THE LAND OF DREAMS.

BY W. C. BRYANT.

A mighty realm is the land of dreams, With steeps that hang in the twilight sky, And weltering coans, and trailing streams That gleam where the dusky valley s-lie.

Sweet rays from a world of endless morn, And the nearest mountains catch the glow,

And bowers in the nearest fields are born.

The souls of the happy dead repair From the lowest of dight to that bordering land, And walk in the faired glory there, With the souls of the Hville, hand to hand,

One calm sweet smile in that shadowy sphere, From eyes that open on earth no more --One warning word from a voice once dear-How they ring in the memory o'er!

Far off from those hills that shine with the day, And fields that bloom in the heavenly gales, The land of dreams goes stretching away To dimmer mountains and darker vales. There lies the chambers of guilty delight; There walk the spectres of hope and fear; And soft, low voices that float thro' the night

Are whispering sin in the guileless car. Dear maid, in thy girlhood's opening flower Scarce weaned from the love of childhood's play. The tears on whose cheeks are the opening flower The portals of Heaven are open for my reception That freshens the early bloom of May!

Thine eyes are closed, and over thy brow Play thoughtful shadows and joyous gleams, And I know by the moving lips that now Thy spirit strays in the land of dreams. Light-hearted maiden, oh, heed thy feet!

Oh, keep where that berm of Paradise falls! And only wander where thou mayest meet The blessed ones from its shining walls. So shalt thou come from the land of dreams With love and peace to this world of strife,

THE LAST VICTIM OF THE

An imperial rescript, bearing the date of the 20th August, 1854, and the signature of the Emperor Francis Joseph of Austria, has abolished or evermore within the realms of the whole Ausrian empire that terrible chastisement-running the guantlet. Terrible as it was, indeed a cruel ind barbarous remnant of those dark and dismal imes called the middle ages, I witnessed the last execution of this kind, and record it for the benefit of these who still cling with a strange onel went through this part of the formality in a fondness even to the worst legacies of by-gone centuries.

At the fire, when he was stripped of his coat and shift, tenth stroke of the clock the drums were beaten, and amidst a silence deep and oppressive the prisoner was marched in the square.

His superior officers respected him for his usefulness, his ability, and his exactitude, but they did not like him. The evident lack of humanity in the man made him an object of doubt rather than of love. Moreover there was a vague rumor about his having once struck at his own officer in a pell-mell caused by a hand to hand encounter with the enemy. The report never took a clear shape, the officer having been killed during the engagement, and the gossipings of a few wounded soldiers having been much too incoherent and contradictory to lead to a formal investigation of the matter; besides it was at the victory of Novarra. He had greatly distinguished himself, and old Field Marshall Radetsky had, with his own hands, affixed the golden medal on his breast. The rumor, however, together with the knowledge of his barsh and violent temper, caused his name to be erased from the list of those that were recommended for higher promotion.

A few weeks previous to the dreadful punishnent which he had now to undergo he was mounting guard in the outworks with some twenty or twenty-five men of his own company. It was a chilly, rainy night; and when the sentry were relieved they were glad to stretch themselves-wet as they were-upon the floor near the large stove in the middle of the guardroom. The floor not being very clean, (floors seldom are in these localities,) and the white uniforms being wet, it was no wonder that the dirt adhered to them with a tenacity that defied all exertions to rub it off, when the wearers were roused by this serjeant to prepare for standing guard once more. The more they tried to rub their clothes clean the more sturdily he lent a helping hand to their endeavors by an application of the sad equipment of every Austrian non-commissioned officer—the stick.— Whilst he was fully at work, cutting away at the men with a powerful arm, the door opened, and the officer on duty entered the guard room. On the evening previous to the punishment, the second rifle battalion of Kherenhuller infantry would have been unfit for service; the men were drunk. They had got up a carousel in joy and honor of the coming day. But in the morning they were sober enough. The drums ceased to beat as soon as the pri-oner had arrived in the middle of the square; his escort fell back. He stood alone near the right wing of the company. There was a dead silence; not a respiration was to be heard from all the thousands gathered on the spot. The commanding officer read the sentence over to him the second time. CURISTINA OF SPAIN.

She is one of the richest individuals in Europe, and probably the greatest business woman in the world. Her operations are not confined to any single class of securities. She dabbles in everything. Driven from Spain, she has her fist in every speculative project in the Peninsula. She has contracted with the Pope to build the railways in his States; she has bought Malmaison, the former residence of Josephine, and owns the Courrier de Paris newspaper. She has been one of the most successful operators in the Cuban slave trade, and has innumerable projects in Cuba camong which are the Havana works, several fine sugar estates, and many tracts of fine lands. At one time, which she was paramout in Spain, it is said she offered to lend her influence to the sale of Cuba to us, provided we would give her the land the walls of Havana stand on. She has two of three agents in this country-one being in Philadelphia, one in New Orleans, and another without a fixed location. Each of these is supposed to control investments to the amount of one or two millions of dollars, scattered in real estate, railway securities and State stocks.

SOMEWHAT MYSTIFYING.

It is recorded, that during the reign of Stanislaus Poniatowsky, a petty noble having refused to resign his small entate to Count Thisenbaus. the Count invited him to dinner, as if desirous of amicably adjusting the affair; and while the knight, in the pride of his heart at such unexpected honor, Assiduously plied the bottle, the Count dispatched some hundreds of peasants, with axto be pulled down, the materials carried away, and the plough passed over the ground which the village had once occupied. This was accordingly done. The nobleman on his return home in he evening, could find neither road, house, nor village. The master and his servant were alike bewildered, and knew not whether they were dreaming, or had lost the power of discrimination-but their surprise and agony were deemed so ludicrous, that the court was lelighted with the joke.

Birds frequently attempt to fly across the river, but alight on the same side they start from-being deceived when you think you see across it; and but one side to it."

There is an Eastern story of a person who taught his parrot to repeat only these words "What doubt is there of that? He carried it to the market for sale, fixing the price at 100 rupees. A Mogul asked the parrot, "Are you worth 100 rupees?" The parrot answered, "What doubt is there of that?" The Mogul was delighted, and bought the bird. He soon found out that this was all it could say. Ashamed now of his bargain, he said to himself: "I was a fool to buy this bird." The parrot exclaimed, as usual, "What doubt is there of that."
