We took occasion on Friday and Saturday last to devote several hours to attending the sessions of the Teachers' Institute, in this borough. The number of Teachers present, was upwards of 50, and, no doubt, the cream of the bands of A. S. Ely, John M. Mark and Adolph body in this county. But as the number of Reinachl for examination-to report at the next Teachers in the county is nearly 200 wo can meeting of the Society. Said committee were scarcely imagine what circumstances should have presented the attendance of three fourths of them, except it be indifference to their profession, or a squeamish fear of a little mud. Still, as all others appeared delighted with the attendance-so are we. The proceedings of the Institute wore conducted with spirit, and the exercises in the various branches of instruction conducted by the mumbers proved to us satisfactorily, that we have a pretty broad foundation for the speedy adcumulation of a noble and competent band of teach-

re in this county. The æddress of Mr. Hickok, on Friday evening In the Court House was listened to by a large au- fee. dience. His arguments were of the sledge-hammer style, interspersed with many, pertinent and lively anecdotes. The official proceedings of the Institute affire

"Should Male and female school teachers intermarry," was a question proposed for discussion in the Institute on Saturday. There was but little said of either side; but if the palpitating bearts of the "better half" of tenchers present, had been counted it would have been de-oided unanimous in the affirmative. One would have amended, if in order, by setting the sysmaple at once, only he didn't know if any of the Ladies present would have him.

Bolloway's Pills.-There is a disease which has no hame, yet is exceedingly common. It consists in a re-laxation of the whole vital system. The appetite is poer the spirite low, the body Teeble, the nerves aumstrung, the eyes instelless, the check was nad pille, the whole physique in a stake of prostration. The sufferer; though perhaps in the morning or meridian of life, is feeble al-most to decrepticate. To rouse the system from this syn-cope, there is no medicine comparable to Holloway's Pills. They recruit the appetite, the apirits, the strength, the nerves, in fine, they rejurenate, so to speak; the en-tire corporal system, and, as a natural consequence, im-prove the condition of the mental energies.
