The Yankee and the Dutchman's Dog.

Abner was a quiet, peaceable sort of a Yankee, who lived on the same farm on which his father had lived before him, and was generally considered a pretty cure sort of a follow-always ready with a trick, whenever it was of the least utility; yet when he did play any of his tricks, Itwas done in such an innocent manner, that his victim could do no better than take it all in good

Now, it happened that one of Abner's neighbors sold a farm to a tolerable green specimen of m Dutchman-one of the real unintelligent, stupid sort.

Von Viom Schlopsh had a dog, as Dutchmer often have, who was less unintelligent than his master, and who had since leaving "fader lant," become sufficiently civilized not only to appropriate the soil as common stock, but had progressed as far in the good work, as to obtain his such as Boarney, Planks, Joists, Laths, Shindles, and Scantling, dinners from various sheepfolds on the same principle.

"Ya-dat ish allas goot-but Ich weis nicht." "What's that you say he was nicked? Wal now, look here, old feller, nickin's no use-crop him-ent the tail close off-chock up to the trunk -that'll cure him."

"Vat ish dat?" exclaimed the Dutchman while a faint ray of intelligence crept over his features. "Ya, dat is goot-dat cure von sheep shteal, ch?"

"Sartain it will-he'll never touch sheep mea rgain in this world."

"Den come mit me-he von mity goot dog, al de way from Yarmany; Ich no take one five dollar-but come mit me, and hold his tail. Ich chop him off." "Sartain, I'll hold his tail if you want to,

you must cut it up close." "Ya, dat ish right. Ich make him von goo dog. Here, Blitzen, come right here, you one

sheep shteal rashkul-Ich chop your tail in, one two pieces." "The dog obeyed the summons, and the mas ter tied his feet fore and aft, for fear of accident, and placing the tail in the Yankee's hand reques ted him to lay it across a large block of wood."

"Chock up," said Abner, as he drew the butt of

the tail close over the log. "Ya, dat ish right. Now, you tief sheept learns you better luck," and he raised the axe. It decended, and as it did so Abner, with characteristic presence of mind, brought Blitzen's acteristic presence of mind, brought Blitzen's

very attentively, in the Rolls Court, to a young clerk who was reading to him, before several gentlemen of the long robes, the conveyance of an estate; and on coming to the word enough, pronounced it enow. His honor immediately interrupted him-"Hold! hold! you must stand corrected. Enough is, according to the vernacular custom, pronounced enuff, and so must all English words which terminate in ough; as, for an example tough, rough, cough, etc." The clerk bowed. blushed, and went on for some time, when coming to the word plough, he, with an increased emphatical voice, and a penetrating look at his honor, called it pluff! BESPECTFULIX informs the citizens of Harrisburg, Incading, Lancaster, Lebanon, and their vic inities, that we are prepared to put on roofs on most liberal terms, and at the shortest notice.

We respectfully call the attention of persons ahout to build, to our invaluable method of roofing, now much used throughout the principal cities of the United States and their vicinities. This mode of roofing having all the combined requisites of Cheapness, Durability, and Security against Fire and Water, and dispensing with high gable walls; the roofs require an inclination of not more than three-quarters (%) of an inch to the foot, and in many cases saving the entire cost of rafters—the ceiling oist being used.

The gutters are made of the same material, without any extra charges; consequently, our roofs are put up at almost half the cost of either Tiu. State, or Shingles. The material being of imperishable nature, it surpasses all others in Durability:—besides, in case of any casanalty, it is the most early repaired of any other roof new in use. Net, the best proof we can offer as to its being both fire and water proof, are our many references, to any one of whom we are at liberty to refer.

N.B.—But let it be distinctly understood, (since we manufacture our own composition, and do the work in person,) that we warrant all our work proof against both Fireaud Water; if they prove contrary, we will most willingly abide the results.

The materials being mostly non-conductors of heat, no roof is so cool in summer, or so warm in winter. Those wishing to use our roof should give the rafters a pitch of about one inch to the fact.

JOSEPH S. LONGSHORE, M. D.

From A. Woodward, M. D., of Penn. University, Philadelphia.

It gives me pleasure to add my testimony to the professional ability of the Author of the "Medical Mannal." Numerous cases of Diseases of the Genital Organs, some of them of long standing, have come under my notice, in which his skill has been manifest in restoring to perfect health, in some instances where the patient has been considered beyond medical aid. In the treatment of Seminal weak ness, or discrangement of the functions produced by Self-aduse, or Excess of venery, I do not know his superior in his profession. I have been acquainted with the Author some thirty years, and deem it no more than justice to him as well as a kindness to the unfortunate victim of early indiscretion, to recommend him as one, in whose professional skill and integrity they may safely confide themselves.

COLPOUNDED entirely from Giuns, is one of the best purparite and liver medicines now before the public, that acts as a futhertic, easier, milder, and more effectaal than any other medicine known. It is not only a Cathartic but a Liver remedy, acting first on the Liver to eject its morbid matter, then on the bowels and stomach to carry off that matter; thus accomplishing two purposes effectually, without any of the painful feeling experienced in the operations of most Cathartics. It strengthens the system at the same time that it purges it; and when taken daily in moderate doses, will strengthen and build it up with unusual rapidity. PREPARED BY DR.
