Messrs. Bubb & Umberger have dissolved their partnership. The Stove business will be continued by Messrs. Bubb & Bressler, at the old stand, where they have also commenced the Tining business. Slate Roofing is also done by Mr. Bubb, as usual.

Mr. C. P. Stinemitz of Annville, having been appointed Agent for Lebanon county for McCormick's Reaper and Mower, would respecifully notify the public that he is now prepared to furnish them. He also attends to repairing the same. Early orders are required. * See advertisement of McCormick's Reaper in the advertising columns. Mr. Stinemetz has now on exhibition, at Annville, several of Mc-Cormick's Reapers, to an examination of which Farmers are invited.

remain on the back track. They have taken the improvement spirit, and considerable excitement exists relative to the grading of their streets and pavements and the creetion of curbing. Myerstown will, in the course of years, become one of the handsomest towns in the state, and having such a future before it, it will save both time and money to go to work now and systematically.-The more buildings that are erected helterskelter, the greater the inconvenience of obtaining a grade, and the greater the trouble of obliging people to conform thereto.

Brilliant Stucco Wh ten ash For years the following recipe has appeared in the

ly dissolved by soaking it well; and than hanging over a slow fire, in a small kettle with a large one filled with water Add five gallons of hot water to the mixture, stir it woll, and let it stand a few minutes covered from the dirt. It should be put on right hot; for this purpose it can be kept in a kettle on a furnace. It is said that about a pint of this mixture will cover a square yard upon the outside of a house, if properly applied. Brushes more or less small may be used, according to the nestness of the job required. It answers as well as oil paint for wood, brick or stone, and is cheaper. It retains its brilliancy for many years.—
There is nothing of the kind that will compare with it, either for inside or outside walls. Coloring matter may be put in, and made of any shade you like. Spanish brown stirred in will make you like. Spanish brown stirred in will make red pink, more or less deep according to the quantity. A delicate tinge of this is very pretty for inside walls. Finely pulverized common clay, well mixed with Spanish brown, makes a reddish stone color. Yellow ochre, stirred in makes a low wash, but chrome goes further, and makes a color caparally extensed wretter. In all these a color generally esteemed prettier. In all these cases the darkness of the shades of course is determined by the quantity of coloring used. It is difficult to make rules, because tastes are differwhile Chemical and Mechanical means are resortent; it would be best to try experiments on a
shingle, and let it dry. We have been told that
green must not be mixed with lime. The lime destroys the color, and the color has an effect on the whitewash, which makes it crack and peel .-When walls have been badly smoked, and you wish to have them a clean white, it is well to squeeze indigo plentifully through a bag into the water you use, before it is stirred in the whole water you use, before it is stirred in the whole mixture. If a larger quantity than five gallons be wanted, the same proportions should be observ-

McCORMICK'S Reaper and 2,500 SOLD IN 1855, 4,000 SOLD IN 1857, 4,000 SOLD IN 1856, 4,500 SOLD IN 1858.

15.000 Sold in the Last 4 years!

No single establishment in the world can truthfully claim to have manufactured and sold anything like so large a number of Reaping, and Mowing Machines during the same time, while my experience dates back to the origin of my Machine; in 1834—1844 ing been actually and exclusively engaged in their manufacture for the last fifteen years. I am now more largely engaged in the manufacture, of these Machines than ever before, and with my improvements for 1850, do not hesitate to warrant my. Machine as a Reaper, Mower, and Reaper and Mower; superior to any other for simplicity, durability, and perfect working; and further to say, that farme, a who may desire it, are at liberty to work my Machine through the harbest with any other, and keep and pay for the one preferred. The position of the Raker in my Machine (as patented) upon the main frame, where, there is great, strength; and where the weight adds to the power of the Machine; is the only right one. Other makers have to having the dust thrown in his eyes by the operation of the red, and being joited over the clods by the little platform wheel over which he rides—necesserily racking their machine to pieces. This accounts, in part, for the great durability of my Machinevas compared with others. Great Council Medal awarded my Machine at London, in 1851. 15,000 Sold in the Last 4 years!

Publications made by the manufacturers of the Manny Medinic, claiming the highest honors, etc., at the French Universal Exposition, in 1855, and known by the manufacturers of the Manny Medinic, as included by the figures above, is its highest praise, while the awards of premiums, generally are worthy of no confidence, ulthough Reaper makers make a business of laboring and scheming to secure the little annual one-horse premiums of the country. Although it may not be generally understood, it is nevertheless true, that these Machines have always been sold at comparistively low prices, and but for the boldness with which I introduced and sold them by thousands, for ten years past, other smaller manufacturers would doubtless have put the price much higher.

I could furnish thousands of testimonials from Farmers, and others, of the truthfulness of every statement I have made, and much more. I may further remark that all of the Reaping Machines of any prominence in the country are mere modifications of my Machine, all other manufacturers having necessarily limited experience in comparison with my own.

the country are mere manifections of my manner, all other manufacturers having necessarily limited experience in comparison with my own.

A single year's SEVERE SERVICE will eatisfy the Farmer, that in point of DURABILITY, my Machine is very far superior to all others, besides several most important advantages, referred to in my regular Annual Circular in pamphlet form which will be furnished those who desire further information, by addressing me, or ANY ONE OF MY AGENTS.

CYRUS H. McCORMICK.

BY WM. S. McCormick.

P. S.—To correct a misapprehension from recent Newspaper reports, I may say, that, while the Commissioner refused to extend PATENT of 1845, that of October, 18-47 will not expire for several years to come, and that this has been my most important Patent; and further that Retper Manufacturers cannot copy more nearly my Machine than they have done heretofore. They must still carry their Raker on the back of the platform, and submit to other consequent imperfections.

THE RESTORATIVE OF PROF. O. J. WOOD for re-

This restorative how professors to the following hair perfectly and permanently, has never yet had a rival, volume after volume might be given from all parts of the world and from the most intelligent to prove that it is a perfect Restorative; but read also the following.

The Hark—People have for centuries been afflicted with bald heads and the only remedy, heretofore known, has been those abominable wigs. By a recent discovery of Professor Wood these articles are being fast dispensed with but a great many persons still patrontize them, because they have been so often imposed upon by Half-Tonics of different kinds. To all such persons we eard estly make the request; that they will try once signification in Wood's Restorative there is notice that him as fall. We know of a ladey who was bald, who used the article a short time, and her head is now divided winderly with the tiniest and most beautiful curls imaginable. We know of numerous cases where hair was rapidly falling out, which it restored in greater perfection than it ever had been before. It is also without doubt one of the best articles for keeping the hair in good coudition, making it soft and glossy, removing dandruff and has proved itself the greatest enemy to all the ills that the hair is helr to It is the duty of every one to improve their personal appearance though some may differ in regard to the ways of doing it; but every one will admit that a beautiful head of hair, either in man or woman, is an object much to be desired, and there are no means that should he left untried to obtain such a consideration.—[Woman's Advocate, Philadelphia
