Snow.—The first snow of this senson tell on Monday morning, and Tuesday was as bitter a day as many a one of Mid-January.

An Interesting Debate.--Next Monday evening the Members of the Franklin Literary Institute will go in Committee of the bole to debate the following question : "Should Capital punishment be abo'ished ?" A spicy de bate may be anticipated, and everybody is invii ed to attend.

A dreadful Accident occurred it Boas, Gasser & Gettle's Planing Mill in this orough, on Saturday morning last, by which a boy named William Bechtel, aged about 14 years, lost his life. They had loaded an ordinary load of boards upon a truck, and were pushing it on a be, and there no doubt is, great straining of conwooden tailroad into the mill, when just at the science among certain persons in making their entrance the load upset, falling upon the boy and Hilling him almost instantly. The boy was assistirg in putting in the load. The principal wound was on the back of the boy's head, which bled profusely. He was a son of George Bechtel, residing near the cast Toll Gate.

Man ander a bed.-On Wednesday evening last while the family of Mr. Charles Shriver, of East Lebonon, were at church, a man 'effected an entrance into the house and hid under a bed occut led by his daughters, on the second floor. Upon retiring to bed the fellow was discovered by one of the children. In the confusion rousequant therean the lights were extinguished. rnd before they could be re-lit, he made his way may not be decided correctly. It is against the down stairs in the dark, threw up a window, system that we are sponking, and we would call but st open a shutter and made his escape. The the attention of the public to the unequal mannixt morning Constable Shantz arrested a man, (the posed to be the one by the girls, and also by Mr. Shriver, who had a glimpse of him,) and h d him committed to prison. It is supposed that theft was the fellows object, but nothing w is disturbed in the house. Previous to entering Mr. Shriver's house, however, he had strip-"bed the clothes' line, in the yard of Mrs. Tice adjoining, of quite a number of shirts, &c., and i laid them ready to take along upon returning fiom his house operations. His hurry to get off come. B., on the other hand, owns \$10,000 of enused him to drop his booty in the alley, where City stocks, yielding an annual interest of 5 per it was found in the morning.

The sermon of Rev. Alfred | FATAL EFFECTS OF INHALING OF COFFEE .- On Cookman, of Philadelphia, on Wednesday ève- Wednesday last, a son of George Cushell, of Ware, ation both of the subject matter and its delivery. The association expect shortly to procure the delivery of a sermon by Rev. John Chambers, another of the eloquent Gospel expounders of Philadelphia.

It is to be hoped that the efforts of the Association will produce an abundance of good fruit, and that their labors in the good cause will be apprenated and encouraged.

On last Wednesday Dav. Shuey, Esq., liberated himself from our County jail, and removed to his old home in East Hanover.

On the same day Samuel Hauck, Esq., of Palmyra, for an act committed on the 2nd Tuesday of October, was brought to town, and, unless removed, by a "higher" power will have to remain behind iron bars and doors for three years. The

Mr. C. Bomberger, whose death we noticed last week, was a Director of the Lebanon Valley Bank at the time. At a meeting of the Board on Tuesday, the following resolutions were unanimously adopted :---Resolved. That we sincerely deplore the un-

timely and sudden death of CHRISTIAN BOMBER-GER. an active and useful momber of this Board. and one who was influential in the organization und establishment of this Bank.

Resolved, That in unison with our fellow-citiens at large, we regret his death as a public loss, and that we deeply sympathize with his family and immediate relatives, in their bereavement. Resolved, That a copy of these resolutions be published in the Lebanon newspapers, and that a sopy be furnished to the immediate friends of the lecensed.

The Assessors have been busy luring the past few weeks taking the tri-ennial assessment. Capt. Harbesson of the West-ward has completed his, having assessed upwards of 500 'properties. The assessor of the East-ward, A. H. Embich, is, we presame, also through. In this connexion we append an article from the N. Y. Times, which is in many particulars applicable to Pennsylvania. The subject is one which should be discussed, and if our tax laws are found in reality to be unequal and unjust

ically wrong. It is grossly unequal and unjust, because its burdens are most unequally assessed. The chief ground of complaint in England against the Income Tax is, that it is inquisitorial. But admitting that it is obnoxious to this charge, it is, at least, equal in its action upon the public .--In England, every man is bound to declare to the Government, and under oath, the amount of Income on which he is legally taxable. There may declarations. But this is a matter which the law has no right to suspect. It can only deal with

facts; and when a man is proved to have wilfully sworn falsely to his "return" of taxable income, he is prosecuted for perjury, and nothing can save him from imprisonment or transporta

tion." "But, with us, we adopt a different plan. W assess upon capital and not upon income. A man's property may be productive of income or it may involve him in annual loss; yet his taxation will be the same under both circumstancesthe assessed value of the property governing the amount of texation, which he must nay. This, however, is a question of policy which may or ner in which it applies. "We will suppose that A owns a house which orsts him \$10,000, and produces a yearly rental of \$800. The assessors will probably estimate the building as worth \$5,000 and the taxation on that sum at \$1 62 \$30 \$100 will accordingly be \$129 60, or \$16 2: per cent on his summal logome of \$800. Even supposing, however, that the building is assessed at its full cost of \$10,000-the tax in this case would be \$162 or 20.25 per cent. on his in- | loway's Pills in conformity with the directions. centum-the yearly income from which is \$500yet his tuxation at \$1 62 per \$100, on \$10,000 The Town Hall is for Rent from | will be \$162, or 32.40 per cent, on his income of "It does not require any argument to show that a sysiem which is so very unequal in its demands upon the community is intolerably unius -and that taxation should rather be charged on income from real or personal property than on real or personal property itself. "As regards the method by which the value of property is assessed, it is rather a serious farce than a legal procedure. If a man who owns \$5,-000 finds himself assessed for \$10,000, he can go and swear off the exaggeration; but in the opposite case, the man is silent and the public exchequer suffers. It is notorious that there are numbers of citizens whose property is not set down at half its value. Nor is it possible for the As sessors to arrive at the truth in all cases. But if a system similar to that of the English Income Tax prevailed here, every property-owner would have to make a sworn statement, not of the value of his property, which nobody can correctly estimate from day to day, but of his last year's income from real or personal property, which is always to be ascortained with more or less accuracy. The result, we believe, would be a large gain rather than a loss to the public, and the extreme partiality of the present system would be avoided."

ning last, in Zion's 'Lutheran Church of this Connecticut, four years old went into a neighplace, before the Young Men's Christian Associa- bor's house, and on the stove was a coffee-pet; be TERMS, ---- \$1 50 A YEAR tion, was listened to with the most intense atten- put his mouth to it and inhaled the steam ; it tion by a large and appreciating audience. The affection of the child appeared just like the croup, and semed to disturb the child in the same manner on the lungs.

A HYDROCEPHALOUS SUICIDE .- The Chicago Press says that a young Gorman named Simon of that city, committed suicide in the following strange manner :--- He went out into a shed, took a gun, and loading it with powder and then with water, placed the muzzle in his mouth and fired,

completely shattering his head. When found he was standing in the corner leaning on his gun .---The room presented a terrible appearance, being completely drenched with blood and covered with pieces of skull and brains. The cause of the suicide is traced to the refusal of Simon's father to permit him to marry the girl of his choice.

DE OF THE GOULDY FAMILY, we learn from

Gouldy. He has recently manifested conciousness, but does not know of the fearful end of his week were 15,378 bbls. son. He is aware who it was that wounded him, and supposes that the boy is in prison ... His phy- and prime lots continue searce and on the adsicians and attendants are careful not to let him know the true state of the case, and it is likely are reported at 128 @130c, mostly at the latter that he will die in happy ignorance of what has rate, and a few singli lots of fair White at 132@ transpired. There is but little hope of the ultimate recovery of the two servants.

COUNTY SUPERINTENDENT REMOVED,-The State Superintendent of Common Schools has removed from office J. K. Krewson, County Superintendent of Schuylkill county, on account of difficulties existing between Mr. Krewson and the directors and teachers in the county, and between him and the State department. William A. Field has been appointed as his successor.

CAUTION TO LADIES .- A young lady recently net with an accident from too free an application of cologue, which, but for her presence of mind, would have been attended with very serious conthe cologne in her toilet, and had scattered some over the lamp to reach semething, it caught fire, flames. She snatched up the water pitcher and poured the water over her head, though not before she had been considerably blistered upon the neck and hands.

SERMONS. - A correspondent of the Presbyle. rian thinks that sermons in length, should be as follows :-- "Short sermons, 25 minutes ; orthodox sermons, 35 minutes; long sermons, 50 minutes preposterous sermons, 60 minutes. When a sermon reaches 55 minutes, it has 'passed a Rubicon ; each additional minute is equal to two, till the hour is exhausted; thereafter the increase is in geometrical progression ; and the English language does not furnish adjectives sufficiently expressive to describe sermons beyond the 60 minutes. Orthodox sermons may be either long or short, but never preposterous."

To-morrow is Thanksgiving Day in I ennsylvania, New York and New Jersey .-It is presumed that business will be generally suspen led in Lobanon, and that people will amuse the nselves by eating Turkeys and going to church. We trust that none may be compelled, either from compulsion or inclination, to do worse.

Attempts were made last week, during the night time, to enter several of our storcs for the purpose of stealing. In no case did the scamps succeed. We presume that a strict watch is kept in all places where any thing of value could be obtained.

Our worthy and efficient County Superintendent of Common Schools, John H. Kinge, Esq., is about (if he has not already,) resigning his Superintendency. He will remove about the 1st of January, to Hope, Indiana, where he will take charge of a Female Seminary. Mr. K's retirement will be a great loss to the public schools of this county, and we trust that some gentleman may be found as friendly to the cause of Common School education, and as competent as he is to take his place.

Some of our opposition party friends are so bitterly opposed to Democracy, tha if they owned a ring-tailed porker whose tail they suspected had a twist exclusively and scientifically "Opposition," they would cut it off .- By the resignation of Mr. Weidle they obtained the ascendancy in the Town Council, and at the first jopportunity they decapitated Messrs. McCord and Root, the Policemen, and elected one of their own kidney in his stead. The haste in which they discharged this "important" duty would certainly t be worthy of commendation if the same could have been done for other reasons than of a political character, or if the example had been derived from the Democrats.
