HOME AFFAIRS.

ANOTHER MILL BURNT.-The Steam Mill belonging to Mr. Gideon Etter, near Campbellstown, Lebanon county, was destroyed by fire early on Monday morning. The mill was an entirely new one, having been completed last week. About a year ago the Mill on the same spot was destroyed by fire. It is supposed in this instance to have been set on fire, as no fire was in the building for several days previous, and the machinery had not yet been running .-There is no insurance on the property. A fatality seems to attend the Mills of that neighborhood. There is one thing certain that the upper section of our county has one or more black-hearted villians running at large, and the sooner they are captured the better. It requires a deeperdyed villian than ordinary to place obstructions on railroads and apply the incendiary torch.

The Daguerrean Establishment of J. H. Keim, has become one of the Institutions of Lebanon, and is well worthy a visit of citizens and strangers. The rooms are neatly and handsomely furnished, but the pictures are the grand attraction. The art of Photographing is practised to perfection by him. He has a large number of fine specimens both of the living and the dead. There's no place in Lebanon where an hour can be spont more pleasantly than in Keim's rooms.

George W. Kline, Esq., has commenced the practice of Law, in the office of Levi

Hope is delusive. We experience it when hoping that some one of the many at the O. F. Celebration at Aunville, last week, would furnish us with a communication on the subject. Being disappointed, we give the following outlines, sorry that we can do no better. As stated last week, the attendance was large and the weather pleasant, until in the afternoon, when a smart shower of rain scattered the crowd rather prematurely.

Delegations were present from most of the surrounding Lodges. The Annville Band, the Myerstown Band, and the Perseverance Band of Lebanen were also present, enlivening the scene. Rev. T. S. Johnson, of Philadelphia, delivered ing then with a volunteer company (raised by his the address, which was, as his addresses always exertions, and of which he was elected captain) are, beautifully conceived and well delivered .-Mr. Henry Carmany, of Lebanon, was the Chief Marshall, and Mr. C. H. Borgner, of N. Lebanon, Assistant. The ladies of Annville, through Mr. Stine, presented a handsome bible to Quittapahilla Lodge, which was appropriately received on the part of the Lodge by Mr. John Hain.

'On Monday night of last week, two horses were stolen from the stable of Cyrus Kleiser, about two miles east from this place .-He had bought the horses but a few days before. The next day the horses were found on the road near Stouchsburg. It is very probable that several city scamps paid us a visit about that time, to commit depredations, but finding our people rather wider awake than they had calculated, left the place in a hurry after breaking Mr. Kelly's

display will far exceed that of last year, which, by the by, was not to be succeed at. Let all Paintings, in the city of Baltimore, was now a those who have an interest in the exhibition (and favorite object with Mr. Peale, and he accomplishwho has not?) take a lively part in the preliminaries, and success of the most cheering kind will be the result. We can get up the best fair in the state if we will it. Let us resolve to do so, and it will be as easy of accomplishment as to do

Prof. Bootandshoeblacker-ii enlightened some of our citizens last week by sevoral pertinent and importinent lectures on the subject of his art, in front of the Market House. The boys cheered him occasionally most vociferously, but in the main paid more attention, and were more orderly, than they usually are in the Court House upon occasions of Lectures of a more useful character.

Water street, between Market and Plank road, is becoming the liveliest part of town, occasioned by preparations for the erection of the new Reformed Church. Men, horses, wagons, lumber and stone have produced quite a change there during the past month.

The tunnels on the Reading railroad being completed, the wide cars of the Lebanot Valley Branch now run through to Philadelphia. The narrow cars continue to run between Reading and Pottsville-the portion of the read between the last named places being considered the branch road, while the Lebanon Valley assumes the dignity of main stem. Such changes frequently take place in the course of human events. There are still others, that will open the eyes before long, of some who have been looking upon Lebanon rather downwardly during the past generation.

Our neighbor Adam Grittinger, Esq., is named by some of the opposition journals for the nomination of Auditor or Surveyor General. Of all the gentlemen named for the Opposition nominations, Mr. Grittinger is about the only one not afflicted with that inveterate disease-office hunting. Cochran, Strohm, Keim Jordan, Sullivan, and all the others, are up every year, and every time "sot back!" Honce let them take some one not so easily disposed of-

'and that man is Mr. G, The Lectures to be delivered by Mr. D. B. Smith should be well patronized, as they are for the purpose of enabling him to prosecute his theological studies. The notice of the Lectures appears in the proper columns.

REMBRANDT PEALE. This distinguished artist, who painted "The Court of Death," the son of Charles William Peals, was born in Bucks county, Pennsylvania, whither his mother had fled from Philadelphia at the aprouch of the hostile British army, his father be-

with the army of Washington.
Rembrandt commenced drawing at the age of eight, from book drawing, between school hours; and so great was his love of art, that he injured his health by severe application to study, and laid the foundation of illness in after-life.

In 1796 he commenced his career as a portraitminter in Charleston, S. C., and at this time Washington gave him a sitting for a portrait, and this, with the aid of one painted by his father, gave rise to the portrait which is beyond question the most accurate likeness of Washington ever exccuted. It was purchased by the Government for two thousand dollars, and is now in the Senate

two thousand dollars, and is now in the Senato Chamber at Washington.

In 1801 Mr. Peale left Charleston and went to England. While in London, he published a memoir on the Mammoth, which is honorably mentioned by Cuvier. In 1807 Mr. Peale visited Paris for the purpose of painting some of the distinguished men of that nation, and to feast on the treasures Napoleon had assembled in the gallery of the Louvier. In 1829 Mr. Penle visited France and Italy, and, on his return, published a volume on the lutter country. In 1832 he made another visit to England, where he painted many portraits. Mr. Peale was elected President of the American Academy of Fine Arts, a position which he filled

with distinction and honor.

At an early age Mr. Peale was induced to make experiments on gas-light, and when he was an inhabitant of Baltimore, formed a coppany for lighting the city with gas, which was done in 1,-Riv Baltimore owes to him the honor of being the first of our cities that adopted this great im

He is now eighty one years of age; of his day. He is now eighty one years of age; resides at Philadelphia, and paints portraits and other works, with as much skill and fidelity as in his younger days. A few days since, Mr. Joseph Marrison of Philadelphia, gave him a reception dinner, at which many of the distinguished artists of New-York, and other cities, gathered to do

To say that this is a beautiful painting and a fine specimen of art, is saying too little for the "Court of Death." Lebanon, May 4, 1859.—1t.

rofula, or King's Evil, is a constitutional disease, a corruption of the blood, by, which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, dis-ordered, or unhealthy food, impure air, filth

and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous com-plaints, but they have far less power to with-stand the attacks of other diseases; conse-quently, wast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or

are aggravated by the same cause. One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterntive medicine, and invigorate sit by thealthy food and exercise. Such a medicine we supply in

Compound Extract of Sarsaparilla, the most effectual remedy which the medical skill of our times can devise for this every where provailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affec-tions which arise from it, such as ERUPTIVE and Skin Diseases, St. Anthony's Fire, Rose, or Enysipelas, Pimples, Pustules, Blotches, Blains and Bous, Tuxors, Tetter and Salt RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DIS BASES, DROPEY, DYSPEPSIA, DEBILITY, and. ndeed, ALL COMPLAINTS ARISING FROM VITIA-TED OR IMPURE BLOOD. The popular belief in "impurity of the blood," is founded in truth, for scrafula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in

contaminated constitutions. Ayer's Cathartic Pills, FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC, are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures and directions for their use in the following complaints. Costive! ness, Heartburn, Headache avising from disordered Stonuch, Nansea, Indigestion, Purn in and Marbid

Stomach, Nausea, Indigestion, Pain in and Mobid Inaction of the Boxels, Flatulency, Loss of Appe-tice, Jaundice, and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral, FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumntive Patients in advanced stages of the disease. So wide is the field of its usefulness and so nu-

merous are the cases of its cures, that almost every section of country abounds in persons pub-licly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are meident to our climate. While many inferior remedies, thrust upon the community have failed and been discarded, this community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and pro-duced cures too numerous and too remarkable to be forgotten. THE RESTORATIVE OF PROF. O. J. WOOD for re

storing hair perfectly and permanently, has never et had a rival, Volume after volume might be given rom all parts of the world and from the most intelligent to prove that it is a perfect Restorative; but read circular and you cannot doubt; read also the followcircular and you cannot doubt; read also the follow ing.

The Hark—People have for centuries been afflicted with bald heads and the only remedy, heretofore known has been those about able wigs. By a recent discovery of Professor Wood those articles are being fast dispensed with but a great many persons still patronize them, because they have been so often imposed upon by Hair Tonics of different kinds. To all such persons we carricestly make the request, that they will try once again, for in Wood's Restorative there is no such thing as fail. We know of a indy who was baid, who used the article a short time, and her head is now encered completely with the tiniest and most beautiful curls imaginable. We know of numerous cases where hair was rapidly falling ont, which it restored in greater perfection than it ever hall been before.

It is also without doubt one of the best articles for keeping the hair in good condition, making it soft and glossy, removing dual ruff and has proved itself the greatest enemy to all the fills that the hair is heir to It is the duty of overy one to improve their personal appearance though some may differ in regard to the ways of doing it; but every one will admit that a beautiful head of hair, either in man or woman, is an object much to be desired, and there are no means that should he left untried to obtain such a consideration.

[Idean's Advocate, Philadelphia.]

O. J. WOOD & Co.—Gents: As I have been engaged in selling your Ilair Restorative the last season for one of your local agents (R. M. Hackinson,) and have experienced the buncheial effect; of it myself. I would like to obtain an agency for the State of Ohio or some State in the West, should you wish to make such an arrangement, as I am convinced there is mobing equal to it in the Britad State, for restoring the hair. I have been engaged in the Drug business for several years.
