An association has recently been formed in Russis for the purpose of diffusing education by founding libraries and cabinets de lecture in every town and gensiderable village in the empire; by publishing standard works, original and translated at low prices; and encouraging authors of repute, by premiums, to write books of amuse ment and instruction for the masters.

The undersigned, MANAGERS, are individually liable to the extent of their Estates, for all Deposits and other objections of the "LEBANON DEPosits BANK." SIMON CAMERON, G. Me Ascording to the "Asiatic Researches," wery curious mode of trying the titles to land is practised in Hindoostan. Two holes are dug in the disputed spot, in one of which the lawyer on either side put one of their feet, and remain there until one of them is tired, or complains of being stung by the insects, in which case his client is defented. In this country it is the client, not the lawyer, "who puts his feet into it."

TRULY DESERVING .- The man, says Sir Walter Scott, whom I call deserving the name, is one, whose thoughts and exertions are for others, not for himself; whose high purposes are adopted on SAVING FUND just principles and never abandoned while heaven or earth afford means of accomplishing them. He is one who will neither seek an indirect advantage by a spacious road, nor take an evil path to gein a really good purpose.

Novel Wagen .- A young man named Alexander Duncan, arrived last Saturday in Cincinnati, Ohio, having performed a pedestrian journey from New York. He undertook the task upon a bet of \$250, and was to complete the task within eighteen days. He did it with nine hours to spare. He was accompanied by the individual who bet against him, who drove a buggy and carried his carpet sack, the expense of travelling to be borne by the loser. The pedestrian appeared less used up than either the horse or the driver.

THE INDIANS KILLING THEIR MEDICINE MEN .-The Fresno Indians are killing the doctors or medicine men. They declare them to be witches -that they can't cure the sick, and that there will be no more rain and grass seed till they are extinguished. Seven or eight physicians have in consequence suffered martyrdom. One of their doctors came running into the camp of Mr. Ridgeway, on the Fresno, and asked protection. He was pursued by some sixteen Indians, who demanded him from Ridgeway, and gave the above reasons why they sought to have him. Their modest request was refused, but a few days after the doctor ventured out and they got him !
