WERN DEMOCRATIC PRINCIPLES CRASE TO LEAD, WE GRASE TO FOLLOW."

- WM: M. BRESLIN, Editor and Proprietor.

LEBANON, PA.

WEDNESDAY, NOVEMBER 3, 1858. THE VERDICT ON LECOMP-

TONISM. It is fashionable now, since the elections in Ohio, Pennsylvania, and Indiana have taken place, and resulted disastrously to the Democratic party, to ascribe those reverses to the course pursued by Mr. Buchanan and the party, last winter, in reference to the Kan--sas question. Lecomptonism, it is said, vessel has been stranded, and hence that it has been overwhelmingly repu-National men who had stood by him on the great issue, signally and irredeemaenot pretend to say to what extent this one brotherhood. Our educational institutions question entered into the recent concontradiction, that if Democratic or Opposition majorities in the different States loyed unusual health, and we are blessed with an of the Union, furnish any index of pub-"fic topinion on this subject, then has the position of the President and the party | embarrassments; confidence is being restored, and been triumphantly sustained and vindicated. Since the passage of the Eng. lish Compromise Bill, elections have coccurred in the subjoined States, with the following results:

Opp. Majorities. nusylvania, 28,000 Dem. Majorities. 28,000 Missouri, 15,000 Kentucky, 8,000 4,000 Georgia, Florida. S. Caroliha, (say)20,000 California, 8,000 N. Carolina,

114.500

Majorities for Lecompton, Majorities against Lecompton,

59,500 Majority in favor of Lecompton, It may be said in reply to this, that the States in which the largest majori--ties have been given for the Democratic party, and hence for Lecompton, are Southern States, and that, as an expression of popular opinion on this subject, they are entirely worthless, and should not be taken into account. Such an objection would only prove the objector, to be an extreme sectionalist, and entirely incompetent to take a broad and comprehensive view, overlooking and be elevated to the Presidency, bound, protect and shield all alike.

Much as we respect public opinion here in Pennsylvania, as expressed through lawful and legitimate channels, we must frankly acknowledge that our confidence has been weakened, for the few past years, in regard to the reliabilsity of its manifestations on the subject of party politics, and of great national questions. Let us give a few instances on this point. In 1852, Gen. PIERCE, the Democratic candidate for President, received over his competitor, Gen. Scorr, a majority in Pennsylvania, of over 19,000 votes; two years thereafter, Gov. BIGLER, the Democratic candidate for Governor, (who use course for three years in the Executive Chair had been upright and faultless,) was beaten by Pollock, the Black Republican and Dark Lantern candidate, about 40,000 votes; last year, on their gubernatorial candidate, the Democratic party swept the State, electing Packer by a plural, at a fire in that city last week "a fireity of about 40,000, whilst this year proof safe, of imposing appearance and they fall behind some 28,000. But this high proportions, standing outside the fluctuation in politics is not confined to | uilding, and apparently out of danger, Pennsylvania alone. It is a character- caught fire and was entirely consumed. istic of almost all the Northern States, An examination showed it to be made as well of New York, Maine, New of common sheet iron, thinner even "Hampshire, Ohio, Indiana, Illinois and than that used for stove pipes, and fill-Michigan, and other States north of Ma. ed in with pine. With a mallet and a son and Dixon's line. But it is not so common sheath knife a man could have in the South-whether it is because cut the whole thing to pieces in fifteen esprofessional office-seeking is not so minutes." -much an evil and an abomination, and therefore that there is less inducement e for demagogues to raise a popular clam-For and violate and to debauch public sentiment, we are not prepared to say. But the fact stands out boldly and sig. nificantly in our National politics, that while we can foretell almost to a certainly how any Southern State will stand on any great public question that may rarise, the future status of many of our Northern States baffles all calculation. The past is no guarantee for the future. As for the principle involved in the
