The navigation on the Union Canal, last week, was in fine order.

The Citizens Fire Company of Harrisburg, visit Pottsville, by invitation, to-day, (Wednesday.) The State Capitol Band accompanies them. They turn out about forty equipped. members, and have with them their beautiful silver mounted carriage. . It is presumed they will pass through Lebanon and Reading on their route.

The wheat crop in this county, is of the most promising kind. We never saw it look better at this season. The Crop in Illinois, Obio, in fact, in all wheat growing sections, as we learn from our exchanges, presents the same encouraging appearance. The recent sudden and enormous rise in the price of wheat could not have for a basis the fears of a failure of the crop the coming season, but must be owing entirely to speculation and false reports. Considerable indignation is felt all over the country about the unnecessary rise, and the indications are that the fall will be as sudden and agreeable as the advance was unexpected and oppressive.

Prof. Schaff, of Mercersburg, will deliver the Fifth, and last, Lecture of the Course | The villian who would be guilty of an outrage of before the Young Men's Christian Association, on this kind, should have his neck fastened to a Wednesday evening, the 6th of April. Subject-"The Evidences of Christianity; presenting a condensed view of the principal arguments for our holy religion, against the objections of modern skeptics." Prof. Schaff, is said to be one of the most elequent and learned speakers in the Bank, has appeared. It is so well done as to country. As this is the last lecture of the season, it is to be hoped that the Professor will be welcomed with a full house.

Standing Timber burnt:-On Thursday, the 17th inst., about two acres of standing timber, near Beckleysville, in South Lebanon township, was destroyed by fire. The rain of the following night extinguished the fire, or probably a good deal more would have been destroyed. It is suppossed that the fire originated from sparks of a locomotive. The property belonged to Dr. John W. Gloninger.

Our neighbor of the Courier says many Democrats are leaving the party in this borough, with disgust and turning their backs upon a wrong." What is the wrong here alluded to? We know what is meant, and ask if we have not erred on the side of charity? It is not the first time we have been twitted on this very same subject by the opposition papers. It is not Lecomptonism or anti-Lecomptonism that has driven away our votes, because our friends are as one man on that Subject; it is not the improvement system, because the opposition inaugurated that; it is not the borough indebtedness, because the opposition leaders are responsible therefor; it is not the constableship question, because it effects a few days. These goods will be sold at aston- a year, but the judge, jury, and nearly our whole ticket; it is not anything that effects the party as a party, because even in this county week. our friends stand intact-aye, stronger than ever; it is not the want of popularity on the part of our candidates, because we invariably select the and is the matter of a national office. After our friends have shown a forbearance, not in the heads and hearts of the opposition, and which has been thus far persevered in, in spite of our strength melting away before our eyes, and the cause patent to every democrat, we have now for the twentieth time the matter rubbed under our noses. viz :- President Adam Grittinger, Secretary, Forbearance with our friends will soon cease to Samuel McAdam, Treasurer, Elias Raber. How TO PRESERVE YOUR FURS :-Furs, says a writer in one of the New York papers, who seems to be thoroughly familiar with the subject, should never be put away for the summer and forgotten, as they so frequently are; and next | winter season. to being shut up from the air, their greatest enemy is damp. If from the wearer being exposed to rain, they become wet, they should always be dried at a moderate distance from the fire immediately; and in warm weather, when not required for wear, they should never be shut in a box We found the farmers busily engaged ploughing the War of 1812, died on Thursday or other drawer for more than a few days at a the ground. The grain fields so far look very time, and every few weeks they should be shaken and beaten.

The more delicate skins require somewhat more not to pack furs away, but to let them lie in a drawer or wardrobe that is constantly being opened so that they meet the eye frequently, and being thus often in sight, it is easy, at convenient

opportunities, to have them taken out and beat- | amusement. We understand, that several parties it remarked, that the moth got into furs-as if the insect actually migrated from one locality to another; the probability is, however, that furs and shape. Cleanliness and airing are, therefore, absolutely essential.

In another column a reward of \$500 is offered for such information as may lead to the detection of the miscreants, who have lately been attempting to commit murder on the Lebswitches and placing obstructions on the road .-It is to be hoped that the villians will be apprehended, for so long as they are at large the lives of all persons traveling on the road will be in jeopardy. It is to be regretted that we should have such villians along the line of our road to neutralize the efforts of its officers and management to make it the best and safest road in the

RAILROAD ACCIDENT .- The train on the Lebanon Valley Railroad, due here at 12% o'clock on Friday night, did not arrive until 8 o'clock on Saturday morning. One of the passengers informs us that as the train, consisting of one passenger car and seventy-five freight cars, approached Annville station, the locomotive was thrown off the track and considerably damaged; fortunately the the annual disturbance in domestic affairs takes coupling between the iocomotive and the tender was broken, and the jumping some distance from the rails, allowed the train to pass on without injury. It being a down grade, the train proceeded a considerable distance before it was stopped .-Upon going back to the scene of the disaster, it was found that some villian had broken the lock and half turned the switch, thus endangering the lives of many innocent men, just for some petty

spite that he may have had against the company. The locomotive was seriously battered up, and it was necessary to send to Lebanon for another engine to bring the train to Harrisburg. The engineer, fireman and the passengers escaped unhurt. It is said that several attempts have been made before to throw the cars off the track in this neighborhood, and at this time, just before the accident a man was seen on the road, but nothing was thought of the circumstance at the time .-locomotive, and jerked about a mile or two .- Harrieburg Patriot.

FISH .- Our fielt market is plentifully supplied with specimens of large and small sizes. Shad, for their prices, are rather scaly looking fellows.

THE SABBATH .- This day is observed in an unbecoming manner by some of our "fast" inhabitants. We are informed that a number of boys from this borough paid a visit to the country on Sunday last, to play a game of --the reader may judge the rest. They indulged in profunity and blasphemy over a bosom compapion-a bottle. Our friends in the country should keen a look out for those who respect neither the day or themselves, and give them a proper reception.

THE LUMBER TRADE.—The river at Harrisburg, is very high; and a large number of rafts pass that place daily. The lumbermen are busily engaged at their business; and the price of umber will he doubt fall considerably.

NEW BUILDINGS .- Quite a number of buildngs will be put up here this season; laborers will find plenty of work during the summer. Lebanon is a thriving town, and as her population increases rapidly, a sufficient number of buildings should be erected to accommodate all who desire to unite their fortunes with those of our citi-

zens.
THE MERCHANTS are brushing up and getting ready for the spring business. The "new goods" are already arriving.

PUSHING THE SEASON.-We noticed on Sunday several young men promenading Market Street dressed in full summer rig. They attracted considerable attention, and no doubt were satissed that they were the first to come out in full

IMPORTANT TO FEMALES.—Dr. Cheeseman's PILIS.—The combinations of ingredients in these Pills, is the result of a long and extensive practice; they are mild in their operation, and certain of restoring nature to its proper channel. In every instance have the Pills proved successful. They are certain to open those obstructions to which females are liable, and bring nature into its proper channel, whereby health is restored, and the pale and deathly countenance changed to a healthy-one. No female can enjoy good health undess she is regular, and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and the want of such a remety has been the cause of so many consumptions among young females. Headache, pain in the side, pulpitation of the licart, loathing of food, and disturbed sleep, de most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils. In all cases of nervous and spinal affections in the back and limbs, lowness of spirits, hysteries, &c. Nor are they less effections in the care of Lewcorthes, commonly called the "Whites." These Pills, should never be taken during pregnacy, as they would be sire to take a miscarriage. Warranted parely Vegetable, and free from anything injurious to life or health.
