Lebanon, April 20, 1859. Emperor Napoleon was married to Maria Louisa on the 11th day of March, 1,. ly in 1811. It is the received opinion, gies that after the full of his father in 1814. he was transferred to Vienna, and there chricated under the paternal superintendonce of the Austrian Court; and that he finally died a victim to the dissipation taught and encouraged by his lov- New Coach Making Establishing relatives. This is the tale by which the world has long been deluded. Its least will appear from the following facts:—After the fatal termination of the Russian Campaign, the battle of Leipsic, and the entrance of the allies into France, Bonaparte found himself compelled to abdicate. He foresaw that he would be banished from France, and the world has long been deluded. Its his wife and child become prisoners of the allies. He had no fears for his wife. but he felt that the life of his son; the heir torbis crown, would not be safe in the power of the Austrians. He determined township the child to some tricape with him to America; while an infact of the same age should, with the consent of the Empress, be substituted for her child.

This arrangement was carried out,-The child was cultrusted to Louis Pointett, an old soldier of the steard, whose fidelity had been proved smid the sands of Egypt, and the sauws of Russia.-Poinett succeeded in escaping. He sailed from Rochio t early in May, 18, O'Rourk's Merchant Tailor-PROUPE'S Merchant Tailor14, in a small American brig, called the
Anna Eliza. After a tedious passage,
the exiles, landed safely in Boston, in
July of the same year. They remained
there during five es six months. Poinett then determined to remove into the
interior of the State; where chances of
discovery would be less, and his modersite means would go farther toward their
support. Here he resided for several
years. When the young prince was nine
years of age, Poinett confided to him
the secret of his birth, and showed him
letters from the Emperor. The young
prince was about ten, when Poinett died, leaving him but a small sum of money for his support. This was soon exthausted. No further remittances arriv-

the suffering from want, he was induced by the persuasion of the Shakers, with whom he fell in, at Pittsfield, to ploin their community. It assured him, at least, a home, and the necessaries of life. Here he grew up to a man's estate; became attached to his faith; and remained in quiet retirement. During this long period but one event of interest had interrupted the even tenor of his tife. That, however, was an event of much significance. This event was nothing less than a visit to Brother Joseph from Louis Napoleon, who went up to Lebanou, to induce him to "sign off" live of the second and Shoe store is fitted.

DHILADELPHIA MEDICAL HOUSE.—Established twenty two years ago by Dr. KINKBLIN, corner of Third and Union streets, Philadelphia, Pa.

TWENTY-TWO YEARS'

Experience has rendered Br. K. a most successful practitioner in the cure of all diseases of a private nature, manbood's debility, as an impediment to marriage; nervous and sexual infirmities, diseases of the skin, and those arising from abuse of mercury.

TAKE PARTICULAR NOTICE.

There is an evil habit sometimes indulged in by boys, in solitude, often growing up with them to manhood; and which, if not reformed in due time, not only begets serious obstacles to matrimonial happiness, but gives rise to a series of protracted, insidious, and devestating affections.

serious obstacles to matrimonial happinese, but gives rise to a series of protracted, insidious, and devastating affections.

Rew of those who give way to this pernicious practice are aware of the consequences, until they find the nervous system shattered, feel strange and unaccountable sensations, and vague fears in the mind. [See pages, 27, 28, 29, of Dr. K.'s book on "Self-Preservation."]

The unfortunate thus affected becomes feeble, is unable to labor with accustomed vigor, or to apply his mind to study; his step is tardy and weak; he is dull; irresolute, and engages even in his sports with less energy than usual.

If he emancipate himself before the practice has done its worst, and enter matrimony, his marriage is unfruitful, and his sense tells him that this is caused by his law of the same tells him that this is caused by his ment, and rely upon the assurance, that the secreta of Dr. K.'s patients will never be disclosed.

It wakes the attending of all who are similarly situated.

Ayer's Sarrsaparilla A compound remedy, in which we have labored to produce the most effectual alterative that can be made.—It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater siterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumaus complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints:—

Seasula and Seasuluous Cemplaints, Enuitrons and Enuitry Diseases, Ulcers, Pimeles, Blotters, Tumors, Salt Reum, Scald Head, Strills and Diseases. Trills and indeed the whole class of complaints arising from Impurity of the worst cases to be found of the more which feater in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bad. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul craptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the besty by an alterative medicine. blowing certificate alone is selected, as carrying with it the most indubitable evidence of the virtues of this wonderful medicine.

Sworn statement of David M'Creary, of Napier Township. Bedford county:

In April, 1856, as near as I can remember, a small pimple made its appearance on my lip, which soon became enlarged and sore. I used poultices of sorrel, and wash of blue vitrol, without effect. Finding the sore extending, I called on Dr. Ely, of Schelleburg, who pronounced it Cancer, and prescribed a wash of sugar of lead and broad p nylitices. Finding these remedies of no avail, I called suppo Dr. Shaffer, of Davidville. Somerset caunty, who also pronounced the disease Cancer, and gave me internal and external remidies—the latter consisting principally caustici; but all to no purpose, as the disease continued spreading toward the nose. I next used a preparation, of argenic, in the form of salve. This for a time checked the disease, but the inflammation soon increased. I next called upon Dr. Stafler, of St. Clairs ville, Bedford county, who also pron-unced the disease. Cancer, and applied a salve said to be a never failing remedy, but it hadno effect whatever in checking the spread of the sore. In December, of the same year, the disease had eaten away a greater part of my upper lip, and had attacked the nose, when I went to Cincinnati, where I consulted Prof. R. S. Newton, or the Electic Medical College. Me pronounced the disease "neutane-ous Cancer, superinduced by an inordinate use of merand had attacked the nose, when I went to Cincinnati, where I consulted Prof. R. S. Newton, of the Electic Medical College. He pronounced the disease "neutaneous Cancer, superinduced by an inordinate use of mercury." He applied mild zinc eintment, and gave me internal remedies. My face healed up, but the inflammation was not thoroughly removed. In February, 1857, he pronounced me cured, and I left for home. In April the disease again returned, and so violent was the pain that I could not rest at night! Late in May I returned to Cincinnati, and again placed myself under the charge of Dr. Newton, with whom I remained until September during which time he used every known remedy, and partly succeeded in checking the disease, but when I returned home there were still three discharging ulcers upon my face. I continued using Newton's preparations, and also medicine that I got from Dr. Ely, but the Cancer ontinued growing until it had cat off the left side of my mose, the greater portion of my left check, and had attacked my left eye. I had given up all hope of ever being cured, since Dr. Ely said he could niverelief, but that a cure was impossible. In March, 1858, I bought a bottle of "Bloed Searcher," but I must confess that I had no faith in it. I was very weak when I commenced taking it; but I found that I gained strength day by day, and also that the ulcer commenced drying up. I continued, and when the third bottle was taken my face was healed as if by a miracle. I used a fourth bottle, and I have been healthier since than I have been for the last seven years. Although my face is sadly diefigured. I am still grateful to a benign Providence who hasparded my life, and which has been done through the instrumentality of Lindser's Improved Blood Searchers.
