Yes I . thought there was something in the wind. Yes I was sure of it, when you went out of the house to-day. I knew it by the looks of you, though I didn't say anything. Upon my word! And you call yourself a respectable man, and the father of a family! Going to a fair amongst all sorts of people,—at your time of life. Yes; and never think of taking your wife with you. Oh no! you can ge and enjoy yourself out, with I don't know who: go out and make yourself very pleasant I dare say. Don't tell me; I hear what a nice command Mr. Cavidle is what a good tempored.

TWENTY-TWO TEARS'

Experience has rendered Dr. K. a most successful practitioner in the cure of all diseases of a private nature, manhood's debility, as an impediment to marriage; nervous and sexual infirmities, diseases of the skin, and those arising from abuse of mercury.

TAKE PARTICULAR NOTICE.

There is an evil habit sometimes indulged in by boys, in solitude, often growing up with them to manhood; and which, if not reformed in due time, not only begets serious obstacles to matrimonial happiness, but gives rise to a series of protracted, insidious, and devastating affections.

Few of those who give way to this pernicious practice are aware of the consequences, until they find the nervous system shattered, feel strange and unaccountable sensations, and vague fears in the mind. [See pages, 27, 28, 29, of Dr. K.'s book on "Self-Preservation."]

The unfortunate thus affected becomes feeble, is unable to labor with accustomed rigor, or to apply his mind to study; his step is tardy and weak; he is dull, irresolute and engages even in his snorts with loss case. irresolute, and engages even in his sports with less en

irresolute, and engages even in his sports with less energy than usual.

If he emancipate himself before the practice has done its worst, and enter matrimony, his marriage is unfruitful, and his sense tells him that this is caused by his early follies. These are considerations which should awaken the attention of all who are similarly situated.

REMEMBER,

He who places himself under Dr. KINKELIN'S treatment, may religiously coudde in his honor as a gentle man, and rely upon the assurance, that the secrets of Dr. K.'s patients will never be disclosed.

Young man—let no false modesty deter you from making your case known to one, who, from education and respectability, can certainly befriend you.

It gives me pleasure to add my testimony to the professional ability of the Author of the "Medical Manual." Numerous cases of Diseases of the Genital Organs, some of them of long standing, have come under my notice, in which his skill has been manifest in restoring to perfect health, in some instances where the patient has been considered beyond medical sid. In the treatment of Seminal weakness, or disarrangement of the functions produced by Selfobuse, or Excess of venery, I do not know his superior in his profession. I have been acquainted with the Author some thirty years, and deem it no more than justice to him as well as a kindness to the unfortunate victim of early indiscretion, to recommend him as one, in whose professional skill and integrity they may safely conflict themselves.

Sworn statement of David M'Creary, of Napier Township, Bedford county:
In April, 1856, as near as I can remember, a small pimple made its appearance on my dip, which soon became enlarged and sore. I used poultices of sorrel, and wash of blue virtle, without effect. Finding the sore extending, I called on Dr. Ely, of Schellsburg, who pronounced it Cancer, and prescribed a wash of sugar of lead and bread poultices. Finding these remedies of no avail, I called upon Dr. Shaffer, of Davidville, Somerset county, who also pronounced the disease Cancer, and gave me internal and external remidies—the latter consisting principally of caustic; but all, to no purpose, as the disease continued sprending toward the nose. I next used a preparation of arsenic, in the form of salve. This for a time checked the disease, but the inflammation soon increased. I next called upon Dr. Statler, of St. Clairs-ville, Bedford county, who also pronounced the disease Cancer, and applied a salve said to be a never failing remedy, but it had no effect whatever in checking the spread of the sore. In December, of the same year, the disease had eaten away a greater part of my upper lip, and had attacked the nose, when I went to Cincinnatii, where I consulted Prof. R. S. Newton, of the Electic Medical College. Fe pronounced the disease 'n orta disease had eaten away a greater part of my upper lip, and had attacked the nose, when I went to Cincinnati, where I consulted Prof. R. S. Newton, of the Electic Medical College. He pronounced the disease "a critaneous Cancer, superinduced by an inordinate use of mercury." He applied mild zinc ointment, and gave me internal remedies. My face heated up, but the inflammation was not thoroughly removed. In February, 1857, he pronounced me cured, and I left for home. In April the disease again returned, and So violent was the pain that I could not rest at night! Late in May I returned to Cincinnati, and again placed myself under the charge of Dr. Newton, with whom I remained until Septemberduring which time he used every known remedy, and partly succeeded in checking the disease, but when I returned home there were still three discharging ulcers upon my face. I continued using Newton's preparations, and also medicine that I got from Dr. Ely, but the Cancer ontinued growing until it had eat of the left side of my nose, the greater portion of my left check, and had uttacked my left ye. I had given up all hope of ever being cured, since Dr. Ely said he could give relief, but that a cure was impossible. In March, 1858, I bought a bottle of "Blood Scarcher," but I must confess that I had no fith in it. I was very weak when I commenced taking it; but I found that I gained strength day by any, and also that the ulcer commenced drying up. I continued, and when the third bottle was taken my face was healed as if by a miracle. I used a fourth bottle, and I have been healthier since than I have been for the last seven years. Although my face is sadly disfigured. I am still grateful to a benign Providence who has spared my life, and which has been done through the instrumentality of Lindser's Lipenover Blood Scarcher."
