He who can do all he wishes rarely does what he ought to do.

When success makes a man better than he was before, he must be a good man indeed. When a great man stoops, or trips the

small men around him suddenly become greater. A sermon in four words on the vanity of earthly possessions:-"Shrouds have no pockets."

Cool Rescality.—In Cincinnati, a few days since, two sharpers accosted a countryman stopping at a botel, and stating that they were detectives, declared that he was suspected of dealing in counterfeit money. The ruralist asserted his entire innocence; but they said they would search him, and took him into a private room, when they found \$108 in good meney. One went to consult a detective concerning the bank notes, and remained away so long that his companion also departed in search of the delayer. In idleness-in frivolous amusements-or in the company of those who will corrupt your morals?-Remember, if you would prepare yourself for future usefulness, you must devote every spare moment to study. First be industrious in your several employments during the hours of business; never complain that it is your lot to work; count it an honor; go about it with cheerfulness and alacrity; it will become a habit, and by becoming so, will be a pleasure and delight. Make it your business to promote the interest of your employ-

Oriental Wit.—A young man, going a journey, intrusted a hundred deeners to an old man : when he came back the old man denied having any money deposited with him, and he was taken before the Khazee. "Where were you, young man, when you delivered this money?"-"Under a tree."-"Take my seal, and summon that tree," said the Judge. "Go, young man, and tell the tree to come hither, and the tree will obey when you show it my seal." The young man went in wonder .- After he had been gone some time, the Khazee said to the old man. "He is long-do you think he has got there yet?" "No," said the old man; "it is at some distance; he has not got there yet." "How knowest thou, old man," cried the Khazee, where that tree is?" The old stone worm is come to life again.

JOHN PETER MOYER would respectfully inform the public that he continues the business of LiMESTONE SAWING AND DRESSING by horse power, in Chestnut Street, East Lebanon. He finishes the following articles out of the best and soundest limestone that can be procured in this neighborhood, viz:—Door Sills and Planforms, Steps, Window Sills and Heads, Cellar Door Cheers, Curus-Tonnes, Shoe Scraper blocks, as well as any other article that can be manufactured of limestone. His Curb-stones are from four to five inches thick; and his prices in accordance with the quality.

He was the first person that introduced the lime stone into this place, and is now prepared to finish off limestone so as to give it an appearance very little inferior to that of the handsomest Marble, in proof of which assertion he directs the public to the finished work at his establishment. He respectfully invites all those who intend erecting new buildings, to call at his establishment and convince themselves of the excellent finish of his work as also of the cheapness of his prices.

HILADELPHIA MEDICAL HOUSE.—Established twenty two years ago by Dr. KINKELIN, corner of Third and Union streets, Philadelphia, Pa. TWENTY-TWO YEARS' TWENTY-IVO YEARS'

Experience has rendered Dr. K. a most successful practitioner in the cure of all diseases of a private nature, manhood's debility, as an impediment to marriage; nervous and sexual infirmities, diseases of the skin, and these articles. se arising from abuse of mercury.
TAKE PARTICULAR NOTICE.

There is an evil habit sometimes indulged in by boys, in solitude, often growing up with them to manhood; and which, if not reformed in due time, not only begats serious obstacles to matrimonial happiness, but gives rise to a series of protracted, insidious, and devastating affections.

serious obstacles to matrimonial happiness, but gives ries to a series of protracted, insidious, and devastating affections.

Few of those who give way to this pernicious practice are aware of the consequences, until they find the nervous system shattered, feel strange and unaccountable sensations, and vague fears in the mind. [See pages, 27, 28, 29, of Dr. K.'s book on "Self-Preservation."]

The unfortunate thus affected becomes feeble, is unable to labor with accustomed vigor, or to apply his mind to study; his step is tardy and weak; he is dull, irresolute, and engages even in his sports with less energy than usual.

If he emancipate himself before the practice has done its worst, and enter matrimony, his, marringo is unfruitful, and his sense tells him that this is caused by his early follies. These are considerations which should awaken the attention of all who are similarly situated.

REMEMBER.

\*He who places himself under Dr. KINKELIN'S treatment, may religiously confide in his honor as a geutle man, and rely upon the assurance, that the secrets of Dr. K.'s patients will nover be disclosed.

Great Discovery of the Age. IMPORTANT TO TOBACCO CHEWERS Dr. Gustav Linnard's Taste Restorative Troches, the Great Substitute for Tobacco

I is a well known end incontrovertable fact that the use of Tobacco is the promoting cause of many of the most severe Mental and Physical Disorders to which the race of man is subject, as careful analysis and long and painful experience have clearly proven that it contains certain naccoite and poisonous properties most dangerous in their effects, which by entering into the blood derange the functions and operations of the Heart, causing many to suppose that organ to be seriously diseased.

TOBACCO affects also the entire nervous system; manifesting itself—as all who have ever used the noxious weed will bear testimony—in Lassitude, Nervous Irritability, Water-Brash, Dyspepsia, and many other disorders of a similar character.

THE TASTE RESTORATIVE TROCHES

Are designed to counteract these baneful influences, and

ders of a similar character.

THE TASTE RESTORATIVE TROCHES

Are designed to counteract these baneful influences, and have proved completely successful in a multifude of cases, and wherever used. Being harmless in themselves they exert a beneficial effect upon the entire system, restoring the Taste which has become vitiated or destroyed by great indulgence, completely removing the irritation and accompanying tickling sensation of the Throat—which are always consequent upon abstaining from the use of Tohacco, and by giving a healthy tone to the Stomach, invigorate the whole system.

Persons whe are irretrievably undermining their constitutions and shortening their lives, should use these Troches immediately and throw of the injurious and unpleasant habit of Tohacco Chewing.

These Troches or Lozenges are put up in a convenient and portable form at the low price of 50 Cents per box. A liberal discount to the trade. Prepared solely by the undersigned to whom all erders should be addressed.

These symptoms if allowed to go on—which this med-cine invariably removes—soon follows: Loss of Power, fatuity, and EPILEPTIC FITS—in one of which the pa-Fatuity, and FPLLETIC FITS—in one of which the patient may expire. Who can say that these excesses are not frequently followed by those direful diseases—IN-SANITY AND CONSUMPTION?. The records of the Insane Asylums, and the melancholy deaths by Consumption, bear ample witness to the truth of these assertions. In Lunatic Asylums the most melancholy exhibition appears. The Countenance is actually sodden and quite destitute—neither livith or Grief ever visits it; should a sound of the voice occur, it is farely, articulate.
