Railroad was opened for regular passenger travel | in place of Jos. Euston and Adam Hean. on Wednesday last. The fare from Reading to New York is \$3,30. The connexion between the Lebanon V. lley Branch and East Pennsylvania was also made last week, so that passengers can be conveyed through to New York without change

GREAT TIME IN READING .- Our neighbors of Reading are to have a grand time of it on Friday, upon the occasion of the opening celebration of the East Pennsylvania railroad .-The New York Light Guards, one of the best Military companies of that city, numbering upwards of 100 rank and file, accompanied by Dodsworth's celebrated band, will visit Rending on that day; as also companies from Easton, Allontown, and other places along the line. The Military of Reading will also turn out in their strength to participate in the festival, so that it is expect. ed the military display will surpass anything of the kind that ever took place in the state outside of Philadelphia. By an advertisement in anothor column it will be seen that excursion tickets will be issued by the R. R. Company, good for three days at a reduction of nearly one-half on the regular fares.

THE WATCH SWINDLE.—A parcel of scamps are now traveling through this county swindling people in the following manner .-They have a bogus gold watch, they represent as worth \$150 to \$200, but having become reduced in money matters, and wishing to bring on a wife and children in New York, or some other place, will pledge the watch for \$25 or \$30, and redeem it in a short time after they receive the fortune they are expecting from abroad. Of course, the watch pledged not being worth over | ied \$5000; from which deduct the unavoidable \$5 the operation is a pretty nice one on the part payments to be made, \$3619, would leave a balance of \$1381, for grading, Culgerts, Bridges, of the scamps. On Saturday last the game was played to the tune of \$25 on a well to do farmer several miles from town, and several weeks ago another farmer in the county, to the amount of \$30. 15,000 Sold in the Last 4 years! 15,000 Sold in the Last 4 years!

No single establishment in the world can truthfolly claim to have manufactured and sold anything like so large a number of Reaping and Mowing Machines during the same time, while my experience dates back to the origin of my Machine. In 1834—having been actually and exclusively engaged in their manufacture for the last fifteen years. I am now more largely engaged in the manufacture of these Machines thun ever before, and with my improvements for 1859, do not hesitate to warrant my Machine as a Resper, Mower, and Rauper and Mower, superfor to any other for simplicity, durability, and perfect, working; and further to say, that Fagrid's, who may desire it, are at liberty to work my Machine through the harvest with any other, and keep and pay for the one preferred. The position of the Raker in my Machine (as patented) upon the main frains; where there is great strength; and where the weight adds to the power of the Machine, is the only right one. Other makers have to haul their Raker on the Platforin, where he must submit to having the dust thrown in his eyes by the operation of the reel, and being joited over the clods by the little platform wheel over which he rides—necesserily racking their machine to pieces. This accounts; in part, for the great durability of my Machine's accounts in part, for the great durability of my Machine's accounts in part, for the great durability of my Machine's accounts in part, for the great durability of my Machine's accounts in part, for the great durability of my Machine's accounts in part, for the great durability of my Machine's accounts in part, for the great durability of my Machine's accounts in part, for the great durability of my Machine's accounts in part, for the great durability of my Machine's accounts in part, for the great durability of my Machine's accounts in part, for the great durability of my Machine's accounts in part, for the great durability of my Machine's accounts in part, for the great durability of my Machine at London, in

In 1855, are known for the figures above. Is its highest praise, while the awards of premiums, Generally, are worthy of no confidence, although Reaper makers make a business of laboring and scheming to secure the little annual onchorse premiums of the country. Although it may not be generally understood, it is nevertheless truo, that these Machines have always been sold at comparatively low prices, and but for the boldness with which I introduced and sold them by thousands, for ten years past, other smaller manufacturers would doubtless have put the price much higher.

I could furnish thousands of testimonials from Farmitis, and others, of the truthfulness of every statement I have made, and much more. I may further remark that all of the Reaping Machines of any prominence in the country are mere modifications of my Machine, all other manufacturers having necessarily limited experience in comparison with my own.

TAKE NOTICE.

The old stone noorm is come to life again:
TOHN. PHTER MOYER would respectfully inform the public that he continues the business of LIMESTONES SAWING AND DRESSING by horse power, in Chestnut Street, East Lebanon. He finishes the following articles out of the best and soundest dimestone that can be procured in this neighborhood, vize—Doon Sills and Platforns, Steps, Window Sills and Heads, Cellan Doon Cheers, Curred Doors, Steps will as well as CHEEKS, CURB-STONES, Shoo. Scraper blocks, as well as any other article that can be manufactured of limestoned. His Curb-stones are from four to five inches thick; and his prices in accordance with the quality.

He was the first person that introduced the lime-stone into this place, and is now prepared to finish off lime-stone so as to give it an appearance very little inferior to that of the handsomest Marble, to proof of which assertion he directs the public to the finished work at his establishment. He respectfully invites all those who intend erecting new buildings, to call at his establishment and convince themselves, of the bxcellent, finish of his work as also of the cheapness of his prices.
