Subsequent events have confirmed me in these sentiments. The deplorable disputes in the first sentiments. The deplorable disputes in the first session of the present Congress,—the popular excitement resulting from those disputes, together with other proceedings in their nature novel and slarming, would all have been averted, had the people been secured in "the unqualified right" to yote upon their domestic institutions. I regret to be compalied to say, that, under various are to be compelled to say, that, under various pre tonces, held from them. When they refused to accept the Lecompton Constitution, made for accept the Lecompton Constitution, made for them by delegates representing the minority, they were explicitly denied fae privilege of making their own constitution, unless upon a condition not previously exacted. If they accepted the Le mpton Constitution, they entered the sister-and of States at once, with a population less than one half of the existing ratio of Congressional representation; but, if they refused that Constitution, they could not be admitted into the Union, with the Constitution of their choice, until they were ready to show by a formal census

that they had attained a population equal to that ratio. The results have become historical.

Ohe last expressive rote of the people of Kanthat they had attained a population equal to that ratio. The results have beened bistorical.

The results have beened bistorical.

The last expressive cote of the people of Kansas against the act of Congress commonly known as the English Bill, has for a time arrested Congressional intervention. Peace has resulted alone from the vetes of the people, not from the suggestions of outside influences. But, during the angry feelings which this contraversy has aroused, the theory has been started, and insisted upon; that it will henceforward be the duty of Congress to protect slavery in the territories, if the people of the territories shall fail to do so. The warrant is liked. the theory has been surrous, that it will henceforward be the duty of Congress to protect slavery in the territories, if the people of the territories shall fail to do so. The warrant for this extraordinary assumption is alleged to relate in the decision of the Supreme Court of the latest the decision of the Supreme Court of the latest the decision of the Supreme Court of the latest the decision of the Supreme Court of the latest the decision of the Supreme Court of the latest lat to obey them, whenever they are enunciated, I have yet to be convinced that any such construction can be fairly given to their action in the case referred to. Such a doctrine, no matter how sanctioned, or supported, will shake the very pil-lars of our constitutional fabric. It would com-pel evry territory to clevate property in slaves above every other description of property,—and to establish a slaves code in its early municipal regulations; or else it would convert the Congress into a theatre of crimination and confusion, and fill the whole country with a strife. And all this, without securing a single advantage to the North, or protecting a single right of the South.
Regarding myself as fully committed to the
doctrine of popular sovereignty in its broadest
sense, I can never subscribe to the theory of Congressional intervention, as understood and sup-ported by the opponents of this doctrine. By popular sovereignty, I mean no violation of the rights of the States—no assault upon the institu-tions of the South—no appeal to sectional preju-

rights of the States—no assault upon the institutions of the South—no appeal to sectional prejudiess. On the contrary, I regard the dectrine as
the embodiment of the popular will in States and
Territories, as the conservator of the rights and
the equality of States and people—and as the on
ly means by which a vexed and dangerous agitation will be satisfactorily and perpetually "settion will be satisfactorily and perpetually "settoded."

A theory heretical has been advanced in another portion of the Union. It has been held that
this government, divided into free and slave States
as it was framed by our revolutionary fathors,
cannot endure—that all must become free, or all
become slave. When such a doctrine shall be enforced, the constitution will have been subverted—
States sovereignty prostrated—state rights disregarded, and the liberty of the people destroyed
It should meet an indignant robuke from every
lover of his country, and the blood bought right
of the people and the states to self-government.
Under the various amendments to the constitation of Pennsylvania, the influence of the Executive has been greatly reduced by the transfer
ef patronage from the Governor to the people.—

CONFIGURY REOFING.

HARRISBURG. PA.

DESPECTFULLY informs the citiz as of Harrisburg.

1. R. ading, Lancaster, Lebanon, and their vic inities, that we are prepared to put on roofs on most liberal terms, and at the shortest nation.

We respectfully call the attention of persons about to build, to our invalsable method of roofing, now much used throughout the principal cities of the United States and their vict. ities. This mode of roofing having all the combined requisites of Cheapness, Durability, and Security sgainst Fire and Water, and dispensing with high gable walls; the roofs require an inelination of not more than three-quarters (\$\frac{1}{2}\$\text{ of an inch to the foot, and in many cases saving the entire cost of rafters—the ceiling joist being used.

The gutters are made of the same material, without any extra charges; consequently, our roofs are put up at almost half the cost of cither Tin. Slate, or Shingles. The material being of imperishable nature, it surpasses all others in Durability;—besides; in case of any casualty, it is the most earily repaired of any other roof now in use. Yet, the best proof we can offer as to its being both fire and water proof, are our many references, to any one of whom we are at liberty to refer.

N. B.—But let it be distinctly understood, (since we manufacture our own composition; and do the work in person,) that we warrant all our work proof against both Fire and Water; if they prove contrary, we will most willingly abled the results.

The materials being mostly non-conductors of heat, no roof is so cool in summer, or so warm in winter. Those wishing to use our roof should give the rafters a pitch of about one inch to the foot.

It affords me pleasure to recommend him to the unfortwiate, or the victim of mal-practice, as a successful and experience of practitioner, in whose honor and integrity they may place the greatest confidence.

JOSEPH S LONGSHORE, M. D. From A. Woodward, M. D., of Penn. University, Philadelphia.

It gives me pleasure to add my testimony to the professional ability of the Author of the "Medical Manuel." Numerous cases of Diseases of the Genital Organs, some of them of long standing, have come under my notice, in which his skill has been manifest in restoring to perfect health, in some instances where the patient has been considered beyond medical aid. In the treatment of Seminal weakness, or disarrangement of the functions produced by Self-abuse, or Excess of venery, I do not know his superior in his profession. I have been as quainted with the Author some thirty years, and deem it no more than justice to him as well as a kindness to the unfortunate victur of early indiscretion, to recommend him as one, in whose professional skill and integrity they may safely confide themselves.

TOBACCO CHEWERS

TORACCO CHEWERS

Dr. Gustav Linnard's Taste Restorative Troches, the Great Substitute for Tobacco.

This a well known and incontrovertable fact that the use of Tobacco is the promoting cause of many of the most severe Mental and Physical Disorders to which the race of man is subject, as careful analysis and long and painful experience have clearly proven that it contains certain narcotic and poisonous properties most dangerous in their effects, which by entering into the blood derange the functions and operations of the Heart, causing many to suppose that ergan to be seriously diseased.

TOBACCO affects also the entire nervous system; manifesting liself—as all who have ever used the noxious weed will hear testimony—in Lassitude, Nervous Irritability, Water Braksh, Dyspepsia, and many other disorders of a similar character.

THE TASTE RESTORATIVE TROCHES

Are designed to counteract these baneful influences, and

ders of a similar character.

THE TASPE RESTORATIVE TROCHES

Are designed to counteract these baneful influences, and have proved completely successful in a multitude of cases, and wherever used. Being 'harmless in themselves they exert a beneficial effect upon the entire system, restoring the Taste which has become vitiated or destroyed by great indulgence, completely removing the firitation and accompanying tickling sensation of the Throat—which are saways consequent upon abstaining from the use of Tobacco. And by giving a healthy tone to the Stomach, invigorate the whole system.

Persons whe are irretrievably undermining their constitutions and shortening their lives, should use these Troches immediately and throw of the injurious and unpleasant habit of Tobacco Chewing.

Three Troches or Losenges are put up in a convenient and portable form at the low price of 50 Cents per box. A liberal discount to the trade. Propared scledy by the undersigned to whom all orders should be 'addressed.
