people with water. Not far, I think, from our population.

Huntingdon,
In this calculation I have not deducted the size of piston rod, which in the return stroke diminishes the volume of the pump so much.
I am pretty confident our estimate for Lebanon is liberal in every way.

Yours,

HAGE.

Huntingdon,
Indiana.

Jeff., Clearf'd

Lancaster,
Lobanon,

For the Lebanon Advertiser. Mn. Epiron :- Since the termination of the these are three Springs constituting the Eastern | Fair held by the Lebanon County Agricultural Branch of "Brandywine Run," which in their and Horticultura Society, the inquiry has been combined strength at "Rudy Miller's Dam" give repeatedly addressed to me as Treasurer of the 32 4.10 Gallons (of 282 Cubic inches) per min- | Society, as to the receipts for tickets of membernte. But as the surface of this Streum at that ship, but more especially as to the receipts at the point, is nearly on a level with the water in the entrance during the days of the exhibition, and Union Canal, and less than four and a half feet | also what have been the expenses of the Society, higher than "Hill street" at its crossing of Mark- and what is its present condition? To those who et street in Lebanon, we deem it best to omit it have made these inquiries of me I have stated, in our calculations, especially, as the nature of | that I have been relieved from the cure of the the ground is not favorable to the location of a funds of the Society by the usurpation of the Reservoir for gathering a supply of water during | Corresponding Secretary, who has not only rethe prevalence of rains, &c. Another small ceived the receipts during the days of the exhistream to the East of the point where the Feeder bition, but has also undertaken to receive the from Stoever's Dam enters the Union Canal, we fees of membership, and has not accounted to me doesned too small and too remote to be of any for either or any portion thereof. - By what authority he assumes these rights I am at a loss to Our resources for supplying the Boroughs with imagine. And I wish through your paper to give water are therefore confined to the Old Stoever's the above answer to all the members of the Soci-Dam and some Springs flowing into the Feeder, ety, to save them the trouble of making the inwhich issues from the Dam near John Shaffer's quiries of me, and I wish also to call the atten-House. The water in Stoever's Dam we found tion of the members to Art. VIII of the Constiso low, that the sluice gate was entirely open and | tution and Art. IV of the By-Laws, prescribing the discharge out of it only amounted to the the duties of the Corresponding Secretary, and to supply flowing into it from the various Springs Art. X of the Constitution and Art. II of the By-Laws, prescribing the duties of the Treasurer .-

And at a meeting of the Board of Managers a Resolution was adopted requiring all persons who had received tickets of membership to dispose of, to account to the Treasurer therefor, on or before September 20th, so that the accounts of the Treasurer might be in a proper condition for the inspection of the members. The Corresponding Secretary had some 1150 tickets of membership of which he has rendered no account to me notwithstanding the provisions of the Constitu-

tion, of the By-Laws and the foregoing resolu-Tr. Leb. Co. Agr, & Hor: So. THE VOTE FOR SUPREME JUDGE.

Holloway's Pills.—General debility and consumption or wasting of the flesh without any apparent cause, are manefe stations of disease that puzzle the faculty. The tonics and the aperients of the established pharmacopæin do not reach them, and all mineral preparations hasten the progress of decay. In such cases the reproductive power of the blood is gone. They waste of anture goes on, and the sickly and diluted fluid which circulates through the venous system can-Iorn Rings, Gilt Rings, Bracelets, Necklaces, dass Rings, Perfumery.

\*\*Part Comparison of the Hall of the Union Fire Co.

A T a regular meeting held October 11,
the following resolutions were adopted:
Resolved, That the sincere thanks of the Union Fire
Company are hereby tendered to the ladies of Lebanon
who assisted so assiduously in the preparation of articise
for the Edir, and in their disposal.
Resolved, That we feel ourselves deeply indebted to the
members of the Independent Brass Bund, of North Lebauon, for their attendance and excellent music on the
occasion of the late Fair.
Resolved, That we cannot forget the kindness manifeeded toward-us by Conrad H. Bundrer, and that we
will reciprocate all the favors shown us by our frien Is in
general, when duty calls us into 'ae'ive Service.'
Resolved, That these proceedings be published in the
newspapers of Lebanon.
JHN C. LASCOMB, Sec.

Engineer and Superintendent.

Fifty Dollars Forfeit.

Piffy Bollars Forfeit.

Dr. Hunter will Forfeit \$50 if failing to cure any case of secret disease that may come under his care, no matter how long standing or afficiting. Either sex are invited to his Private Rooms, 44 North Seventh St., Philadfa, without fear of interruption from other patients. Strangers and others who have been unfortunate in the selection of a Physician are invited to call.

IMPOTENCY—Through unrestrained indulgence of the passions, by excess or self abuse, the evils are numerous. Premature impotency, involuntary seminal discflarges, wasting of the organs, loss of memory, a distaste for female society, general debility, or constitutional derangement, are sure to follow if necessary, consult the Doctor with confidence; he offers a perfect cure.

READ AND REF.ECT.—The afflicted would do well to reflect before trusting their health and happiness, and in many cases their lives, in the hunds of physicians ignorant of this class of mahadies. It is certainly impossible for one man to understand all the lils the human family are, subject to. Every respectable physician has his peculiar branch, in which he is more successful than his brother professors, and to that he devotes most of his time and study.

YEARS OF PRACTICE, exclusively devoted to the study and treatment of diseases of the sexual organs, together with ulcers upon the body, threat, nose, or legs, went in the bead or hones mercurial the manuarian strice. YEARS OF FRACTION, exaministry devoted to the study and treatment of diseases of the sexual organs, together with uleers upon the body, throat, nose, or lega, sums in the head, or bonés, mercurial rheumatism, strictures, gravel, irregularities, diseases arising from youthell excesses, or impuritios of blood, whereby the constitution has become enfectbled, enables the Doctor to offer speedy relief to all who may place the mercure under his care.

care.

WALTZ & REDEL have made a large addition to their already large stock of the famous Eagley Gold Pen.

NEW ADVERTISEMENTS.

MEDICAL MANUAL

Being an original and popular Treatise on MAN AND WOMAN:

"MAN AND WOMAN:

"HEIR Physiology, Functions and Sexual Disorders of very kind, with never failing Remidles for the speedy cure of diseases of a private and delicate character, incident to the violation of the Laws of Nature's dod. PRICE TWENTY-FIVE CENTS.

PRICE TWENTY-FIVE CENTS.

The author of the above volume is a graduate, and having devoted a quarter of a century to the study and treatment of Spythiis and treatment of service into vade mecum compass the very quintessence of medical science on this important subject; as the result of the experience of the most eminent physicians in Europe and America is thoroughly demonstrated in his own highly successful practice in the treatment of secret diseases in many theusands of cases in the city of Philadelphia alone.

ret diseases in many thousands of cases in the city of Philadelphia alone.

Testimony of the Prof. of Obstretrics in Penn. College, Philadelphia.

DR. Hunten's Medical Manuel.

The author of this work, unlike the majority of those who advertise to cure the diseases of which it treats, is a graduate of one of the best Colleges in the United States. It affords must be the victim of mal-practice, as a successful and experienced practitioner, in whose honor and integrity they may place the greatest confidence.

JOSEPH S. LONGSHORE, M. D.

From A. Woodward, M. D., of Penn. University, Philadelphia.

It gives me pleasure to add my testimony to the professional ability of the Author of the "Medical Manual." Numerous cases of Diseases of the Genital Organ, some of them of long standing, have come under my notice, in which his skill has been manifest in restoring to perfect health, in some instances where the patient has been considered beyond medical aid. In the treatment of Seminal weakness, or distrangement of the functions produced by \*\*Self-abuse.\* or Excess\* of venery, I do not know his \*\*superior\* in his profession. I have been acquainted with the Author some thirty years, and deem it no more than justice to him as well as a kindness to the unfortunate victim of early indiscretim, to recommend him as one, in whose professional skill and integrity they may safely confide themselves.

ALFILED WOODWARD, M. D.

One copy, securely enveloped, will be forwarded free of postage to any part United States for 25 cents, or 6 copies for \$1. Address, post paid, COSDEN & CO., Publishers, box 197, Philadelphia.

Sixteen Years in the Wilds

SIXICEN YEAR'S IN the Wilds of Africa.

1000 AGENTS WANTED to Sell Dr. LIVING-STONE'S TRAVELS AND EXPLORATIONS during a residence of 16 years in the Wilds of Africa.

This is a work of thrilling adventure and bair breadth escapes among savage beasts and more savage aren.—Dr. Livingstone was alone and unaided by any white man. traveling with African attendants, among different tribes and nations, all strange to him, and many of them hostile, and allogether forming the most astonishing Book of Travels the world has ever seen. All our Agents acknowledge it as the most saleable book published. The most liberal commission made to Agents, in small or large quantities —For particulars, address —J. W. BRADLEY, Publisher, 48 North Fourth Street, Philadolphia, Pa. Copies sent by mail, free, or receipt of the price, \$1,25.

NOTICES OF THE PRESS.

From among the hundreds of favorable notices, from the most respectable journals of the country, of our cheap edition of "Livingstone's Travels and Explorations in Africa," we take the following.

"It abounds in descriptions of strange and wonderful scenes, among a people and in a country entirely new to the civilized world; and altogether we regard it as one of the most interesting books issued within the past year—Daily Democrat, Pattlerson, N. J.

"It is emphatically an edition for the people; and judging from the rapid sale with which it is meeting, it is fully appreciated by them,"—Christian Freeman, Joseph 1997. NOTICES OF THE PRESS.

"The book is having a great run, and will be read by every reading man, woman and child, in this as well as other lands."—Ashtabla (Ohio) Telegraph.
"The work is finely illustrated, well printed and firmly Brocha Bard, Stella Shawls,

Mantelet Blanket Shawls,

Mantelet Blanket Shawls,

Mantelet Stella Shawls,

THE

FOR IT RESTORES PERMANENTLY GRAY HAIR I'UR IT RESTURES PERMANENTLY GRAY HAIR to its original color: cover- luxuriantly the bald lead; romoves all dandruff, itching and all serofula, scald head and all eruptions; makes the hair soft, healthy, and glossy; and will preserve it to an imaginable age, removes, asif by magic, all blotches: &c., from the face, and cures all neuralgia and nervous head ache. See circular and the following.

Dover. N. H., Feb. 2d. 1858.

PROF. O. J. WOOD & CO.—Gents: Within a few kys we have received so many orders and calls for Prof. O. J. Wood's Hair Restorative, that to-day we were compelled to send to Beston for a quantity, (the 6 dozen you forwarded all being sold,) while we might order a quantity from you. Every bottle we have sold seems to have produced three or four new customers and the approbation, and patronage it receives from the most substantial and worthy citizens of our vicinity, fully convince us that it is A MOST VALUABLE PREPARATION.

Send its as soon as may be one gross of \$1 size; and one dozen \$2 size; and believe us yours very respectfully.

DANIEL LATHROP & Co.

(Signed) DANIEL LATHROP & Co.

Hickory Grove. St. Charles Co., Mo., Nov. 19, 1856.
PROF. O. J. WOOD—Dear Sir: Some time last Summer we were induced to use some of your Hair Restorative, and its effects were so wonderful, we feel it our duty to you and the afflicted, to report it.

Our little son's head for some time had been perfectly covered with sores and some called it scald head. The hair almost entirely came off in consequence, when a friend, sceing his sufferings: advised us to use your Restorative, we did so with little hope of success, but, to our surprise, and that of our friends, a very few applications removed the disease entirely, and a new and huxuriant crop of hair soon started out, and we can now say that om, boy has as healthy a scalp, and as huxuriant a crop of hair as any other child. We can therefore, and do hereby recommend your Restorative, as a perfect remely for all diseases of the scalp and hair. We are and do hereby recommend your Restorative, as a perfect remedy for all diseases of the scalp and hair. We are, yours respectfully, CHONGE AV HIGGINDOTHAM

Gardiner. Maine, Fune 22, 1865.

PROF. O. J. WOOD—Dear Sir: I have used two bottles of Professor Wood's Hair Restorative, and can truly say it is the greatest discovery of the age for restoring and changing the hair. Before using it I was a man of seventy. My Hair has now attained its original color. You can recommend it to the world without the least fear, as my case was one of the worst kind-Yours Respectfully, DANIEL N. MURPHY.

O. J. WOOD & CO., Proprietors, 312 Broadway, N. Y., (in the great N. Y. Wire Railing Establitment) and 114 Market street, St. Lonis, Mo. 43-Sold in Lebanou by JOERFH L. LEMBERGER, also by Dr. Ross, and by all good Druggists everywhere.
