Robbery.—On Wednesday night week, the store room of Mr. Martin Early, at almyra, was broken into by robbers, his safe iken out, the lock blown off with powder, and tween four and five hundred dollars taken thereom. The robbers have not yet been arrested

We made a trip, accompanied by friend, to the Kittatiny Mountains last week for Chestnuts. It suffices to say that we did not get any. There were none there to get. We saw two rabbits, several squirrels, two men, no snakes, and a good deal of hard "tudging," the last of vhich gave us a magnificent apporite.

Vice President Elected .- J. Duton Steele, Esq., of Pottstown, has been elected Vice President of the Reading Railroad Co. The choice is a fortunate one, inasmuch as Mr. S. is well acquainted with the affairs of the Company, having been connected with it since December, 1846, when he was chosen Chief Assistant Engi. neer, with the charge of the roadway department.

Jonathan Geesaman sold a frame Dwelling House and 1 lot of Ground, in Weidman's addition to Lebanon, to John Bretz, for \$625.

The Shor ff sold on Tuesday of last week, John II. Witmoyer's new brick dwelling house, on Cumberland street, East Lebanon, to Philip Arentz, for \$1600.

Also Fred. Shott's frame dwelling house, and 3 lots of ground, in this borough, to Peter Shott,

A Child Trap.-We have been requested to call attention to the foot crossing of the Quittapahilla, in Walnut st., as a dangerous place. There is but an ordinary wooden railing, and the water immediately underneath is frequently 21 to 3 feet in depth. Should children fall in they would meet almost certain death by drowning. Let the side of the bridge be boarded up:-It is true there are many other places in and two-thirds full of coal, even in the coldest weathabout town equally dangerous, but, nevertheless, er. let this one be made safe, and there will be one less child trap.

-personally; but politically we can have no affinities with them. The present incumbent, Mr. Magraw has made an excellent officer, and if numbers were not against us, would be preferable to any which the opposition suggest for the position. The list however, is not full, as given above. We have heard it intimated that our which he kept a bull, with a pitchfork in his hand townsman, Levi Kline, Esq., is strongly urged for the Treasuryship in certain high quarters .- | animal out. About an hour after a person call-Lebanon county certainly has claims upon the ed at his house to invite him to preach a funeral opposition which cannot be overlooked. On she stands in the front rank-always casting her looking for him he was found dead, the body tossmajority against the democratic party and its ed over the fence several rods from where the immutable and indestructible principles which ever can but tend to perpetuate our popular form of government. But we think nevertheless that Lebanon county is right in coming forward, since the opposition onjoys a triumphant position—but which we believe to be only of a temporary character-to present a man to the "manor born" like Mr. Kline, who would make a capital officer and do honor to the party and commonwealth.

A Lesson for Lovers .- One of those old fogies, who thinks that people are worse now than they ever were before, groans in tribulation at the manner in which young mechanics and clerks rush hot-headed into matrimony, in these degenerate days, without having adequate provision for the support of a wife. The infatuated victim marries and takes a house which he proceeds to furnish twice as expensive as he can afford, while his partner, instead of taking hold to help him to earn a livelihood, by doing her own work, must have a hired servant to belp her spend his limited earnings. Ten years afterwards, you will find him struggling on under a double load of debts and children, wendering why the luck was always against him, while his friends regret his unhappy destitution of financial ability. Had they from the first been frank and honest, he need not have been so unlucky. The world is full of people who can't imagine why they do not prosper like their neighbors, when the real obstacle is not in banks or tariffs, in public policy nor hard times, but in their own extravagance and needless estentation. Exactly.

ATTEMPT TO MURDER A CLERGYMAN IN HIS PULPIT.-Last evening, at about eight o'clock, a Frenchman named Lewis Berriers, entered the possible. A man named A. T. Green, a PENNSYLVANIA ELECTION.-OFFICIAL. tavern keeper of Highspire, Dauphin county, was arrested last week by the U. S. Commissioner, on a charge of counterfoiting. He was taken to Adams, Philadelphia, and held to bail in the sum of \$3,- Allogheny, Philadelphia, and need to buil in the sum of \$\varphi\_0\$;
500 to answer. A lorge amount of counterfeit Beaver, money was found in the out-house and in vari- Bedford, ous other part of the premises, which he alleges Berks, was placed without his knowledge. The Patriot Blair, & Union has the following, in relation to the Bucks,

GREEN THE ALLEGED COUNTERFEITER-A Sus- Cambria, ricion .- It is with no desire to prejudice the Carbon, public mind against Green, the alleged counter- Chester, feiter at Highspire, that we give atterauce to a Charion, suspicion which has been promulgated, that he Clearfield, is in some way connected with a gang, of which Clinton, Columbia, the two counterfeiters killed in May, 1856, on the Crawford, Pennsylvania Railroad were a part. The fact of his having been held in the sum of \$3,500 to an- Dauphin, day and Sunday, the 13th and 14th of November, swer the charge at court is proof presumptive Delaware that the United States Commissioner considered the evidence strong.

The circumstances of the death of Vickroy and Graeff has just received a fine smith, in 1856, must yet be fresh in the minds of our readers. They were walking on the track le are desired to call soon as the article is scarce of the Pennsylvania Railroad from Middletown to Harrisburg, when they were run over and killed. On their persons mere found dies, counter- Jefferson, feit coin, &c., and in the house of Smith, in this place, plates were discovered for the manufacture

of counterfult bank notes. Suspicion says that these two men visited Mid- Lehigh, dietown for the purpose of holding communicadletown for the purpose of holding communication with their confederates, and that they stopped at Highspire, or intended to do so. Who were Mercer, the confederates? Were they the men who, as Millin, Mr. Green might say, placed the counterfeit money recently in different parts of his premises, or does suspleion fall upon the occupant of the es-

tablishment? At the next term of court it is expected that the wife of one of the men who was killed will Pike, come forward as a witness in a pending case, and Potter, urther developments may be expected.

We may state, in this connection, that some Sayder, time since a certain A. T. Green was accused of Sullivan, passing counterfeit money in Cumberland coun- Susquehanna, 1954 passing counterfest mounty in Counterstands and suit is ty. His recognizance was forfested, and suit is now brought for its recovery. Was this the inn-Venange, seeper at Highspire? It'so, and if he has been Warren, peretofore accused of illegal acts, we can be do- | Washington, ing no injustice by the publication of the suspiion that he is an accomplice of a gang.

Certain it is, that if Mr. Oreen is entirely inno- York, cent, he is a misused man. His advocates are many, but in the fulfilment of our duty as public jaurnalists we have only thought right to lay the Frazer's maj. above remarks before those whose duty it is to investigate the matter. One question naturally Penusylvania Legislatte-1859. recurs to the mind. If Mr. Green was not a counterfeiter at Highspire, and a confederate of Complete List of the Members of th Houses. the two victims, are there any of the real confederates or present criminals at that place? How to Bunn Coal .- Nine out of ten who attempt to burn coal in a stove, waste about as much coal as is necessary to be consumed for the obtaining of all the heat desirable. Observe the following simple rules, suggested by a contemporary, and few who adopt the burning of coal will return to wood fires. We will suppose the stove cleaned out.

First, to make a coal fire. Put in a double handful of shavings, or use light kindling wood instead. Fill the earthen cavity (if the stove has one) nearly full of chunks of dry wood; say four or six inches in length. On the top put about a dozen lumps of egg coal. In ten minutes add about twenty lumps more of coal. As soon as the wood has burned out, fill the cavity half to twothirds full of coal. The fire will be a good one. The coal will, by these directions, become thoroughly ignited.

Second. Never fill a stove more than half or

Third. When the fire is low, never shake the grate or disturb the ashes; but add from ten to william P. Schell, Democrat.

Fourth. For very cold weather. After the fire is made, according to rule first and third, add This is a strong array of names every hour about fifteen or twenty lumps of coal. You will find that the ashes made each hour will be in about that ratio.

A CLERGYMAN KILLED BY A BULL.-Rev. Samuel C. Parker, of Hinckley, Medina county Ohio met with a terrible death on last Sunday week the 10th inst. He was seen to go into a field in for the purpose, as it is supposed, of driving the pitchfork was lying. The horns and head of the bull were bloody, and the blood and marks on the ground indicated that the unfortunate man was gored and pitched along by the vicious animal from where the pitchfork was dropped to the fence, and then tossed completely over it.

For the Lebanon Advertiser. MR. Lehigh and Garbon then, the superior advantage of the plan must strike every observer at a glance into it. The TH Good, D Railroad has not been of that advantage to the town, that it was expected it should be, and the idea I propose will be infinitely superior to it in Holloway L Stevens, D all respects. I propose then that we have a ship canal from a point on the Susquehanna River somewhere below Harrisburg, uniting with the Delaware river not far from Philadelphia. I propose that it should be at least one hundred yards wide, and deep enough to admit any vessel that can come to Philadelphia. The advantages of this plan will be better understood when we tell the public that we could thus be to tally independent of the Philadelphians, and their "clearing house system." Of course, we must expect their opposition to the scheme, but, we have become used to that, whenever any of the towns or sister cities of Penusylvania have proposed anything to the Legislature that would be of advantage to themselves. I have not made an estimate of the probable cost of the Canal, but I presume it would not cost over a few millions, and what is that when an undertaking of such magnitude is C L-Pinkerton, Op proposed? The canal would of courso run some-WCA Lawrence Marks D Whitma where between the town and Cornwall Furnace, but it would be better to have it as near town as

Holloway's Pills .- When the great internal organs perform their functions irregularly, life seldom reaches its ordinary limit, and a vigorous old age is impossible. All spasmodic action of the secretive apparatus is praductive of proma-ture decay, and the lethargy and sluggishness of the stomach and the liver is equally unfavorable to longevity. One of the most mestimable prop-erties of these Pills is their regulating power.— Their operation varies according to the condition of the system, being restrictive where torpidity exists. They produce a wonderful effect upon the pulse, improving it when feeble, and calming it down when too full and rapid. To bring the whole system into perfect harmony with the laws of health, is the object they are designed to fulfil, and they accomplish it.

MEDICAL MANUAL Being an original and popular Tra MAN AND WOMAN: MAN AND WOMAN:

THEIR Physiology, Functions and Sexual Disorders of
very kind, with never failing Remidles for the
speedy cure of diseases of a private and delicate character, incident to the violation of the Laws of Nature and
of Nature's God.

PRICE TWENTY-FIVE CENTS. The author of the above volume is a graduate, and having devoted a quarter of a century to the study and freatment of Spyliilis and address as a speciality, he has become possessed of most invaluable information in regard to the fame, and is able to compress information in regard to the same, and is able to compress into vade mecum compass the very quintessence of medical science on this important subject; as the result of the experience of the most eminent physicians in Europe and America is thoroughly demonstrated in his own highly successful practice in the treatment of secret diseases in many thousands of cases in the city of Philadelphia alone.

Philadelphia aione.

Testimony of the Prof. of Chstretrics in Penn. Collogs, Philadelphia.

"Dr. Hunter's Medical Manuel." The author of this work, unlike the majority of these who advertise to cure the diseases of which it treats, is a graduate of one of the best Colleges in the United States. It affords me pleasure to recommend him to the unfortunate, or to the vicilia of mal-practice, as a successful and experienced practitioner, in whose honor and integrity they may place the greatest confidence.

JOSEPH S. LONGSHORE, M. D.

From A. Woodward, M. D., of Penn. University, Philadelphia.

1t gives me pleasure to add my testimony to the professional ability of the Author of the "Medical Manual." Numerous cases of Diseases of the Genital Organs, some of them of long standing, have come under my notice, in which his skill has been manifest in restoring to perfect health, in some instances where the patient has been considered beyond medical aid. In the treatment of Seminal weakness, or disarrangement of the functions produced by Self-abuse or Excess of venery, I do not know his superior in his profession. I have been acquainted with the Author some thirty years, and deem it no more than justice to him as well as a kindness to the unfortunate victim of early indiscretion, to recommend him as one, in whose professional skill and integrity they may safely confide themselves.
